SANTA CRUZ HARBOR I-DOCK RESTROOM REHABILITATION

Addenda: 2

4/15/24 10:00 AM 24-01094 Santa Cruz

Public Works

Plan Issuer: Santa Cruz Port District scpd@santacruzharbor.org

831-475-6161 831-475-9558

Prebid Conf: MAND 3/27 @ 10am- site

Contract #: 2024-F012

The Santa Cruz Port District invites qualified contractors to submit sealed bid proposals for the Santa Cruz Harbor I-Dock Restroom Rehabilitation Project. Work to be done as part of this project consists, in general, of renovating the existing I-Dock restroom and shower facility located in the north harbor. The project includes interior repair, siding repair, and accessibility improvements to the existing building. The footprint and use will remain unchanged. No in-water work will be performed, and all docks, piles, and gangways will remain undisturbed.

\$240,000

School

Plan Issuer: Oakland Unified School District marcus.board@ousd.org

510-277-6719

000-000-0000

Prebid Conf: MAND 4/5 @ 10 AM at front entrance of the Bret Harte School Site

Contract #: 70040

The scope of work consists of upgrades to existing intercom/paging/clock & bell/telephone systems. The intent is to proceed on an IP-based upgrade platform to allow for new technology, expanded capabilities, and to future-proof these systems. The District want's an upgrade approach utilizing the new Telecenter U IP platform from "Rauland Borg" ONLY, coupled with a new Cisco VoIP telephone solution (provided by others). Comtel will program into the new Tele center system full SIP integration signaling allowing access from Cisco VoIP phones into the system capabilities. The new Telecenter U system will not only provide integrated paging, intercom, clock & bell functionality, but a vast array of emergency signaling and life-safety capabilities. Additionally, once this initial platform is online, all school sites can eventually be integrated allowing for centralized command and control for centralized administration/programming, District-wide paging, and lockdowns, etc. (A more detailed description of the scope is referenced in the Division 1 Specifications, Section 01 11 00 SUMMARY OF WORK 1.02).

PLEASE NOTE: This Contract is subject to prequalification pursuant to Public Contract Code section 20111.6. Prospective bidders must currently be on the District's Certified Contractor's List.

RFP FOR ELEVATOR CONDITION ASSESSMENT AND MODERNIZATION PLAN

Addenda: 0

4/15/24 2:00 PM 24-01272 Oakland

Public Works

Plan Issuer: Alameda County General Services Agency (GSA)

510-208-9700 510-208-9711

Contract #: 902447

The Alameda County General Services Agency - Building Maintenance Department (GSA-BMD) intends to procure professional services to perform a comprehensive condition assessment report and develop and implement a plan to modernize the elevator equipment at the AlcoPark Parking Garage located at 165 13th Street in Oakland, CA.

GSA-BMD maintains two (2) hydroelectric passenger elevators at the AlcoPark Parking Garage. This building was built in 1962. Below in Section D.4 (Specific Requirements - Existing Elevator Information) is a description of the equipment. The existing elevators were installed in 1963. The date of the last modernization of the elevators is unknown. The current conveyance permits are on file with the State of California Department of Industrial Relations and are attached as Exhibit B of this IRFP. Given the elevators' likely age and duty requirements, GSA-BMD intends to complete a comprehensive condition assessment, survey, and inspection. Based on the results of the report, GSA-BMD will develop and implement a modernization plan for the elevators. GSA-BMD is seeking proposals from qualified consulting firms to provide a turnkey project approach that will include identifying all necessary infrastructure work to deliver modernized and code-compliant elevators acceptable to all Authorities Having Jurisdiction (AHJ) of this work. Please note: the awarded contractor for this IRFP will not be eligible to bid on any subsequent solicitations released as a result of this IRFP.

2023-2024 GRADE 5 RAA LINE REPLACEMENT PROJECT

Addenda: 3

4/16/24 11:00 AM 24-01130 Richmond \$2,500,000 **Public Works**

Plan Issuer: City Of Richmond - Public Works 510-774-6300 000-000-0000
 Prebid Conf: MAND 4/3 @ 10 AM at Richmond WWTP, 601 Canal Blvd., Richmond
 Veolia Water West Operating Services, Inc. operates and maintains the City of Richmond's Wastewater Treatment Facility (WWTF) and the associated sewer collection system. The work will include pipe segment replacement of deteriorated sewer pipe segments within the collection system using pipe bursting, open cut, or pipe reaming as discussed further below. The work shall include manhole installation and/or replacement and/or full interior surface (e.g. chimney, cone, wall, bench, and channel) rehabilitation when the adjacent pipeline is replaced, and manhole frames and covers as necessary. For pipe replacement work, pipe bursting is the preferred method, followed by open cut and then pipe reaming.

The pipe segments to be replaced for this project are identified in Scope of Work Attachment A. The line segments identified may be modified from time-to-time during the project. The selected Contractor shall conduct a pre-CCTV of each line segment to the greatest extent possible to mark and locate the defects prior to commencement of the Work. A complete NASSCO graded post-construction CCTV survey of the entire line segment (manhole to manhole) shall be completed upon completion of the work (no later than one week after the repair or replacement) and provided to Veolia. If following the repair, the line remains inaccessible, the contractor shall provide a supplemental repair cost proposal with the CCTV video for consideration.

RFP DISTRICT WIDE VIDEO SURVEILLANCE SECURITY SYSTEM

Addenda: 4

4/16/24 2:00 PM 24-00946 Hayward & Union City

School

Plan Issuer: New Haven Unified School District - Corporation Yard

510-471-5559

000-000-0000

Prebid Conf: MAND 3/18 and 3/19 starting at 9 AM (See Notice Requesting Proposals for site locations)

Contract #: 745

The New Haven Unified School District (NHUSD) is deploying a new video surveillance security system District Wide this project will serve as a districtwide enterprise level video surveillance system deployment. NHUSD plans to implement an IP-based surveillance camera system with on premise gateway device providing cloud archiving and system management capabilities. Currently, NHUSD has no access control system ("ACS") and this system is excluded from this project scope of work. The project delivery method is design-build; performance bridging documents are provided for contractor use. The contractor shall be responsible for furnishing a complete solution inclusive of infrastructure needs including switches, patch panels and cabling to meet NHUSD IT requirements. The performance documentation provided will serve as the basis of design and the contractor is responsible for developing point-to-point shop drawings during preconstruction.

NHUSD is seeking a low voltage security installation firm for District Wide new IP-based video surveillance system project. The selected firm will be expected to meet all qualified requirements of and work with the District to provide low voltage communication cable, cabling, and installation of all DBE provided security surveillance devices and equipment that meets and fulfills all criteria as provided in this RFP.

PLEASE NOTE: The Job Walks will be held on Monday, March 18th and Tuesday, March 19th, 2024 starting at 9:00 AM at the following sites:

March 18, 2024 starting at 9:00AM

1. Educational Services Center (ESC) 34200 Alvarado-Niles Road, Union City

000-000-0000

Contract #: 12777A

The University of California, Berkeley is seeking the services of a testing agency for the purpose of assessing a purpose-built building envelope performance mock-up as well as executing field tests of the as-installed building envelope.

Housing Project No 2 is part of the University's comprehensive effort to address an urgent student housing crisis and the challenges it creates for the campus and its urban neighbors. Housing Project No. 2 will be approximately 330,000 gross square feet, and will accommodate up to 1,100 beds in apartment style units, and ancillary spaces to support the housing program, including but not limited to a retail food market, laundry facilities, meeting spaces, and offices and additional space for staff and operations. Site development objectives include the creation of flexible open space and commemorative elements that are integrated into the landscape and hardscape.

Webcor Builders is the University's Construction Manager/General Contractor for Housing Project No. 2 and is overseeing a team of delegated design-builders of the project's building envelope. A building envelope commissioning agent has also been retained by the University as part of the commissioning requirements related to the project's LEED certification goals.

The proposed building envelope performance mock up is approximately 45'-0" wide, 7'-0" deep, and 20'-0" high and is intended to be installed at the selected testing service provider's facility, on a structure that the testing facility shall provide. Laboratory tests and field tests are as specified in the construction documents.

RFQ FOR ON-CALL ENGINEERING AND ENVIRONMENTAL PROGRAMS INSPECTION AND PLANCHECK CONSULTANT SERVICES

Addenda: 1

4/16/24 5:00 PM 24-01414 Emeryville

Public Works

Plan Issuer: City of Emeryville - DPW 510-596-4330 000-000-0000

The City of Emeryville ("City") invites proposals from qualified firms to provide "On-Call Engineering and Environmental Programs Inspection and Planchek Consultant Services" ("Consultant"), as set forth in this Request for Qualifications ("RFQ"). Firms submitting proposals must be prepared to immediately enter into a Professional Services Agreement ("Agreement") for the services described in this RFQ and must be available to the City on an as-needed basis for a three year agreement term, with the option for two one year extensions. The estimated budget for the three-year period is an average of \$400,000 per year for \$1,200,000 total. Public Works Permit Inspection and Construction Management is estimated to use 65% of the budget, City Engineer Support and Planchek Services is expected to use 12% of the budget, and Environmental Programs Regional Stormwater Permit Provision C3 Planchek and Inspection Services estimated at 23% although the actual use may vary.

HAL BROWN BRIDGE & PATHWAY PROJECT

Addenda: 9

4/17/24 2:00 PM 24-01152 Greenbrae

\$774,000

Public Works

Plan Issuer: County of Marin, DPW bids@marincounty.org

415-473-7877

000-000-0000

Prebid Conf: MAND 4/3 @ 11:30 AM (meet at Hal Brown Park, 255 Bon Air Road, Greenbrae, CA) Contract #: MCP 2024-01

The Project is located in Creekside Marsh, a restored wetland between Bon Air Road and the Corte Madera Creek multi-use pathway. The scope of the project generally includes removing 2,300 square feet of existing asphalt pathway and an existing wood-framed bridge and foundations; and the installation of a new prefabricated bridge, an elevated wooden boardwalk, and new sections of asphalt pathways. The new bridge, boardwalk and pathway will be 10-feet wide and shall be compliant with all ADA accessibility requirements.

The existing asphalt pathway will be removed, backfilled with native soils, and regraded to match existing adjacent grades. Construction of the new raised pathway includes the use of asphalt pavement, aggregate base, and lightweight backfill material. The purpose of the lightweight backfill is to reduce settlement in the underlying bay mud.

The new prefabricated bridge will span 120 feet between new concrete abutments. The new wooden boardwalk will be approximately 47 feet in length and span between new concrete abutments. Helical piers will be utilized to support the concrete abutments and wooden boardwalk. The new sections of asphalt pathways will be installed at both ends of the project, adjacent to the new prefabricated bridge and adjacent to the new wooden boardwalk. Construction of bridge abutments, boardwalk, and raised pathway will be outside the limits of wetlands.

Questions concerning the Bid should be submitted via Bid Express at: <https://www.bidexpress.com/businesses/53528/home?agency=true>

no later than 5 PM on Friday, April 5, 2024.

MCNEARS BEACH PIER REPAIR PROJECT

Addenda: 10

4/18/24 2:00 PM 24-01129 San Rafael

\$3,268,000

Public Works

Plan Issuer: County of Marin, DPW bids@marincounty.org

415-473-7877

000-000-0000

Prebid Conf: MAND 4/2 @ 1 PM (Zoom Pre Bid Meeting. See Notice to Bidders for attendance instructions.)

Contract #: MCP 2024-02

Improvements for this project will generally include installation of temporary shoring to stabilize the end of the pier causeway followed by removal of the sunken portion of a vessel and repair of damage to one prestressed concrete pile, a section of wood railing, a steel expansion joint, and concrete curb. This damage occurred as a result of a vessel impact.

Two exclusive alternate bid scope items are included for the repair of damaged Pile F14, that involve either repair of existing Pile F14 or installation of one precast concrete pile and extension of one pile cap at Bent 14. The repair detail and associated alternate bid item will be determined after additional underwater pile inspection is performed during construction. Alternate Bid Item A1 - Pile Collar Repair will be used unless the underwater pile inspection indicates that the existing Pile F14 cannot be repaired and reused, in which case Alternate Bid Item A2 - Driven Pile Repair will be used.

PLEASE NOTE: Bidder must visit the work site before submitting a bid. Bidder shall thoroughly investigate and understand the all project requirements and conditions including, but not limited to, regulatory permit conditions (see Appendices), pier access, public safety, existing underground and overhead utilities, steep, rocky terrain, road width, space needed to flag traffic, staging and site access challenges.

Questions should be submitted via Bid Express at: <https://www.bidexpress.com/businesses/53528/home?agency=true> no later than 5:00 PM on Friday, April 5, 2024.

NEW RFP - RCU MOBILE OFFICE (EECO)

Addenda: 0

4/18/24 2:00 PM 24-01483 Carmel-by-the-Sea

Public Works

Plan Issuer: Monterey Peninsula Regional Park District

831-372-3196 831-372-3197

Contract #: RFP 202324-12

Monterey Peninsula Regional Park District (MPRPD) is experiencing a workspace deficiency within the Discovery Center, resulting in the need to create office and work space in a new onsite location. This temporary space is to accommodate District Environmental Education and Outreach (EECO) staff with meeting and work stations spaces. Staff propose to purchase an office trailer to serve as workspace to address the needs of current EECO staff and allow for some expansion of staff resources. This building will be staged adjacent to the Rancho Canada Unit Maintenance Building and is intended to provide six workstations for EECO staff stationed at Palo Corona Regional Park, plus a meeting room that can accommodate 8-10 people.

