MOUNT ZION D BUILDING FAN UPGRADE - UCSF

Addenda: 12

2/22/22 2:00 PM 21-03891 San Francisco

\$1,400,000 Hospital

Plan Issuer: UCSF - Alison Kang alison.kang@ucsf.edu 415-353-7393 000-000-0000

Prebid Conf: MAND 1/6 @ 9 AM (meet at 1600 Divisadero St., San Francisco) Contract #: PRO-000013

The scope of this Project is to replace the supply and exhaust fans currently serving the D Building basement. Building D basement includes such functional areas as sterile processing, pharmacy, storage, receiving, and locker room. Meeting additional facility needs of improved air balance, spatial pressure relationship, and temperature control within the spaces served by the fans will also be achieved. The existing HVAC system serving the D Building consists of 100% outside air supply and 100% exhaust. This is the original system installed in 1982 and has exceeded its normal service life of 20 years. The replacement is expected to be accomplished by design and construction of the following mechanical system:

1. New custom fan-wall AHU. Include cooling coil, steam humidifier, and all components required to meet environmental and filtration requirements. Utilized available chilled water for cooling, hot water for heating, and low-pressure steam for humidification.
2. Supply fan system to be 100% OSA with run-around heat recovery coil connected to 100% exhaust fan system.
3. AHU system to be mounted on the parking lot above D Building. Extend duct penetrations through parking lot grade to existing duct main tunnel with intent to minimize downtime to operating spaces. Placement and penetrations are expected to require architectural and structural modifications. Extend AHU intake above grade.
4. Add new DDC CAV boxes with re-heat coils in the ceilings of the D Building functional zones. Add new room temperature and humidity sensors in existing walls. The existing ceiling air outlets and distribution ducts are to remain.

Questions: Alison Kang, University's Representative, at (415) 353-7393, or by email at: Alison.Kang@ucsf.edu. RFIs are due no later than Feb 4, 2022, at 2 PM.

PARNASSUS HEIGHT (PHT) AVENUE HOUSING SEISMIC PROGRAM QUALIFICATION PACKET FOR ARCHITECTURAL FIRMS - UCSF

Addenda: 2

2/23/22 12:00 PM 22-00344 San Francisco

Hospital

Plan Issuer: UCSF - Tra Thanh tra.thanh@ucsf.edu

415-476-9437

Contract #: PRJ-000338

UCSF Real Estate is requesting written responses to this Qualification Packet from qualified firms to provide professional consulting, design, engineering and estimating services for the PARNASSUS HEIGHT (PHT) AVENUE HOUSING SEISMIC PROGRAM. The qualified firm shall provide technical specialists including, but not limited to, the professional disciplines of Architecture, Structural Engineering and MEP Engineering along with cost estimating services. The team will also be required to include a CASp.

Parnassus Avenue Housing consists of wood framed stand-alone residential properties on the east side of 3rd Avenue between Irving and Parnassus, and on the east side of 5th Avenue between Parnassus & Kirkham. All buildings were constructed circa 1910 – 1920 and prior to a building code being enacted. The structures were originally built as single-family homes or duplex homes. Since the University acquired the properties, they have, over time been subdivided into apartment units and dorm style living units and now function as graduate student housing.

For technical inquiries not covered by this Qualification process, please submit questions using BuildingConnected at: <https://app.buildingconnected.com/opportunities/61fafc360dc77e00ab82fce7/info> by posting on the Message Board no later than February 10, 2022, at 4:00 PM.

The University of California at San Francisco Health, Design & Construction is seeking responses to this Request for Qualifications for Engineering services related to various projects at the Parnassus, Mount Zion and Mission Bay campuses. As a result of this solicitation, UCSF Health may select two (2) or three (3) firms each to provide Structural, Mechanical, Electrical and Plumbing, services as described under the Scope of Services. Selection will be based on the experience and qualifications proposed.

Firms will be used for ongoing efforts at all UCSF Health sites and for all project types depending on need. Depending on the project's scope, construction cost is estimated to be between \$10,000 to \$100,000.

UCSF Health will contract for Engineering services for a two (2) year period with four (4) two (2) year options to renew under a Blanket Executive Design Professional Service Agreement (EDPA). Renewal options and continued work through the base term is dependent on ongoing funding and consultant performance. The University will issue separate work authorizations under the blanket EDPA for each project, as required. Depending on project/workload, the firms may be needed on a full or part-time basis.