Materials submitted by respondents are subject to public inspection under the California Public Records Act (Government Code Sec. 6250 et seq.), unless exempt. Additionally, the District reserves the right to reject any or all proposals submitted.

Public Works

Plan Issuer: City & Co of San Francisco-DPW olivia.lee@sfdpw.org

628-271-3160 000-000-0000

Contract #: 9086

San Francisco Public Works (Public Works), a department of the City and County of San Francisco (City), seeks to award up to five (5) master agreements (Contracts) to pre-qualified Consultants and/or joint venture (JV) firms to provide Cost Estimating Services and related services on an as-needed basis.

The selected Consultant, including its team of subconsultants, will support the Building Design and Construction Division of Public Works. The Consultant will provide Cost Estimating Services and other related services as described in Section 2 - Scope of Services of the RFQ. Projects may include various building facilities, such as library buildings, fire stations, police stations, health service centers, hospital buildings, recreation centers, parks, pump stations, and other City-owned facilities.

The City intends to award up to five (5) master agreements with a not to exceed value of up to \$1,800,000 for each master agreement. Public Works reserves the right to change the contract amount and have the sole discretion to extend the Contract duration to be awarded consistent with City contracting requirements.

Questions regarding the RFQ must be submitted no later than March 27, 2024, by 4:00 P.M., Pacific Time by email to the Contract Manager at: olivia.lee@sfdpw.org.

RFP FOR PROFESSIONAL DESIGN SERVICES - POWELL STREET REDESIGN

Addenda: 0

4/18/24 5:00 PM 24-01084 Emeryville

Public Works

Plan Issuer: City of Emeryville - DPW

510-596-4330

000-000-0000

The City of Emeryville ("City") is seeking a design consultant ("Consultant") to complete the conceptual design and preliminary cost estimate for street improvements on Powell Street from W. Frontage Road west to the end of the Emeryville Marina, including protected bike lanes, wider sidewalks, and other streetscape improvements that may include wayfinding, green infrastructure opportunities, and public art. This project is anticipated to be delivered in tandem with the Powell Street Sewer realignment project (CIP # 24511013). The City believes an urban design firm with an engineering subconsultant would be the best fit for the project to produce a 35% design.

RFQ FOR ON-CALL MARINE ENGINEERING DESIGN SERVICES FOR NON-FEDERALLY FUNDED PROJECTS AT THE PORT OF OAKLAND

Addenda: 2

4/19/24 12:00 PM 24-01174 Oakland

Public Works

Plan Issuer: Port of Oakland

510-627-1140

000-000-0000

Contract #: 2024-03

The Port of Oakland (Port) has issued this RFP or RFQ (Request) to solicit Statements of Qualifications (Response), from qualified consultants (Respondent) for on-call Marine Engineering Design services for non-federally funded projects. The firms selected will provide services for a four year period with two one-year options to extend. The budget for all projects described is expected to not exceed \$7,000,000 for all contracts over the initial 4-year term. The selected Marine Engineering Consultants for Non-Federally Funded Projects are expected to be under contract with the Port by October 2024.

The successful respondent will provide on-call marine engineering design services on various Port projects such as:

- Fendering System Improvements
- Terminal Rehabilitation
- Electrical Infrastructure Upgrades
- Pile Stabilization Program
- Wharf Upgrades for Ultra Large Container Vessels
- Wharf Soffit Repair

TRASH COLLECTION SERVICES IN PARKS

Addenda: 1

4/19/24 2:00 PM 24-01350 Pleasanton

Public Works

Plan Issuer: City of Pleasanton - Engineering

925-931-5650

000-000-0000

Prebid Conf: 4/10 @ 9:30 AM at Operations Services Center, Remillard Room, 3333 Busch Road, Pleasanton Contract #: 24-302

The City of Pleasanton is seeking bids for the collection of trash from waste receptacles for various park and trail locations throughout the City. The Parks Maintenance Division maintains over 385 developed acres of parkland at 46 sites and 1,016 acres of open space parkland, in addition to the care of sports fields, tennis courts, picnic and play areas.

The Scope of Work consists of providing trash and recyclable collection services for the areas and sites outlined in the PDF maps contained in the bid package. The number and location of each collection device included may vary.

1. Trash Collection. Provide trash collection at various parks and trails located throughout Pleasanton. Reline trash receptacles with a new liner and haul trash to Pleasanton Garbage Services.
2. Cleanup. Before Contractor leaves each site, no trash shall remain near receptacle.
3. Supervision and Management. Respond to questions and resolve problems as they arise.
4. Updates. On a schedule to be determined by the Parks Division Manager, provide updates on all current and future activities to the Parks Division Manager.

EAST OAKLAND PRIDE ELEMENTARY SCHOOL SITE IMPROVEMENTS (REBID)

Addenda: 2

4/22/24 2:00 PM 24-01193 Oakland

\$3,700,000

Public Works

Plan Issuer: Oakland Unified School District shivani.more@ousd.org 213-275-7494 000-000-0000
 Prebid Conf: MAND 4/4 @ 10 AM at front entrance of the East Oakland Pride School Site. Contract #: 22144

Project consists of: Demolition of school yard, parking lot, existing storage portable. Replace asphalt pavement wherever indicated on plans. Replace on-site storm drain system, provide, and install new irrigation system and storm drain infrastructure as shown on the plans. New concrete curb, curb ramps, gutter, sidewalks, speed tables, crosswalks to be provided in the parking lot. Widen driveway at the street (refer PX permit plans). Install new traffic and directional signage for parking, traffic, passenger, and school bus loading zones with appropriate striping as indicated in the plans. New striping throughout the yard as shown on the landscape drawings. Installation of 6 owner furnished contractor installed (OFCI) hoops for the basketball court and multi- sport courts. Wall prep for murals as indicated on plans - Power wash, patch, prime/base coat, and finish coat. Contractor to provide new fences and gates as indicated. Surface prep for the three nature areas (perennial plant garden, nature plant garden, outdoor classroom) as shown on the plans. All tree, plants, and shrubs components (unless otherwise noted) as indicated on the plans. Construction duration is 60 calendar days. Double shifts (complying with Oakland's noise ordinance) shifts can be included to complete the work as required. Please include number of double shifts included in your proposal. Selection of the contractor will be based on the base bid, construction schedule (including double shift work days), add alternate items.

Exclusions from the contract/scope -

Furnish and install of electric vehicle charging stations (EVCS), marquee, silva cells systems, white board, two basketball courts, three nature areas (perennial plant garden, nature plant garden, outdoor classroom). Furnish and install courtyard tables, synthetic turf, 4' chain link fence with gate around the synthetic turf and play structure. Furnish and install all plantings (plants, trees, shrubs) in the parking lot and the yard. Furnish six bison hoops for the multisport and the basketball courts.

Provide Add Alternate prices for:

1) Alpha (eye and cee benches) - Engineer's estimate \$68,000

PLEASE NOTE: This Contract is subject to prequalification pursuant to Public Contract Code section 20111.6. The prequalification deadline date is April 12, 2024. Prospective bidders must submit a completed prequalification questionnaire via email to: Juanita Hunter at: juanita.hunter@ousd.org.

RFP FOR CENTRAL RESERVOIR REPLACEMENT PROJECT DESIGN SERVICES - EBMUD

Addenda: 2

4/22/24 4:00 PM 24-00725 Oakland

Public Works

Plan Issuer: EBMUD (East Bay Municipal Utilities District) purchase@ebmud.com 510-287-0447 000-000-0000
 Prebid Conf: 3/19 @ 2 PM - Virtual Pre Proposal Meeting (See RFP packet for details) Contract #: 551-24-01
 Central Reservoir, a 154-MG open-cut reservoir constructed in 1910, is located on a 27-acre site in Oakland that is bounded by 23rd Avenue to the west, Sheffield Avenue to the east, 25th Avenue/East 29th Street to the south, and Interstate 580 (I-580) to the north (see Figure 5).

The Central Reservoir Replacement Project (Project) involves replacing East Bay Municipal Utility District's (EBMUD; District) 154-million gallon (MG) open-cut reservoir with three new 14-MG prestressed concrete tanks situated within the northern portion of the existing reservoir basin. The Project will improve water service reliability, water quality operations, and long-term maintenance by replacing an aging facility and embankment dam with an optimally sized facility that matches the elevations of the other existing reservoirs in the Central Pressure Zone. The higher reservoir elevation will improve operational flexibility by allowing Central Reservoir to support future planned and unplanned outages of other facilities, improve reliability by providing buffer storage to the west-of-hills distribution system, and improve water quality operations by right-sizing the storage amount and increasing the operating range of Central Reservoir.

EBMUD is requesting professional services proposals for the design of the Project. Given the size, complexity, and length of the overall schedule required to complete the Project, EBMUD plans to take a phased approach by negotiating and issuing two separate consultant contracts as shown in Table A.

PLEASE NOTE: Site Walk will be held on March 12, 2024, at 9 AM at Central Reservoir, 25th Ave and E 29th St., Oakland, CA.

Questions: Roya Yazdani, Associate Civil Engineer, at (510) 287-7064, or by email at: centralreservoirreplacement@ebmud.com; roya.yazdani@ebmud.com

NEW SAN RAFAEL HIGH SCHOOL FIRE ALARM UPGRADES (SUB BIDS REQUESTED)

Addenda: 0

4/22/24 5:00 PM 24-01442 San Rafael

School

Plan Issuer: Wright Contracting, Inc. BWalker@wrightcontracting.com 707-528-1172 707-528-3714
 Prebid Conf: 4/11 @ 7 AM (meet at San Rafael HS, 150 3rd St., San Rafael)
 Wright is seeking bid proposals for the Fire Alarm Upgrades for the entire San Rafael High School campus. Bidders must hold a C-10 Electrical license and must be prequalified with the San Rafael City Schools prior to submitting a bid proposal.

The Project consists of: Provide and install new fire alarm equipment, devices, and wiring on seven buildings and portable classrooms. Temporary removal of existing suspended ceilings, where occurs, for installation of new fire alarm wiring and devices.

All RFI's shall be submitted in writing via Building Connected at:
<https://app.buildingconnected.com/opportunities/660ee030766ddf005c9115df/messages>

RFP FOR TOMATO STAND FISH PASSAGE PROJECT - EBMUD

Addenda: 2

4/23/24 1:00 PM 24-01309 Contra Costa County

Public Works

Plan Issuer: EBMUD (East Bay Municipal Utilities District) purchase@ebmud.com

510-287-0447 000-000-0000

Prebid Conf: 4/10 @ 10 AM (Meet at the project site, not at the watershed headquarters as stated in the RFP. The project site is about 1.3 miles east of the intersection of Alhambra Valley Road & Castro Ranch Road and has no street address. Meeting will be at the turnout on Alhambra Valley Road at the following coordinates: 37°58'11.8"N 122°12'57.7"W)

Contract #: 482-24-01

East Bay Municipal Utility District (District) intends to award a 2 year contract to the Proposer(s) who best meets the District's requirements.

The East Bay Municipal Utility District is completing a fish passage project at the Tomato Stand Project site on Pinole Creek on EBMUD's Pinole Valley Watershed in Contra Costa County. The Project site is located on an unpaved fire road approximately 50 feet from Alhambra Valley Road (37.969825,-122.215572).

The Pinole Creek Tomato Stand Fish Passage Project will replace a perched, undersized 30 foot long, 6-foot corrugated metal culvert with a channel spanning bridge and channel improvements to improve fish passage at the site for steelhead and resident rainbow trout. The bridge will not be open to the public and the main purpose is to provide access for fire vehicles, maintenance personnel and farm equipment. EBMUD has received grant funding from the Wildlife Conservation Board for the planning and permitting stages of the project. The planning and permitting phases will include the following tasks: baseline site surveys and assessment, fish passage analysis, bridge and channel design, environmental permitting, project management and grant administration. This RFP seeks a qualified consultant to complete baseline site surveys, a fish passage assessment, fish passage design, environmental permitting and facilitate meetings as required for the project. EBMUD staff will perform grant administration duties.

Questions: Bert Mulchaey, Supervising Biologist, at (510) 287-2038, or by email at: bert.mulchaey@ebmud.com

ALVES STREET AND LEIGHTON STREET DRAINAGE IMPROVEMENTS PROJECT

Addenda: 2

4/23/24 2:00 PM 24-01283 Hayward

\$165,000

Public Works

Plan Issuer: City of Hayward - Engineering

510-583-4730

510-583-3620

Prebid Conf: 4/9 @ 10 AM via Microsoft Teams Meeting. Visit bidnetdirect.com for website URL or Contract #: 07794
email Kevin.Yoshiki@haywardca.gov to request an invitation.

The work consists, in general, of drainage improvements in the form of creating a valley gutter at the intersection of Alves Street and Leighton Street to alleviate drainage issues during heavy storms. There will also be street pavement grading at the intersection including full width grinding, placing HMA overlay, adjusting utility frames and covers to grade, protecting existing curbs, and performing other items or details, not mentioned above, that are required by the plans, and as specified in the Standard Specifications or these Special Provisions.

Prebid Conf: 4/10 @ 2:30 PM at the front admin office, 800 Marylin Avenue, Livermore

*** Rodan Builders is the selected lease-leaseback developer for the project ***

The project shall include, but not be limited to, the following: the construction of a new building (Building E) comprising (2) general classrooms and (2) TK classrooms, along with support spaces. Additionally, the project involves the modernization of existing spaces and systems, including the entirety of the library building (Building K) to accommodate a general classroom and research center. Furthermore, one existing science classroom in Building D will transition into a general classroom. HVAC unit replacements will be carried out at existing buildings D & K. Various site enhancements are planned, such as new site fencing/gates, a new TK play yard, and upgraded outdoor learning areas adjacent to the new general classrooms.

This project is a public works project. All workers must be paid prevailing wages.

PLEASE NOTE: MEP SUBCONTRACTORS MUST PREQUALIFY WITH THE DISTRICT to bid on the project.

000-000-0000

Prebid Conf: MAND 4/16 @ 3 PM (meet at Sunset ES, 1940 41st Ave, San Francisco)

Contract #: 12402

The Project is generally described as: Play Yard Chain Link Fence Replacement. There is hazardous materials abatement work in the project.

SCOPE OF WORK:

Contractor shall furnish labor and material to remove and dispose approximate 225 feet of existing chain link fence, which is located on the west side of the school yard (above the Public Health Office on 41st Avenue). New fence will start from the southwest corner and continue to meet the new gate by the yard stair which leads down to 41st Avenue; remove and dispose existing fence posts and related accessories/hardware and install approximate 225 feet of new chain link fences, fence posts, cast-in-place concrete foundations for new fence posts, and related accessories/hardware. New holes will be drilled for the post foundations which are located right below the existing concrete curb (on the yard side). The bottom of the new fence shall be leveled with the existing concrete curb.

Fence posts shall be installed at a maximum spacing of 10 feet on centers. The new chain link fence shall be 12 feet high with 2 inch wire mesh fabric. Cast in-place concrete shall be 3,000 psi, 36" deep by 12" diameter foundations and below grade. Patch existing holes of old fence post locations. Remove and re install existing benches if required to facilitate the installation.

Questions: William Chow, Project Manager, at (415) 828-7292, or by email at: choww@sfusd.edu

NEW D-1229 STUDENT UNION BUILDING GENDER INCLUSIVE RESTROOMS AT DIABLO VALLEY COLLEGE - PLEASANT HILL CAMPUS

Addenda: 0

4/24/24 2:00 PM 24-01449 Pleasant Hill

\$150,000

School

Plan Issuer: Contra Costa Community College District bcayabyab@4cd.edu

925-229-6956

925-370-7512

Prebid Conf: MAND 4/11 @ 9 AM at Diablo Valley College, 321 Golf Club Road, Martinez (Meet at Contract #: D-1229 Parking Lot #8)

The proposed project consists of the alteration of a men's and a women's restroom in an existing building at the Diablo Valley College Pleasant Hill Campus into two separate gender neutral restroom facilities. The new toilet partitions extend greater than typical heights, with a bottom elevation of 3/8" AFF (above finish floor) and a top elevation of 88" AFF, requiring the widening of accessible toilet stalls. Two existing urinals in the men's restroom will be replaced with a single toilet. No ceiling work, including mechanical, electrical, and fire alarm is included in scope.

ONLINE

Public Works

Plan Issuer: Metropolitan Transportation Commission 510-817-5700 000-000-0000
Prebid Conf: MAND Mandatory Pre-Bid Conference & Site Visit 4/3 @ 1PM Contract #: SFEP-IFB-26825

Association of Bay Area Governments (ABAG) is soliciting bids for the construction of the Palo Alto Horizontal Levee Project. The Association of Bay Area Governments (ABAG) San Francisco Estuary Partnership (SFEP) in cooperation with the City of Palo Alto (City) will be seeking bids for the construction of the Palo Alto Horizontal Levee Pilot Project (PAHLP) proposes to construct a horizontal levee and irrigated ecotone at a site in the City. The Project site is directly adjacent to the City's Regional Water Quality Control Plant ("RWQCP") and Byxbee Park. The Project location is also adjacent to the existing Harbor Marsh, an approximately 90-acre tidal saltmarsh that was established within the former Palo Alto Yacht Harbor. The Project site is bounded by Harbor Marsh to the east, Embarcadero Road to the north, the RWQCP and Harbor Road to the west, and the Byxbee Park parking lot entrance to the south. The project involves constructing a levee berm, installing a new pump at the RWQCP, installation of a buried pipeline (effluent line) along Harbor Road and Embarcadero Road, and routing treated effluent to a new horizontal levee adjacent to Harbor Marsh.

NEW PREQUAL: PARNASSUS HEIGHTS (PH) DOMESTIC WATER MAINS REPLACEMENT - PHASE 2 - UCSF Addenda: 0

4/24/24	2:00 PM	24-01524	San Francisco	\$5,700,000	Hospital
Plan Issuer: UCSF - Tra Thanh tra.thanh@ucsf.edu				415-244-3920	000-000-0000
				Contract #: PRJ-000326	

GENERAL DESCRIPTION OF WORK:

The Parnassus Heights Water Mains Replacement Program addresses the corroded, end-of-life condition of the domestic water mains system at the Parnassus Heights Campus. UCSF has determined that this Program is mission-critical to its operations, requiring replacement, to avoid disruption of services which could occur should the water mains break.

The Parnassus Heights campus site is the oldest of the UCSF campus sites, comprising approximately 107 acres of land. Approximately 6,100 linear feet of water main lines support the campus and can be defined in 20 segments. This project comprises 7 of the 20 segments. Note that 11 of the 20 segments are covered in the scope of other projects, including Phase 1 of the Water Mains Replacement Program.

This Phase includes the following piping segments:

01. Segment 4: interior, Health Sciences East (HSE) Building.
02. Segment 5: exterior, from Parnassus Ave to School of Dentistry.
03. Segment 6, 18: exterior, along Koret Way Parking Lot/roadway near Koret Vision Center.

RFIs are due no later than April 17, 2024, at 2 PM.

NEW 2024 ROAD SEALANT PROJECT

Addenda: 1

4/24/24	2:30 PM	24-01489	Marin County	\$650,000	Public Works
Plan Issuer: County of Marin, DPW bids@marincounty.org				415-473-7877	000-000-0000
Prebid Conf: No Pre Bid Meeting is scheduled for this Project				Contract #: 2024-04	

Improvements for the 2024 Road Sealant Project generally consists of striping and marking referencing and removal; slurry seal; driveway sealant; and traffic striping and pavement markings. The work will take place on the roads listed in the Notice to Bidders and includes various roadways, parking lots and pathways around the Civic Center campus as well as various roadways in the neighborhoods of Lucas Valley, Tamalpais, Green Point and Santa Venetia.

PLEASE NOTE: Bidder must visit the work site before submitting a bid. Bidder shall thoroughly investigate the conditions which will be encountered in the project including, but not limited to, existing underground and overhead utilities, steep, rocky terrain, road width, space needed to flag traffic, staging and site access challenges.

Questions concerning the Bid should be submitted via Bid Express at: <https://www.bidexpress.com/businesses/53528/home?agency=true>

no later than 5 PM on Wednesday, April 17, 2024.

RFP CANAL, SIPHON, UNDERCROSSING CLEANING SERVICES

Addenda: 0

4/24/24 3:00 PM 24-01287 Martinez

Public Works

Plan Issuer: Contra Costa Water District-CCWD

925-688-8300 000-000-0000

Contract #: 2512

The Contractor will remove all sediment and debris from concrete under-crossings, canal sections and siphons on the Contra Costa Canal. Cleaning and debris removal may be accomplished by using various methods, such as use of a Hydro-Jet or commercial power snake can may be used in lieu of vacuum truck when feasible and approved by the CCWD. Pricing for the Hydro-Jet and/or Commercial Snake shall be provided on that attached pricing sheet, to include normal call-out rates as well as emergency rates. When CCWD personnel acquire need of emergency services for either vacuum or hydro-jet services, response time shall be within two hours of received call from CCWD personnel. The attached spreadsheet details typical e locations requiring services. The CCWD will designate which sites will be cleaned. Appropriate confined space entry procedures and safety precautions must be developed by the Contractor, approved by the CCWD's Safety Manager, and adhered to by all personnel entering these siphons and under-crossings. In addition to the sludge-like sediment requiring removal, gravel, rocks, bricks, bottles, shopping carts, bicycles, tires, lawn chairs, pipes, car parts, and other items may require removal. Any weapons that are recovered as part of this contract must be turned into the police department having jurisdiction over the area where the weapon is recovered.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) CONSULTING SERVICES (NORTHERN SERVICE AREA) Addenda: 2

4/24/24 5:00 PM 24-00024 Various Locations

State /
Federal

Plan Issuer: Department of Fish and Wildlife Jillian.Harris@wildlife.ca.gov

000-000-0000 000-000-0000

Contract #: P2482002

The California Department of Fish and Wildlife (CDFW) is requesting proposals from qualified firms to perform California Environmental Quality Act (CEQA) consulting services. The purpose of the Agreement is to retain CEQA consulting services to support CDFW's compliance with CEQA when CDFW needs to act as a Lead or Responsible Agency for CEQA projects. The consulting services include preparing all types of CEQA documents, as well as providing review and advice on the adequacy of CEQA documents prepared by others, including project applicants and other Lead and Responsible Agencies, for use by CDFW. Consulting services will also include compliance monitoring and other support related to the environmental document(s) for certain projects. Additionally, consulting services must be available when CDFW staff provide support for the California Fish and Game Commission, when the Commission acts as Lead Agency for CEQA projects. The Contractor will provide CEQA consulting services described herein for all projects within the Service Area.

The awarded contract will be written for a maximum amount of ten million dollars and zero cents (\$10,000,000.00). The awarded Firm, and all associated subcontractors, will be required to perform services at the rates identified in the sealed Cost Sheet, which may be negotiated after the most qualified firm is selected, as described in Section 3.1.3 F and Section 3.4.

LOCATION OF WORK:

The services will be performed in the Northern Service Area which includes the following twenty-one (21) counties: Lassen, Modoc, Shasta, Siskiyou, Tehama, Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Nevada, Placer, Plumas, Sierra, Sutter, Yuba, San Joaquin, Yolo, Sacramento.

All questions concerning this RFQ must be submitted directly to Jillian Harris at: Jillian.Harris@wildlife.ca.gov on or before April 5, 2024, by 4:00 PM.

A Job Order Contract ("JOC") is an indefinite quantity contract pursuant to which the San Francisco Public Utilities Commission may accomplish a series of projects with a single, competitively bid contract awarded before the projects are identified. Contractors bid an adjustment factor to pre-set unit prices. Work is accomplished by issuing Task Orders to the successful contractor during the two-year term of the contract.

The Work is to be performed in San Francisco, San Mateo, Santa Clara, and Alameda Counties. The Maximum Contract Amount is \$5,000,000.00. The contract will be awarded to the responsible Bidder submitting the lowest responsive bid.

PLEASE NOTE: SFPUC encourages Bidders to complete the Safety Prequalification Web Form at:

<https://sfpuc.org/constructioncontracts/contractopportunities-payments/prequalify-construction> at least 3-weeks prior to the date of Bid opening in accordance with Section 00 21 13 - Instructions to Bidders. Bidders are required to pass the Safety Prequalification prior to SFPUC considering their bid submission complete. SFPUC will notify Bidders that have passed the Safety Prequalification prior to or on the date of Bid opening. Refer to Section 00 21 13 - Instructions to Bidders, "Bidder Qualifications" and the website listed above for additional information.

WELL CONSTRUCTION AND EQUIPPING AT MISSION HILLS GOLF COURSE

Addenda: 1

4/25/24 2:00 PM 24-01089 Hayward

Public Works

Plan Issuer: Hayward Area Recreation & Park District

510-881-6715 000-000-0000

Prebid Conf: MAND 4/2 @ 10 AM at Mission Hills Golf Course, 175 Industrial Parkway, Hayward Contract #: 24-102

The replacement of the current irrigation well located at Mission Hills Golf Course, 175 Industrial Parkway, Hayward, CA 94544. From 1998 until 2021, pumped groundwater from the well was diverted to an onsite storage pond and used for irrigation. In 2021 the current well failed and is now beyond its serviceable life. Currently water is supplied to the storage pond from a nearby metered fire hydrant and there is no connection to city water for irrigation. This project will replace the existing well with a new well that is similar in functionality to the original well. The current irrigation system will need to remain operational throughout the project. Final well equipping and connections to the existing delivery system are also included in this project scope.

NEW RFP FOR CONSTRUCTION MANAGEMENT AND MATERIAL TESTING SERVICES FOR RESIDENTIAL PAVEMENT MAINTENANCE - PHASE C AND RESIDENTIAL PAVEMENT MAINTENANCE - ZONE 2L

Addenda: 0

4/25/24 4:00 PM 24-01492 Concord

Public Works

Plan Issuer: City of Concord - Community & Economic Development Department

925-671-3361 925-671-3381

Contract #: 2606, 2618 & 2626

The City of Concord ("CITY") releases this Request for Proposals ("RFP") to solicit proposals from civil engineering firms ("PROPOSER") interested in providing construction management services and material testing services for the construction of City Project Nos. 2606, 2618, & 2626, Residential Pavement Maintenance - Phase C (Phase C) and Residential Pavement Maintenance - Zone 2L (Zone 2L).

Phase C will involve pavement rehabilitation in residential neighborhoods Zones 1E, 1F, and 1G and on the arterial roads of Concord Blvd (between Bailey Rd and Clayton city limits) and Ayers Rd (between Clayton Rd and Myrtle Dr). Zone 2L will involve pavement rehabilitation in residential neighborhood Zone 2L (including The Alameda). Work on both projects will also include the installation/upgrades of curb ramps at intersections, minor concrete repairs, storm drain and utility adjustments, replacement of traffic signal loops with vehicle detection cameras, adjustment of pedestrian push buttons to meet accessibility standards, restriping, bicycle facilities, and installation of high visibility crosswalks. Phase C will include major striping changes on Concord Blvd, and Zone 2L will include storm drain improvements.

(ADVERTISEMENT ONLY) PREQUALIFICATION OF COUNTY OF SAN MATEO SOUTH SAN FRANCISCO WELLNESS CENTER Addenda: 0

SC 4/26/24 12:00 PM 24-01140 South San Francisco Public Works
ONLINE

Plan Issuer: XL Construction 408-240-6000 408-240-6001
Prebid Conf: Pre-Bid Meeting will be held 4/8 (Remotely via Video Teleconference; Prebid meeting invite will be made available by requesting via email to prequal@xlconstruction.com) Contract #: 4567

BID DOCUMENTS WILL NOT BE AVAILABLE IN ONLINE PLAN ROOM. PLEASE CONTACT XL CONSTRUCTION TO REQUEST A COPY OF THE PREQUALIFICATION DOCUMENTS.

XL Construction intends to award subcontracts to Augered Cast-In-Place (ACIP) Piles (Delegated Design) subcontractors.

Construction and Delegated Design services of a new 3 Story, 74,000 square foot ground up office building with surface parking. The building will house services for women, infants, and children; aging and adult and an OSHPD/HCAI 3 Medical Clinic on the First floor. The second and third floor will be office administration space with raised access flooring for Electrical/Low Voltage. The new building construction type is IIIB. Primary structure is timber with concrete topping slab. Project is to obtain LEED Gold Certification. The project scope includes supporting Make Ready work including the demolition and abatement of the existing probation building.

Following County of San Mateo procedures, subcontractors who plan to participate in the bidding process for this project must be prequalified in order to be considered a bidder. Prequalification Documents will be available beginning March 25, 2024 by requesting via e-mail to prequal@xlconstruction.com. Please reference the project name in the subject line of the e-mail.

RFP FY25/FY26 ON-CALL MATERIALS TESTING SERVICES

Addenda: 0

4/26/24 4:00 PM 24-01289 Various Cities

Public Works

Plan Issuer: Contra Costa Water District-CCWD

925-688-8300

000-000-0000

Projects will generally consist of the construction or modification of treated and untreated water pipelines, rehabilitation of treated water reservoirs and pump stations, modifications to the untreated water canal, improvements to water treatment facilities, and watershed improvements. Construction sites may be located throughout the CCWD's untreated water and treated water service area, along the Contra Costa Canal right-of-way, and/or at any of the CCWD's untreated water pumping, storage, and transport facilities. Please refer to Attachment 1 for a list of projects CCWD anticipates construction during the next two years that might require materials testing support services.

Materials testing services may consist of one or more of the following testing areas:

- Aggregate Base
- Asphalt Concrete
- Cathodic Protection
- Cement Treated Base
- Concrete
- Coring Services
- Grout
- Coating
- Reinforcing Steel
- Soil
- Shotcrete
- Structural Masonry
- Structural Steel
- Welding
- Non-destructive Testing (such as dry film thickness, radiographic, ultrasonic, liquid penetrant, and magnetic particle, including the ability to obtain ASNT/AWS/other duly certified inspectors)
- Specialty testing based on the specific needs of the various projects.

RFP FOR THE BRIDGE PREVENTATIVE MAINTENANCE DECK POLYESTER CONCRETE OVERLAY FOR 13TH STREET BRIDGE AND NIBLICK BRIDGE

Addenda: 0

4/26/24 5:00 PM 24-00919 Paso Robles

Public Works

Plan Issuer: City of Paso Robles

805-237-3861

805-237-3904

Contract #: DPW 16-24

The City of Paso Robles Department of Public Works seeks a qualified, professional, engineering team to provide engineering, relating to the rehabilitation and repair of the bridge deck of the 13 th Street Bridge and Niblick Bridge, within the City of Paso Robles.

Professional services may include, but not be limited to, the following: quantity calculations, preparation of permit (Caltrans encroachment permit) applications, utility coordination, topographic and boundary surveying, preparation of a complete Plans, Specifications, and Estimates (PS&E). U.S. Customary Units (English) shall be used.

The consultant will provide a California registered Civil or Structural Engineer with recent bridge design experience (minimum five years) for the design and administration of this project. The consultant will be responsible for reviewing and coordinating all plans with the designer and all subconsultants, if needed. The consultant will set up and maintain all project records in accordance with the City and Caltrans/FHWA Standard Policies as set forth in the Caltrans Local Assistance Procedures Manual (LAPM), Local Assistance Program Guidelines (LAPG), and all other Caltrans and FHWA procedures.

RFP PLAYGROUND EQUIPMENT DESIGN AND INSTALLATION AT VARIOUS CITY PARKS

Addenda: 8

4/26/24 5:00 PM 24-00624 Hayward

Public Works

Plan Issuer: City of Hayward - Engineering

510-583-4730

510-583-3620

Prebid Conf: MAND 3/11 @ 10 AM at Twin Bridges Park (301 Arrowhead Way, Hayward, CA 94544). Immediately following, a mandatory, pre-proposal, on-site visit will occur at Gordon E. Oliver Eden Shores Park (2481 Sea Heaven Ct, Hayward, CA 94545).

Contract #: 24-027

The City of Hayward is soliciting Proposals from qualified playground equipment manufacturers and/or vendors (Vendors) to design, provide, and install playground equipment to replace existing play structures at two existing City park locations, as detailed in this Request for Proposals (RFP). The type and quantity of equipment desired varies by location. In general, the City is looking for unique play equipment with engaging features and high play value that will encourage physical activity and enhance motor skill development. Equipment design must meet the requirements of the Americans with Disabilities Act (ADA) and utilize International Playground Equipment Manufacturers Association (IPEMA) certified equipment that meets or exceeds all federal and state guidelines, and conforms to the playground-related technical standards set by the American Society of Testing Materials International (ASTM) and the U.S. Consumer Products Safety Commission. The appropriate drainage systems, grading, and accessibility features should be included.

PARNASSUS HEIGHTS (PH) MEDICAL SCIENCES BUILDING (MSB) S1390 LAB RENOVATION - UCSF Addenda: 2

4/30/24 2:00 PM 24-01323 San Francisco \$1,000,000 **Hospital**
Plan Issuer: UCSF - Lisa Trogdon lisa.trogdon@ucsf.edu 415-502-4268 000-000-0000
Prebid Conf: MAND 4/8 @ 1:30 PM (Participants shall meet at UCSF Parnassus Heights, Medical Sciences Building - First Floor Lobby, 513 Parnassus Ave, San Francisco. For further information, contact University's Project Manager, Vanessa Ling, at 415-412-7384.) Contract #: PRJ-000391

DESCRIPTION OF WORK:

The project scopes are to renovate the lab suite to a new specialty lab for killifish research. The lab is approximately 695 sf in the UCSF Parnassus Campus, Medical Science Building.

The project scope includes a lab suite with four rooms with a total of approximately 675 sf. These labs are in MSB S1390, S1390A, S1390B, and S1390C. This project is to design and renovate a new killifish lab for the new PI move-in. The project will renovate the new Killifish lab with new finishes, new equipment, new waterproofing, and modification of mechanical, electrical, plumbing, and fire life safety systems.

Room 1390 Fish Lab: 4 double-sided fish racks, 8 single-sided fish racks
Room 1390A Quarantine Room: 2 single-side fish racks
Room 1390B Camera Room: office and camera
Room 1390C Pump Room: Fish rack supporting pump and equipment

NEW RFP JANITORIAL SERVICES

Addenda: 0

4/30/24 2:00 PM 24-01493 Martinez

Public Works

Plan Issuer: City of Martinez - DPW

925-372-3515 000-000-0000

The City of Martinez (City) is seeking proposals from professional janitorial companies (Provider) to provide routine janitorial services of several City's facilities including City Hall and Police Station, Library, Corporation Yard and Water Treatment Plant located throughout the city. Each facility requires varying levels of janitorial maintenance based on the facility function and amount of use. A combination of after-hours custodial, and specialty planned cleaning services are required. Some facilities have extensive public use, such as the library and some facilities provide services to city operational staff. Janitorial Services will be performed under an Agreement for General Services (Agreement) included as Attachment B. Provider will be required to have a valid City Business license.

The services to be provided are at the following four (4) city facilities.

1. City Hall, Police Department, 525 Henrietta Street
2. Corporation Yard, 300 Alhambra Avenue
3. City of Martinez Library, 740 Court Street
4. City Water Treatment Facility, 3000 Pacheco Boulevard

Public Works

Plan Issuer: BART-Bay Area Rapid Transit District

510-464-6544 000-000-0000

Prebid Conf: 4/11 @ 1 PM (All interested parties must RSVP via registering with the Zoom link included within the RFP in order to participate in this Pre-Proposal Meeting. Should there be difficulties in registering, please contact: john.cho@bart.gov) Contract #: 6M3713

Services for any work that may be authorized pursuant to this RFP shall be performed in accordance with the terms of Exhibit 1, Attachment A, SCOPE OF SERVICES. Such services must comply with applicable Federal, state, county, city, and District guidelines, policies, and procedures. CONTRACTOR services to be provided by CONTRACTOR under the Agreement shall comply with the latest specified edition of all applicable codes, ordinances, standards, regulations, and other laws unless otherwise specified by BART.

Questions may be sent to: john.cho@bart.gov

RFQ FOR AS-NEEDED COST ESTIMATING SERVICES NO. 7

Addenda: 2

4/30/24 2:00 PM 24-01003 San Francisco

Public Works

Plan Issuer: City & Co of San Francisco-DPW olivia.lee@sfdpw.org

628-271-3160 000-000-0000

Contract #: 9087

San Francisco Public Works (Public Works), a department of the City and County of San Francisco (City), seeks to award up to three (3) master agreements (Contracts) to pre-qualified Consultants and/or joint venture (JV) firms to provide Cost Estimating Services and related services on an as-needed basis.

This RFQ is issued through the Micro-LBE Set-Aside Program (MLSAP). Only City and County of San Francisco, Contract Monitoring Division (CMD) certified Micro-LBE Consultants in Construction Management or Value / Quality Engineering certification categories are eligible to submit a Proposal on this Set-Aside RFQ. The selected Consultant, including its team of subconsultants, will support the Building Design and Construction Division of Public Works. The Consultant will provide Cost Estimating Services and other related services as described in Section 2 - Scope of Services of the RFQ. Projects may include various building facilities, such as library buildings, fire stations, police stations, health service centers, hospital buildings, recreation centers, parks, pump stations, and other City-owned facilities.

The City intends to award up to three (3) master agreements with a not to exceed value of up to \$1,000,000 for each master agreement. Public Works reserves the right to change the contract amount and have the sole discretion to extend the Contract duration to be awarded consistent with City contracting requirements.

Questions regarding the RFQ must be submitted no later than March 27, 2024, by 4:00 P.M., Pacific Time by email to the Contract Manager at: olivia.lee@sfdpw.org.

510-724-9010 000-000-0000

Contract #: PW-2024-04

The City of Pinole (City) is issuing a Request for Proposals (RFP) from qualified consultants or teams to provide Engineering Services for the SS2203 Effluent Outfall Vault Improvements Project (Project). Engineering services will include preliminary and final design, including preparing plans, specifications and estimates (PS&E) and contract bid documents, and support services during the bidding and construction phases. The primary objective of the Project is to improve the reliability and increase the discharge capacity of the Pinole-Hercules WPCP through the Effluent Force Main and Deepwater Outfall from 11.5 million gallons per day (mgd) to 13.9 mgd. The successful Consultant will have significant experience with engineering design, bidding, and construction phase consulting services for large-diameter (24-inch diameter or greater) sanitary sewer force main and vault improvements requiring development of detailed construction sequencing and constraints, treatment plant coordination and bypass pumping to keep the pipelines in service during construction. This Request for Proposal (RFP) defines the scope of services and outlines the requirements that must be met by consultants interested in providing such services.

The Project includes preliminary and final design services, including preparing a Preliminary Design Report (PDR), preparing plans, specifications and estimates (PS&E) and contract bid documents, and support services during the bidding and construction phases to recommend and complete recommended Effluent Outfall Vault and Effluent Force Main improvements. The City's objectives is for the Project to include:

- Effluent Pumping System - Updated documentation of the Pinole-Hercules effluent pumping system components and performance, including the improvements specifically including in this project, and consideration of the need for, advantages and disadvantages of, and recommendation for improvements and/or future projects including adding pumps at the Effluent Pump Station to improve pumping efficiencies, and adding surge protection.
- Outfall Vault - Piping modifications in the Outfall Vault at the junction of the two (2) effluent force mains and the deepwater outfall to increase the effluent pumping and conveyance capacity for the Pinole-Hercules WPCP from 11.5 mgd to 13.9 mgd. Effluent Force Main modifications adding appurtenances, piping, and surface infrastructure for effluent water quality testing.
- Bypass Pumping - Force main piping and appurtenances for bypass pumping of both effluent force mains, for future maintenance and construction and construction of this Project, or temporary bypass pumping system for construction, based on the preliminary design recommendations.
- Force Main Repair - Repair of the exposed Effluent Force Main in Duck Pond Park, Hercules.
- Other Improvements - Other effluent force main improvements recommended and selected during preliminary design.

RFP PUBLIC PRIVATE PARTNERSHIP FOR BROADBAND SERVICES - CITY OF SOUTH SAN FRANCISCO

Addenda: 1

SC 4/30/24 5:00 PM 24-01177 South San Francisco
ONLINE

Public Works

Plan Issuer: City of South San Francisco - Engineering

650-829-6652 000-000-0000

Contract #: 2024-ITRFP-001

The City issues this RFP to solicit proposals from one or more qualified private entities (a "Partner") to collaborate with the City in a Public-Private Partnership. The partnership will increase the availability of affordable broadband Internet access and market competition throughout the City. The private internet service provider will operate, manage, and sell retail internet services over the publicly owned fiber optic backbone network in exchange for lease payments, revenue share, match contributions for grant applications, and/or new City network construction (or a combination thereof). The City intends to work with the private partner in developing comprehensive and competitive federal and state grant applications.

MISSION BAY (MB) HELEN DILLER FIRE LIFE SAFETY 5TH FLOOR NEGATIVE PRESSURE - UCSF

Addenda: 2

5/1/24 2:00 PM 24-01397 San Francisco

\$1,500,000

Hospital

Plan Issuer: UCSF - Lisa Trogdon lisa.trogdon@ucsf.edu

415-502-4268

000-000-0000

Prebid Conf: MAND 4/10 @ 11 AM (Participants shall meet at UCSF Mission Bay, Helen Diller Family Cancer Research Bldg - Main Lobby, 1450 3rd St., San Francisco. For further info, contact University's Project Manager, Tim Fowle, at (415) 297-7219.)

Contract #: C660659

DESCRIPTION OF WORK:

Reduce exhaust airflow and increase supply airflow to 5th floor animal holding areas during a 5th floor fire alarm. Reduce 4th floor exhaust airflow in laboratories during a 4th floor fire alarm. Reduce exhaust airflow in laboratories during fire alarms and other corrective work on the 2nd and 3rd floors. Reduce negative pressurization in the atrium during an atrium fire alarm. Create slight positive pressurization in the atrium during normal operation.

5TH FLOOR: Reprogram fire alarm sequences. Modify 5th floor cage wash system emergency shutdown wiring and reprogram fire alarm sequences to reduce cage wash room exhaust during fire alarm. Reduce airflow at BSL-2 suite during exhaust fans during 5th floor fire alarm. Replace constant volume Phoenix air valve controllers with new two position air valve controllers that can be remotely monitored and reset at biosafety cabinets and other non-tracking general exhaust valves.

4TH FLOOR: Reprogram supply and exhaust terminal units so that exhaust air tracks supply air in each of the 14 zones. Replace constant volume Phoenix air valve controllers with new two-position air valve controllers that can be remotely monitored and reset at fume hoods and other non-tracking general exhaust valves.

2ND AND 3RD FLOORS: Replace constant volume Phoenix air valve controllers with new two-position air valve controllers that can be remotely monitored and reset at exhaust valves. Reprogram main laboratory air handling units so that during a fire alarm on the 2nd floor, main supply fans go to a preprogrammed speed. 1st floor re-program main laboratory air handling unit to go to a pre-programmed fan speed during a fire alarm on the 1st floor.

ATRIUM FIRE ALARM: Replace atrium outside air dampers and actuators. Remove existing actuators, lock existing outside air dampers wide open, abandon in place. Provide new outside air dampers and actuators, with integral end switches. Remove existing filter banks at outside air intake louvers, do not replace. New outside air dampers shall be directly controlled and monitored by the fire alarm system. Provide monitoring at existing fire fighter's control panel and BAS. Wire new end switches so that status of each switch can be monitored. New end switches shall be monitored by fire alarm system and BAS. When all corrective actions and control sequences are completed, test building automation system and building fire alarm sequences to demonstrate that differential pressures and door opening forces are acceptable, as described on sheet M7.1.

NEW RFP FOR EL CERRITO SWIM CENTER SLIDE DEMOLITION

Addenda: 0

5/1/24 2:00 PM 24-01513 El Cerrito

510-215-4382

Public Works

000-000-0000

Plan Issuer: City of El Cerrito - DPW

Prebid Conf: 4/17 @ 3 PM at 7007 Moeser Lane, El Cerrito (If you plan on attending, please email mcuison@ci.el-cerrito.ca.us at your earliest convenience)

The work to be done consists of furnishing all materials, equipment, tools, labor, and incidentals as described below and is indicated on the attached special plan, that is attached herein and as follows:

- Demolish existing fencing around the slide and stairs and coordinate with Recreation Staff for on-site storage
- Demolish and dispose of the existing slide tower, slide flume, and slide stairs and risers
- Protect and cap off the existing 8" Schedule 80 water supply pipe to the slide flume to 8" above finished concrete grade and securely and carefully protect it for future City use
- Unscrew all nuts securing the tower and stair structures to the bolts imbedded in the below-grade foundations at five (5) locations
- Remove all structural supports from existing bolts imbedded in the existing below-grade foundations and securely and carefully protect all bolts at five (5) foundation support locations for future City use
- Repair cracks in the concrete elements of the flume and stair supports utilizing a pressure-injected epoxy adhesive in general accordance with ACI 503.7-07
- Haul away all demolished materials to leave a clean area for the later installation of a new slide structure
- Patch holes or openings in the pool deck where the fencing, slide tower, slide flume, and slide stairs and risers were removed
- Provide temporary fencing around the work area in between work hours when the pool is open to the public
- Work hours shall be Mondays through Fridays, 7 AM to 3 PM, and completed within 15 working days

[QUARTERLY MAINTENANCE SERVICES ON THE AUTOMATIC GATES/ROLL-UP DOORS FOR THE CHP SAN LUIS OBISPO AREA OFFICE](#) **Addenda: 0**

5/1/24 3:00 PM 24-01352 San Luis Obispo **Public Works**
 Plan Issuer: California Highway Patrol 916-843-3610 916-322-3166
 Prebid Conf: MAND 4/17 @ 9am- site Contract #: QR #24C745000

Contractor shall provide quarterly maintenance every ninety (90) days as identified below and services are to consist of the following:

- A. Lube all points of friction, including but not limited to, rollers, bearings, gears, and guides, etc.
- B. Ensure the gates are balanced, the motor limiters are properly adjusted, the drive chains are tight, and the manual system is in proper working order, etc.
- C. Inspect and test the function of the gates, including but not limited to, the electrical wiring and connections, chain, chain shafts, gears, and bearings, etc.
- D. Quarterly maintenance supplies shall include, but is not limited to, belts, cleaning chemicals, oil, grease, cleaning rags, switches, and fuses.
- E. Oiling all moving parts, align, tighten drive chain on gate, set limit switches, etc.
- F. Inspect motor and clutch mechanism for wear.
- G. Inspect bearings, gears, and shafts for wear.
- H. Check oil and fluid levels, fill if needed.
- I. Grease chain shafts, bearings, etc.
- J. Inspect all electrical parts and wiring including touch pad controls and ground loops. This includes radio receivers. Any work requiring a C-7 or C-10 license will not be covered under this contract.
- K. Inspect chain for wear, lube and replace any broken or worn links.
- L. Inspect gate wheel; grease as needed.
- M. Inspect welding of the gate structures and "V" groove wheel track.
- N. Make any adjustment to gates as needed for proper clearances and tolerances.
- O. All maintenance performed shall be in compliance with minimum manufacturer's operating specifications for the model and make of this equipment.
- P. Notify the CHP on-site contact of any deficiencies in a timely manner.

UNIVERSITY NO. 4 TANK REPLACEMENT

Addenda: 3

5/1/24 3:00 PM 24-01257 Santa Cruz

Public Works

Plan Issuer: City of Santa Cruz

831-420-5160

831-420-5161

Prebid Conf: MAND 4/17 @ 2:30pm- U4 Tank site located in the County of Santa Cruz, California, near Empire Grade Road Contract #: WT-0117

Bids will be received for a single prime contract for replacement of the existing steel 400,000-gallon potable water storage tank known as University Reservoir No. 4 (U4) which serves the University of California Santa Cruz (UCSC) campus and local Westside customers (Project). The Project includes decommissioning and removal of the old storage tank, construction of a new steel 400,000-gallon storage tank on the existing foundation, pump control upgrades and fire hardening of the roof of the U6 pump station. To meet system demands for the University and protect water supply pumps while the main reservoir is being replaced, a 40,000-gallon maintenance tank will be installed as part of the Project. Two road pullouts will be paved along the narrow quarter mile access road to allow small fire trucks and other vehicles to turn around. Other project work at the site will include replacing fencing and existing drainage infrastructure, installation of a new curb and gutter, and minor resurfacing and repairs to the access road once construction is complete.

NEW ON-CALL CONSTRUCTION SERVICES

Addenda: 0

5/1/24 4:00 PM 24-01546 Livermore

Public Works

Plan Issuer: City of Livermore - Purchasing

925-960-4500

000-000-0000

Contract #: 24-348064

The City of Livermore Public Works Department is requesting proposals for on-call construction services per the specification of this request for bid (IFB). The objective of this IFB is to identify contractors that best meet the needs of the Public Works Department regarding the level of service, cost, and quality of the work completed.

The successful bidder shall provide all necessary labor, materials, equipment, and supplies to perform the following services that will be scheduled or on an as-needed basis:

- On-call repairs, and/or replacement of potable water, recycled water, wastewater, and stormwater conveyance, treatment, and distribution infrastructure.
- Traffic control, material procurement, material handling, material disposal, and any repairs or replacement of asphalt, concrete, traffic signage, and/or traffic striping made necessary by the tasks to be performed.

Prebid Conf: 4/18 @ 11-11:30 AM via Zoom

Contract #: 0305

The City of San Pablo (City) is seeking contractors to repair/replace/install State Water Resources Control Board (Water Board) certified full trash capture systems known as connector pipe screens (CPS). CPS devices must fall into one of two categories to be considered certified by the Water Board: 1) the device is newly certified by the Water Board Executive Director, or designee, after adoption of the Trash Provisions, or 2) the device is a legacy system that was certified pursuant to the Trash Provisions that include those full capture devices listed in Appendix I of the Bay Area-wide Trash Capture Demonstration Project, Final Project Report (May 8, 2014). CPS devices shall be manufactured by the following, or approved equal, and shall be on the list of trash capture devices approved by the Water Board: United Stormwater Inc., G2 Construction, Inc., Ravel Environmental Manufacturing Inc., and Bio Clean Environmental Services Inc.

The estimated construction cost for Phase 1 is \$88,000.

The estimated construction cost for Phase 2 is \$144,000.

NEW D.A. PORATH SANITATION FACILITY UPGRADE ACCESS HATCH

Addenda: 0

5/2/24	2:00 PM	24-01545	Santa Cruz	\$110,000	Public Works
Plan Issuer: County of Santa Cruz				831-454-2160	831-454-2385
				Contract #: P54111	

The subject work involves providing access upgrades to the D.A. Porath Pump Station wet well by installing two new access hatches, one as an expansion of the existing opening, and the other in a second location. This project is being proposed to improve safety and access to the existing wet well located underneath the pump building's concrete floor.

The project will construct the access hatches in phases to keep the pump building operational during construction. The first order of work is for the contractor to employ Ground Penetrating Radar technology to identify the existing structural features in the proposed work area. Once positively identified, the contractor will be able to install the access hatch in the new location. Once this hatch is installed, the District will remove and relocate the existing electrical equipment, hoist, and floats located at the existing wet well access opening to the new hatch. Then the contractor will be able to remove a nonstructural interior wall, air duct system, water filtration system, and door to be able to expand the existing access opening in the wet well and install the new hatch. The contractor will then replace the removed section of wall and air ducting and extend the water line to the relocated water filtration system.

RFP FOR JUSTICE SYSTEMS CONSULTING SERVICES

Addenda: 0

5/2/24 2:00 PM 24-01390 Marin County

Public Works

Plan Issuer: County of Marin, DPW bids@marincounty.org

415-473-7877 000-000-0000
 Contract #: 2853

The County of Marin (County) is seeking a consultant or team of consultants with analytical, business process, and vendor selection experience to conduct a full assessment of Information Services and Technology Department Justice Case Management Systems (CMS) to document the needs and requirements of participating departments. Depending on the outcome, there may be a second phase of work to draft sections of a procurement packet for replacement systems and facilitate selection of replacement systems. Responders should propose on both phases of work separately, with the knowledge that the second phase of work is an option. The Justice CMS contains functionality and features for each of the County's Justice Departments including, but not limited to, justice system business practices and legal regulations.

All questions must be emailed and received by Thursday, April 18, 2024, no later than 4:00 PM PST. All questions must be submitted to Jorge Molina with the Procurement Division via email at: Jorge.Molina@MarinCounty.gov or through the Bid Express® online platform at: <https://www.bidexpress.com/businesses/53528/home?agency=true>

NEW ROOSEVELT MIDDLE SCHOOL GYM ROOF REPLACEMENT

Addenda: 0

5/2/24 2:00 PM 24-01552 Oakland \$600,000 **School**
Plan Issuer: Oakland Unified School District marcus.board@ousd.org 510-277-6719 000-000-0000
Prebid Conf: MAND 4/25 @ 10 AM at front entrance of the Roosevelt School Site Contract #: 24118
*** WAITING FOR DOCUMENTS, AVAILABLE ON OR AFTER APRIL 17, 2024 ***

Project consists of: Installation of replacement of its existing roof system, including demolition of the current roof system, installation of insulation and decking, and application of a two-ply membrane. Removal and reinstallation of solar panels will be done by a separate contractor before and after construction of the roof. Demolition: Complete removal and disposal of the existing roof system, scuppers, drains, and any associated debris. Installation: Mechanically attach 2" insulation, crickets, and 1/2" primed Dens Deck at field locations and mechanical unit locations. Membrane Application: Torch a two-ply Johns Manville Smooth and Cap Sheet APP roof roll membrane to all field and mechanical areas, as well as base flashings. Flashings and Metals: Mechanically attach all roof flashings, counter flashing, and coping metals. Warranty: Provide both the manufacturer's warranty and a 20-year warranty from the contractor. Quality Assurance: Water testing will be performed with OUSD & the contractor present before final sign off. Punch List: Contractors are required to sign and return a punch list upon completion of the project.

NEW SIR FRANCIS DRAKE BLVD MP 20.97 SLIDE REPAIR PROJECT

Addenda: 1

5/2/24 2:00 PM 24-01498 Marin County \$1,400,000 **Public Works**
Plan Issuer: County of Marin, DPW bids@marincounty.org 415-473-7877 000-000-0000
Prebid Conf: No Pre Bid Meeting is scheduled for this Project Contract #: 2019-22
Work will generally include constructing two separate cast-in-drilled-hole concrete retaining walls with a pile cap and tiebacks. One wall will be approximately 101 feet in length and the other will be approximately 148 feet in length. Work will also involve a culvert replacement, installation of rock slope protection, and roadway paving. Construction for this project shall ONLY occur between June 15 and October 15 unless granted approval from the County. Nesting bird survey is required if work is to occur between February 15 to August 31. Coordination with the County will be required for nesting bird survey.

PLEASE NOTE: Bidder must visit the work site before submitting a bid. Bidder shall thoroughly investigate the conditions which will be encountered in the project including, but not limited to, existing underground and overhead utilities, road grade, road width, space needed to flag traffic, staging and site access challenges.

Questions concerning the Bid should be submitted via Bid Express at: <https://www.bidexpress.com/businesses/53528/home?agency=true>
no later than 5 PM on Thursday, April 25, 2024.

OPERATED EQUIPMENT SUPPLY FOR ENGINEERED REPAIRS AND UPGRADES TO FLOOD PROTECTION FACILITIES

Addenda: 0

5/3/24 2:00 PM 24-01399 Livermore

Public Works

Plan Issuer: Zone 7 Water Agency 925-454-5000 925-454-5725
 Prebid Conf: MAND Mandatory Pre-Bid: 4/16 @ 10 AM starting at 5997 Parkside Drive, Pleasanton and then going to the Project Sites. Optional Site Visit: 4/16 @ 1 PM and 4/17 @ 9 AM (Contractor must schedule which session, if any, they would like to attend in advance with the Project Engineer) Contract #: 305-24

The Work consists of the supply of fully operated and maintained construction equipment and the furnishing of labor and material to implement engineered repairs and upgrades to flood protection facilities on an as-needed or emergency basis. The Work may include, but is not limited to, the following major end-items:

01. Installation and maintenance of a water diversion system for flows in a live stream, creek, or flood protection channel in compliance with regulatory permits
02. Installation of riprap embankment and/or riprap repairs for bank slides in a live stream, creek, or flood protection channel
03. Installation of geosynthetic materials to structurally support access roads or channel embankments in a live stream, creek, or flood protection channel
04. Construction and / or repair of riprap structures in a live stream, creek, or flood protection channel, such as rock veins, rock spurs, or rock grade controls
05. Construction of biotechnical stabilization in live stream, creek, or flood protection channel embankments like MSE walls, BioD Blocks, and/or log crib walls
06. Removal of accumulated sediment, debris, or vegetation from a live stream, creek, or flood protection channel in compliance with regulatory permits
07. Construction of access road improvements adjacent to flowing water body, like a live stream, creek, or flood protection channel, or regulated environmentally sensitive areas, including road surfacing with various materials, concrete V-ditches, drain inlets, culverts, and outfalls
08. Construction and / or repair of concrete structures in a live stream, creek, or flood protection channel, such as panels, outfalls, grade controls, confluence structures, cut-off walls, and utility crossings
09. Removal of miscellaneous concrete and / or rock structures from a live stream, creek, or flood protection channel
10. Excavation and repair of major storm drain pipes
11. Construction of new or replacement facility access points, storage areas, and staging locations
12. Fencing installation and repair within the agency's right-of-way
13. Incidental items to facilitate major end-items, such as 1) procurement, delivery, staging, and maintenance of materials and equipment, 2) Environmental site assessment, silt fence installation and maintenance, 3) tree trimming and vegetation removal, 4) Planting trees and plants per Zone 7 standard details and specifications, 5) hydroseeding, 6) applications for appropriate traffic control permits, 7) installation of appropriate project signage and 8) compliance with all and implementation of permit requirements
14. Miscellaneous work as directed by the District Representative

NEW RFP FOR ON-CALL MATERIALS TESTING AND SPECIAL INSPECTION SERVICES

Addenda: 0

5/6/24 4:00 PM 24-01451 Orinda

Public Works

Plan Issuer: City of Orinda - DPW

925-253-4231

925-253-7699

The selected firm shall perform materials testing and special inspection services for various CIPs and other City projects on an as-needed basis. For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. Travel time and mileage to and from the City should not be included or charged as part of the services. Travel time and mileage between jobsites within the City related to services rendered should be incorporated into the rates in the fee schedule. Billable work hours or durations will be based on on-site hours and no more than a 2-hour minimum shall be allowed for durations less than 2 hours. Office and laboratory service hours shall be based on the actual hours. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so.

Materials testing and special inspection services shall be performed as specified in the design or construction documents, which often refers to the California Department of Transportation (Caltrans) Standard Specifications and Plans. If testing requirements are not identified, the Consultant shall make recommendations to the City's project manager based on industry standards and best practices.

Materials testing and special inspections services may include but not limited to:

- Material sampling
- Compaction curves/R-value/sand equivalent/sieve analysis/durability
- Soil or aggregate base compaction testing
- Concrete compression strength
- Hot mix asphalt test
- AC modifier
- Crumb Rubber Modifier
- Asphalt rubber binder
- Asphaltic emulsion
- Spray rate
- Structural steel and welding
- Staff augmentation for construction inspections

NEW RFQ FOR ON-CALL CIVIL ENGINEERING SERVICES

Addenda: 0

5/6/24 4:00 PM 24-01454 Orinda

Public Works

Plan Issuer: City of Orinda - DPW

925-253-4231

925-253-7699

The City of Orinda plans to select up to five firms to provide on-call Civil Engineering services through June 30, 2026, with the ability for the City Manager to extend the contract for one additional year. The time and materials contract limit is \$150,000 with the ability to amend the limit on an as needed basis. The City's usage of the consultants' services will be on as-needed basis so if the demand is not there, then the services will not be requested.

For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. Services for each contract will be provided on a negotiated fee basis, per work order. No minimum amount of work is guaranteed under these agreements. Compensation will be based on time and materials with a not to-exceed limit agreed upon by both Consultant and City before work begins.

Work may include, but is not limited to, the following:

- General Civil Engineering Services;
- Development/Compliance Peer Review;
- Site Improvement Planning and Design;
- Drainage/Utility Design;
- Flood Insurance Studies;
- Preliminary design studies as needed
- Attend meetings located in Orinda as needed

NEW RFQ FOR ON-CALL CONSTRUCTION MANAGEMENT SERVICES

Addenda: 0

5/6/24 4:00 PM 24-01452 Orinda

Public Works

Plan Issuer: City of Orinda - DPW

925-253-4231

925-253-7699

The City of Orinda plans to select up to five firms to provide on-call Construction Management services through June 30, 2026, with the ability for the City Manager to extend the contract for one additional year. The time and materials contract limit is \$150,000 with the ability to amend the limit on an as needed basis. The City's usage of the consultants' services will be on as-needed basis so if the demand is not there, then the services will not be requested.

For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. Services for each contract will be provided on a negotiated fee basis, per work order. No minimum amount of work is guaranteed under these agreements. Compensation will be based on time and materials with a not-to-exceed limit agreed upon by both Consultant and City before work begins.

Work may include, but is not limited to, the following:

- Prepare constructability review of draft bid documents.
- Participate in pre-bid and/or pre-construction conferences.
- Act as construction project coordinator and the point of contact for all communications and interaction with the contractor, affected local agencies, utilities, developers, and designers.
- Review and monitor the construction schedules.
- Prepare daily and weekly reports documenting the progress of construction.
- Take photographs and video recordings of the construction progress on a regular basis.
- Schedule and manage construction staking with project designer or contractor provided surveyors.
- Schedule, manage and document all field and laboratory testing services.
- Assess the need for and schedule, manage, document, and perform source inspection in compliance with Caltrans procedures.
- Evaluate, negotiate, recommend, and prepare change orders.
- Assist in processing submittals and monitoring design Consultant review activities.
- Identify potential claims and make recommendations to avoid or resolve said claims.
- Assist in all construction administrative activities, including correspondence and document control.
- Prepare calculation sheets to support quantities of progress payments or change orders.
- Perform field inspection activities, monitor contractor's performance and enforce all requirements of applicable codes, specifications, and contract drawings.
- Support the design clarification process.
- Prepare record drawings: track, log and redline changes and certify that the project was built according to the record drawings.
- Provide record drawings to the City for preparing CADD files.
- Provide coordination and review of Contractor's detours and staging plans with engineering Consultant and local agencies.
- Facilitate final inspection services and project closeout activities, including preparation of the final construction project report.
- Provide post-construction services as needed for project closeout and warranty issues.
- Assure advanced written notice is given to the residents of nearby property or the general public informing them of the work to take place that might affect them.
- Identify actual and potential problems associated with the construction and recommend sound solutions to the City.
- Oversee compliance with environmental requirements.

NEW RFQ FOR ON-CALL ENVIRONMENTAL SERVICES

Addenda: 0

5/6/24 4:00 PM 24-01456 Orinda

Public Works

Plan Issuer: City of Orinda - DPW

925-253-4231

925-253-7699

The City of Orinda plans to select up to three firms to provide on-call Environmental services through June 30, 2026, with the ability for the City Manager to extend the contract for one additional year. The time and materials contract limit is \$150,000 with the ability to amend the limit on an as needed basis. The City's usage of the consultants' services will be on as-needed basis so if the demand is not there, then the services will not be requested.

For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. Services for each contract will be provided on a negotiated fee basis, per work order. No minimum amount of work is guaranteed under these agreements. Compensation will be based on time and materials with a not-to-exceed limit agreed upon by both Consultant and City before work begins.

Work may include, but is not limited to, the following:

- Preparation of CEQA/NEPA documents, CEQA compliance
- On-Site hazardous material assessment, testing and Hazardous Waste Management
- Documentation of testing results and recommended remedial actions
- Preparation of work plans for remediation of materials found
- Water Quality Studies
- Environmental Assessment and initial study analysis and documentation
- Archeological Surveys and Reports
- Noise Studies and Reports
- Air Quality Studies and Reports
- Certified arborist services
- Nesting bird surveys
- JARPA
- Other permit compliance and technical studies as needed.

NEW RFQ FOR ON-CALL TRAFFIC ENGINEERING SERVICES

Addenda: 0

5/6/24 4:00 PM 24-01459 Orinda

Public Works

Plan Issuer: City of Orinda - DPW

925-253-4231

925-253-7699

The City of Orinda plans to select up to five firms to provide on-call Traffic Engineering services through June 30, 2026, with the ability for the City Manager to extend the contract for one additional year. The time and materials contract limit is \$150,000 with the ability to amend the limit on an as needed basis. The City's usage of the consultants' services will be on as-needed basis so if the demand is not there, then the services will not be requested.

For each on-call service request, the consultant and the City will agree upon the specific scope of work and cost for that project. The City has the right to retain other consulting firms in its sole discretion when the City believes there will be an economic or other significant advantage for doing so. Services for each contract will be provided on a negotiated fee basis, per work order. No minimum amount of work is guaranteed under these agreements. Compensation will be based on time and materials with a not-to-exceed limit agreed upon by both Consultant and City before work begins.

Work may include, but is not limited to, the following:

- Analyze implementation of traffic control devices
- Conduct traffic counts, accident data gathering and analysis
- Perform safety analysis of roadways/intersection/crosswalks/etc. for vehicles, pedestrians, and bicyclists
- Review and recommend traffic calming measures
- Review and recommend traffic congestion relief measures or lane reconfigurations
- Prepare signing and striping plans including any necessary specifications
- Prepare traffic signal modification plans
- Prepare traffic control plans
- Perform speed radar surveys to establish appropriate speed limits
- Prepare traffic signal/stop sign warrant analysis reports
- Prepare studies to update or establish a mitigation fee program
- Prepare and implement transportation demand management programs
- Perform traffic modeling to generate simulations/projections for City projects or proposed development projects in conformance with CEQA and/or NEPA including both project-specific and cumulative impacts
- Analyze parking impacts from proposed development projects
- Generally advise City staff on potential traffic control measures
- On special occasion attend and advise the Traffic Safety Advisory Committee
- On special occasion, attend City Council and Planning Commission meetings as experts regarding CEQA and/or NEPA on City projects or proposed development projects

NEW **A&E ON-CALL ROADWAY CONSTRUCTION - CONSTRUCTION ENGINEERING, INSPECTIONS AND SCHEDULING SERVICES, DISTRICT 4 (DOT #04A6995)** **Addenda: 3**

5/8/24 10:00 AM 24-00028 Napa, San Francisco, San Mateo, Solano Counties \$21,280,000 to \$34,580,000 **Cal-Trans**

Plan Issuer: Department of Transportation alma.cortez@dot.ca.gov 000-000-0000 000-000-0000
Contract #: 04A6995

Caltrans is soliciting Statements of Qualifications (SOQs) from qualified firms that may lead to the award of a contract for A&E On-Call Roadway Construction. Construction Engineering, Inspections and Scheduling services, District 4.

PURPOSE OF WORK.

a) The Consultant shall perform professional and technical services required for Roadway Construction Services, on an on-call "as-needed" basis to support Caltrans, Division of Construction, District 4, in the construction phase of proposed Caltrans transportation facilities. The following services are being requested in this contract:

- A - Roadway Construction Inspection and Office Engineering
- B - Electrical Construction Inspection
- C - Landscape Architectural Construction Inspection
- D - (Omitted from this contract)
- E - Construction Scheduling / CPM
- F - (Omitted from this contract)
- G - (Omitted from this contract)
- H - Roadway Construction Management - Consultant Resident Engineer

Questions concerning this Request for Qualifications (RFQ) must be submitted in writing to the attention of Alma Cortez at: alma.cortez@dot.ca.gov. Questions must be received no later than seven (7) business days after the RFQ advertisement.

SCENARIO VILLAGE BUILDINGS #2 & #3 ROOF REPLACEMENT

Addenda: 0

5/8/24 10:00 AM 24-01381 Dublin \$200,000 **Public Works**

Plan Issuer: Alameda County General Services Agency - Building Maintenance Department 510-667-3045 510-667-3050

Prebid Conf: MAND Mandatory Site Visit: 4/18 @ 9 AM at Security Gate located at on Barnett Blvd., Dublin. Mandatory Pre-Bid: 4/18 @ 2 PM via Microsoft Teams Contract #: 902421

The Project consists of:

Contractor shall furnish all expertise, labor, materials, parts, equipment, and incidentals necessary to provide a complete roof replacement of Scenario Village Building #2 and #3 at the Sheriffs Regional Training Academy located at 6289 Madigan Road, Dublin. This project requires the replacement of two (2) separate roofs consisting of an approximate total of 4,572 square feet of space, the contractor must confirm dimensions of each roof.

Contractor shall remove and replace the existing shingle roof systems on each building (Scenario Building #2 and #3) including all roofing details such as gutters, downspouts, flashing, counterflashing, metal edges, curbs and roofing around all pipes and mechanical units. The contractor shall inspect roof sheathing (deck), joists, support beams, and fascia for any signs of damage, deterioration, or rot and perform repairs and replacement as needed.

All painted surfaces on both buildings including the fascia, flashing, gables, and siding were sampled and tested positive for lead. Removal and disposal work shall be performed by lead certified workers and in accordance with the Lead Hazard Control specifications and requirements from the County Environmental Department included in Exhibit D.

There must be a 30-year warranty on the system, and all related work should be included in the scope to prevent any kind of leak through the roof. This is a full turn-key project, and the Contractor is to provide all necessary work required to complete the roof replacement on each building.

NEW [967 MISSION STREET - DELEGATED DESIGN VIMS & GROUND IMPROVEMENT \(SUB BIDS REQUESTED\)](#) **Addenda: 0**

5/8/24 2:00 PM 24-01458 San Francisco **Residential**
 Plan Issuer: Nibbi Brothers Construction andrewk@nibbi.com 415-863-1820 415-241-2951

Nibbi Brothers has been selected as the General Contractor for the 967 Mission project in San Francisco.

PROJECT DESCRIPTION: 967 Mission St is located on the southern side of Mission St between 5th & 6th Street in San Francisco's SOMA neighborhood. It is an 8,782 square foot rectangular through block parcel with frontage on both Mission and Minna Streets. Currently the site is home to Kapwa Gardens, an interim use public space activation project which hosts community events.

A 9 story building (plus occupied roof) mid-rise residential building with ground floor resident serving space, the building will provide approximately 95 units of 100% Affordable senior housing including a manager's unit. The project unit mix is studios and one-bedrooms weighted more towards studios. 25% of the units will be for formerly homeless seniors, and all units will be restricted at 50% AMI or lower. Given the proximity to transportation, services and retail, there will be no car parking and only bike parking. Additionally, the ground floor plate is not large enough to accommodate commercial space and is programmed with property management offices, a community room with a kitchen that allows for flexibility of uses, services offices, and a small conference room, lobby with mail area and back of house spaces. This required ground floor program will not allow sufficient area to provide a transformer vault in the building, the project will apply for an under sidewalk transformer vault. The building will be built for connectivity so that the residents can access Wi-Fi. The building will be all-electric.

Labor Requirements: Prevailing Wage

PLEASE NOTE: Nibbi is signatory to the Carpenter's and Laborer's Union.

Questions may be sent through BuildingConnected at:
<https://app.buildingconnected.com/opportunities/661068ab419d144842299467/messages>

Residential

Plan Issuer: Bosco Construction info4@bosco.com

408-396-3870

408-904-4792

Prebid Conf: Non-Mandatory Job Walk 4/8 @ 9AM

*** Bosco Construction is the Negotiated Contractor***

Special project we are working on, and are looking for a select few contractors who are interested in being a part of this rare opportunity. This rare project will make a name for the few contractors who are chosen. We have been asked to build a large estate in the San Jose Foothills.

This estate will be nestled in a 49 acre working farm that is close to the east end of Story Road. When complete, it will consist of an 8,500 square foot Single Family Residence, a 3,700 square foot Pool House and a 2,200 square foot Tractor Barn (man cave). The first phase of the project is the 8,500 square foot Single Family Residence and a Road Improvement Project. The 2 story, 5 bedroom and 5 bathroom, 8,500 square foot, Single Family Residence is a beautiful example of Earl American Farm House design, with a wrap around porch and turret.

The Road Improvement part of the project, consists of installing a Storm Drain (with catch basin), approximately a 500 foot long by 12 foot wide Drive Way (Curb and Asphalt Road) and Parking Area.

We are looking for bids for the following trades:

- Excavation
- Storm Drains
- Cement Curb and Asphalt Road
- Foundation
- Framing (including window, door, siding and garage door installation)
- Roofing and Gutters
- Insulation
- Plumbing
- Electrical
- Flooring
- Drywall and texturing
- Cabinets
- Trim work
- Interior Doors
- Painting

Public Works

Plan Issuer: West County Wastewater District

510-222-6700 510-222-3277

Contract #: 24-RFP-005

West County Wastewater District ("WCW") is seeking proposals from qualified firm(s) to provide Design and biddable construction documents for four (4) Secondary Sedimentation Basins Upgrade at the Water Quality Resource and Recovery Plant (WQRRP) at West County Wastewater (WCW). ("Services") , as further detailed in Section 3, Scope of Services. If approved by WCW's Board of Directors, the successful Proposer will execute an agreement in the form of Attachment A for a two (2) years base term with up to three (3) one year option terms.

The Designer shall provide detailed design and technical specifications for the following:

- Replace the metal railings and wall mounts.
- Replace the floor plastic strips for the flight shoes.
- Replace the gears and corroded shafts.
- Repair the basin walls (NDT testing needed to determine whether the addition of protective coating will be sufficient or whether repair or replacement in addition the application of protective coating will be needed).
- Update the flight drive local control stations to function with new drives (consider future MCC and SCADA integration).
- Replace manually-operated aeration effluent valves with automated valves.
- Improve the sediments removal system (fly and sump).
- Any other point not listed above but is addressed through the following reports:
 - o Evoqua Water Technology report dated 06/01/2023 (Attachment G).
 - o Alisto report dated 12/05/2023 (Attachment H).
- Please refer to the attachment section for further details.

[RFP FOR CONSULTING SERVICES FOR TERMINAL WAYFINDING AND SIGNAGE STANDARDS](#) **Addenda: 0**

5/10/24 11:00 AM 24-01122 Oakland Public Works
 Plan Issuer: Port of Oakland 510-627-1140 000-000-0000
 Prebid Conf: 4/15 @ 1 PM at Oakland International Airport, 1 Airport Drive, Oakland (Meet at T1- Airport Offices, Conference Room - M102 Lake Merritt) Contract #: 23-24/24

The Port of Oakland (Port), which owns and operates the Oakland International Airport (OAK), is seeking qualified firms to submit proposals to provide Consulting Services for a Sign Standards Update. The Port intends to select one consultant to conduct a comprehensive review and analysis of the airport's current terminal wayfinding and signage standards, provide recommendations, and to prepare an updated Terminal Wayfinding and Sign Standards.

The airport seeks to engage a consultant for a comprehensive evaluation of the current terminal signage and wayfinding program. The goal is to identify best practices employed by airports of comparable size and offer policy guidance for enhancing the overall signage and wayfinding program and standards from the first curb to across Terminal 1 and Terminal 2. The consultant will assess optimal signage placement and size; signage mounting standards; and propose specific measures to minimize visual clutter throughout the airport.

EMERGENCY RESTORATION, MAINTENANCE, NON-EMERGENCY REPAIR, RELOCATION AND SUPPORT WORK OF THE COMMERCIAL FIBER OPTIC AND WIRELESS - BART #99CR-110

Addenda: 0

5/14/24 2:00 PM 24-01087 Various Locations

\$4,600,000 to \$5,400,000

Public Works

Plan Issuer: BART-Bay Area Rapid Transit District

510-464-6544

000-000-0000

Prebid Conf: 4/3 @ 10 AM - Pre Bid Zoom Meeting (Persons wishing to participate must pre-register with Contract Administrator, Claudia Hogan, at: chorton@bart.gov)

Contract #: 99CR-110

SECURITY SENSITIVE PROJECT. PLANS & SPECIFICATIONS WILL NOT BE AVAILABLE FOR VIEWING IN THE ONLINE PLAN ROOM.

Any prospective Bidder intending to participate in the bidding process must sign a Non-Disclosure Agreement for Release of Security Sensitive Information (SSI) for Bidding Purposes (Agreement) with the District. The Security Sensitive Information as defined in the Agreement includes, but is not limited to, the Bid Documents.

The Work includes furnishing all labor, materials, equipment and services for the Emergency Restoration, Preventive Maintenance, Non-Emergency Repair and Seismic Relocation Work as described below. The Work will be accomplished by task orders.

Emergency Restoration: The work under this Contract includes the immediate mobilization of the Contractor, upon notification by BART, of interruption in service in any part of its commercial fiber optic or wireless system network due to an accident, derailment, or other unforeseen events in the BART right-of-way. The Contractor's designated representative is to be on site within two (2) hours of notification. The Contractor and BART representatives will determine and agree on the required effort for the emergency restoration work before the Contractor mobilizes manpower, materials and equipment to commence the work. The Contractor shall provide emergency restoration services on a stand-by basis for twenty-four (24) hours a day, 365 days of the year.

Preventive Maintenance, Non-Emergency Repair Work and Seismic Relocation Work: Preventive maintenance consists of periodic inspections of the fiber and wireless infrastructures as described in the Summary of Work. Non-Emergency Repair Work will be performed on a non-emergency basis and is defined as work not addressed in the Emergency Restoration and Preventive Maintenance Work. The Seismic Relocation Work will require relocation of some egress facilities as required by BART's Earthquake Safety Program.

The Work shall be authorized on a Task Order basis under a three (3) year Contract, subject to the termination provisions of the Contract. The District does not guarantee that any minimum amount of services will be authorized under this Contract.

Contract #: 21113

Pursuant to Education Code sections 17250.60 et seq., the Oakland Unified School District seeks a design-build entity to produce final designs for, and construct, the new gymnasium and classroom building at the Coliseum College Preparatory Academy ("CCPA") campus, at 3190 66th Avenue, Oakland, California 94621 (the "Project"). The Project will be constructed on the southwest portion of the campus. The Project will be a new single story gymnasium building and a two-story modular classroom building comprised of 14 standard classrooms and two laboratory classrooms. Procurement of the modular building manufacturer will be issued by the District under a separate RFQ. As set forth herein, the design-build entity will be responsible for the final design and transmission of their final design (that would include the modular building design) to the Division of the State Architect ("DSA"), and for obtaining final DSA approval. No construction work shall be performed until the design-build entity receives written approval of the plans, as to the safety of design and construction, from the DSA, and until the price for the construction has been set.

RFQ FOR DESIGN-BUILD SERVICES FOR MANUFACTURED MODULAR BUILDINGS - COLISEUM COLLEGE PREPARATORY ACADEMY

Addenda: 2

5/22/24 2:00 PM 24-01043 Oakland

School

Plan Issuer: Oakland Unified School District kenya.chatman@ousd.k12.ca.us

510-535-7050

510-535-7042

Prebid Conf: MAND Mandatory Pre-Proposal Meeting: 4/10 from 10-11 AM via Zoom. Non-Mandatory Site Visit: 4/10 from 11:30-12:30 PM at parking lot off 66th Avenue

Contract #: 21113

Pursuant to Education Code sections 17250.10 et seq., the Oakland Unified School District seeks a design-build entity to produce final designs for, and construct, the classroom building at the Coliseum College Preparatory Academy ("CCPA") campus, at 3190 66th Avenue, Oakland, California 94621 (the "Project"). The Contract will be constructed on the southwest portion of the campus. The scope of the Contract will be a two-story modular classroom building comprised of 14 standard classrooms and 2 laboratory classrooms. Procurement of the Project's design-build entity will be issued by the District under a separate RFQ. As set forth herein, the design-build entity for the modular building will be responsible for the final design and coordination of their final design with the Project design-build entity in order to obtain final Division of the State Architect ("DSA") approval. No construction work shall be performed until the design-build entity receives written approval of the plans, as to the safety of design and construction, from the DSA.

NEW RFP FOR ID/IQ SCHEDULING CONSULTING SERVICES

Addenda: 0

5/23/24 3:00 PM 24-00030 Various Locations

State / Federal

Plan Issuer: Judicial Council of California Xavier.Contreras@jud.ca.gov

916-643-6961

000-000-0000

Prebid Conf: MAND 5/1 @ 9 AM - Mandatory Pre-Proposal Conference (See RFP Packet for link to attend conference)

Contract #: RFP-FS-2023-15-XC

PURPOSE OF THIS RFP:

Consultants. The Judicial Council seeks proposals from firms to provide the services of qualified, properly licensed consultants with expertise in all phases of scheduling) of public buildings ("Proposals"). It is anticipated that selected firms will review and evaluate contractor's project schedules, recreate project schedules, provide a forensic review of schedules, prepare time impact analysis reports, review contractor time impact analyses and provide a report, and provide potential schedule simulations considering delay probabilities and known risks). Prospective firms for the purpose of this RFP will be referred to as "Consultants."

Statewide Areas. Consultants will be evaluated and selected to provide services throughout the State. A map of the three Judicial Council regions is included in this RFP for information only as Attachment B.

Questions may be submitted by email to: Solicitations@jud.ca.gov. Deadline for Consultant's Submission of Questions Form (Attachment E) is May 8, 2024, by 3 PM.

RFQ FOR ON-CALL SANITARY SEWER CONSTRUCTION SERVICES 2024 **Addenda: 0**

5/30/24 2:00 PM 24-01432 Oakland **Public Works**
 Plan Issuer: City of Oakland - DPW 510-238-3961 000-000-0000

Prebid Conf: Pre-Submittal Meeting: 4/22 @ 10:30 AM via Microsoft Teams

The City of Oakland (City) seeks Statement of Qualifications (SOQ) from licensed contractors interested in providing on-call construction services for capital improvements to the City's sanitary sewer infrastructure. The City will establish a pool of pre-qualified contractors possessing license types sought by this RFQ to include, but may not be limited to: A, C-34, or C42. As specific projects arise, bids will be solicited informally from the contractor pool with the appropriate licenses. Potential projects involve rehabilitation, construction, and repairs of sanitary sewer infrastructures within the City's right-of-way and/or sewer easement, reconnecting and rehabilitating house sewer connections, and other associated work.

NEW **RFP - CONSTRUCTION MANAGEMENT WITH MASTER ARCHITECTURAL SERVICES FOR THE COUNTY OF SAN LUIS OBISPO - SHERIFF'S NIPOMO SUBSTATION** Addenda: 0

5/31/24 3:00 PM 24-01488 Nipomo

Public Works

Plan Issuer: County of San Luis Obispo

805-781-5200 805-781-1074

Contract #: 320215 / 1793

The County plans to construct an approximately 7,000 square foot, Sheriff's Substation with secure parking for patrol vehicles and unsecured parking for visitors using the Design-Build project delivery method. The Consultant being solicited by this RFP will provide Construction Management with Master Architectural Services and will be responsible for preparing the Bridging Documents to be used as the basis for final design by the Design-Build Entity selected in the future. The Bridging Documents will be prepared based upon a building program, and site analysis developed by the Consultant selected from this RFP. The new building shall include, but not limited to, office space, interview rooms, a multi-purpose room, community services rooms, administration offices, criminal investigation rooms, volunteer patrol rooms, report room, fitness room, locker rooms with showers, break rooms, staff restrooms, public restrooms, armory, access controls, utility/equipment rooms, storage space, and a kitchen including traditional appliances (e.g. stove, refrigerator, microwave). The intent is to build a user-friendly, accessible, safe, and healthy environment for the San Luis Obispo County Sheriff's Department.

CONSTRUCTION OF OPERATIONS CONTROL CENTER MODERNIZATION - BART #60CC-100A Addenda: 0

7/30/24 2:00 PM 24-00691 Oakland

\$16,700,000 to \$18,600,000

Public Works

Plan Issuer: BART-Bay Area Rapid Transit District

510-464-6544 000-000-0000

Prebid Conf: It is expected that the Pre Bid Meeting will be held via ZOOM. Persons wishing to participate must pre-register with Contract Administrator, Claudia Hogan at: chorton@bart.gov. Contract #: 60CC-100A

PLEASE NOTE: The Contract Documents will not be available at public and private plan rooms. A Bidder who has passed the Security Clearance but does not wish to purchase the Contract Documents may view them by arrangement at BART's offices at 2150 Webster Street, Oakland. A request for such viewing shall be directed to the Contract Administrator, Claudia Hogan, at: chorton@bart.gov. Viewing sessions are limited to two hours in duration. Additional sessions may be available but are not guaranteed.

Any prospective Bidder intending to participate in the bidding process must sign a Non-Disclosure Agreement for Release of Security Sensitive Information for Bidding Purposes (NDA for Bidding Purposes) with the District. The Security Sensitive Information as defined in the NDA for Bidding Purposes includes, but is not limited to, the Bid Documents. The NDA for Bidding Purposes may be obtained from the Contract Administrator by submitting a written request, in the form of Attachment 1 to this Invitation to Bid, to the Contract Administrator by email to: apalmqu@bart.gov or in person delivery at the mailing address: San Francisco Bay Area Rapid Transit District (BART), 2150 Webster St., 4th Fl., Oakland, CA 94604-2688, Attention: Amanda Palmquist. In order to participate, this written request must be received by the Contract Administrator by 4:00 PM on FRIDAY, MARCH 22, 2024.

THE WORK INCLUDES:

BART's OCC is past its useful life and needs renewal and upgrades to facilitate two of BART's key projects: Communications Based Train Control (CBTC) and BART Silicon Valley Phase II (BSVII). The Modernization of the OCC project will provide upgrades that include CBTC specific infrastructure for Automatic Train Supervision (ATS) training, testing, and to provide new workstation consoles for the rail operators. 3 large LED display screens will provide the necessary improvements to monitor the BART system. A complete remodel of the OCC space with electrical, lighting, mechanical and a new fire suppression, will modernize this essential facility.

OAKLAND UNIFIED SCHOOL DISTRICT ANNUAL PREQUALIFICATION 2023-2024

Addenda: 0

12/31/24 2:00 PM 23-03949 Oakland

School

Plan Issuer: Oakland Unified School District

510-879-8642

000-000-0000

Oakland Unified School District ("District") is prequalifying certain contractors on the District's state-funding eligible lease-leaseback projects.

It is mandatory that all of the following contractors who intend to submit a bid or proposal for District Projects, fully complete the District's prequalification questionnaire, provide all materials requested therein, and be approved by the District to be on the final prequalified contractors list. If a contractor has been prequalified by the District within the past three (3) years, that contractor may complete the District's "renewal" prequalification questionnaire for a total of three (3) years. The District will notify contractors of their three (3) year anniversary date in the contractor's prequalification letter.

This prequalification requirement applies to the following contractors:

- A contractor with an A, B, C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, and/or C-46 license(s) that intends to bid as a contractor (prime contractor) directly to the District for design-bid-build and lease-leaseback projects.
- A contractor with a C-4, C-7, C-10, C-16, C-20, C-34, C-36, C-38, C-42, C-43, and/or C-46 license(s) that intends to submit proposals as a first-tier subcontractor to a general contractor (prime contractor) that is bidding directly to the District for design-bid-build and lease-leaseback projects.

Capitol Connection Q&A for Contractors

Week of 4/15/24

By Shauna Krause, President, Capitol Services, Inc.

Almost all rules have, but an expert can share what may be little known exceptions!

Why would a licensed contractor choose a 64 hour work week? An elevator contractor learns that what went down can come up again, but there will be a test...

Q: Instead of converting our entity type from an 'S'-Corp to an Limited Liability Company (LLC) in Nevada, we would prefer to hold separate licenses under the LLC. Do you know the limit for the number of licenses for which a Qualified Individual is permitted to qualify in Nevada? I am struggling to find that answer on the Board's website.

A: A Qualified Individual can qualify more than one license in Nevada if one of the following conditions exists:

1. The individual owns at least 25% of each company in which he/she qualified for, OR
2. One licensee owns at least 25% of the other license.

There is nothing in Nevada which specifies a limit to the number of licenses a person can qualify as long as one of the above conditions exists.

Q: I am an Responsible Managing Employee (RME) on a license (CA) and would like to know if I can qualify two separate businesses with the same ownership? I have no stake in either one. One company has me as the RME/Qualifier and I would like to be the Qualifier for the other as well. The classifications would be the same. I receive a paycheck from both companies and work over 32 hours at each business.

A: An RME can only qualify one license unless either a) one entity you are qualifying directly owns at least 20% of the other, OR b) the majority of the Officers/Managers/Members are the same on both licenses. You will be required to provide a statement to the CSLB certifying that you *work for over 32 hours a week for each company* and will continue to do so while you are acting as RME for both entities.

Q: We have an incorporated General contractor's license. When reviewing our list of Officers we saw that our previous "Board Chair" was on there listed as an Officer. We dissociated her when she left our Board of Directors, however we weren't sure if we needed to add the current Board Chair to our license or not. I couldn't find anything that said it was required to have that particular position on the license. Do you have any guidance there?

A: The CSLB's rule is Corporations are only required to list their President, Secretary, and Treasurer on the contractor's license. Any additional officers that you have are optional. If you want them to have signing authority for the license and be able to communicate with the CSLB, you will want to add them.

Q: I used to have an elevator company that had a "C-11" license. It was suspended eight years ago. I shut the company down and I want to start another company. Can I get another license under a different company name? Would I have to take the exam again?

A: Thank you for contacting Capitol Services. You should be able to obtain a license again, but of course it depends on the reason for the prior suspension. Unfortunately, since it's been over five years since you were licensed, you would be required to take the exams again.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827. HEAT ILLNESS PREVENTION: HYDRATION

INTRODUCTION

Water makes up about 80% of the brain and is an essential element in neurological transmissions.

Poor hydration adversely affects our mental performance and learning ability.

What is dehydration?

- Dehydration is simply not having enough water in your body. It may result from inadequate water intake and/or from losing body water and can develop rapidly or slowly.

How can you tell if you are dehydrated?

- Irritability
- Fatigue and less able to concentrate
- Tiredness
- Headache
- Dry mouth
- Increased thirst
- Eyes stop making tears
- Sweating stops
- Nausea & vomiting
- Heart palpitations
- Light headedness
- Decreased urine output.
(Urine becomes more yellow in color.)

Excellent

Good

Moderately

Seriously

Extremely

Symptoms of severe dehydration are:

- Increased heart rate
- Confusion
- Weakness
- Coma
- Organ failure
- Death

HEAT ILLNESS PREVENTION: HYDRATION

How much should we drink?

- The standard recommendation is at least 6-8 glasses a day.
- Drink regularly throughout the day, ensuring that plenty of additional fluid is taken in during warm weather.
- Replace electrolytes by drinking fluids that replace the electrolytes.

How does hydration work?

- The skin is the key to the body's ability to regulate its temperature (thermoregulation). Once the brain senses that there is an increase in temperature, it initiates thermoregulatory mechanisms.
- The skin is the main cooling organ. It maximizes heat loss by using radiation, convection, conduction and evaporation.
 - Radiation: heat is directly lost to the atmosphere.
 - Convection: heat loss is facilitated by moving air or water vapor.
 - Conduction: heat loss by direct contact with a cooler body.
 - Evaporation: heat is lost by turning liquid (sweat) into vapor (the skin's major heat loss mechanism).

CONCLUSION

Your body gets rid of water faster than it can absorb it. A mere two-percent drop in body water can trigger fuzzy short-term memory, trouble with basic math, and difficulty focusing. Once crewmembers begin to feel thirsty, they are already becoming dehydrated.

*Note: Many of us don't know that drinking coffee or soda pop is **NOT** a substitute for drinking adequate amounts of water. In fact, since coffee contains caffeine (even decaffeinated coffee contains small amounts of caffeine), and soft drinks are often highly sweetened, they are not really "thirst quenchers." For each ounce of caffeine or soda intake, one should replenish with the same amount of water.*
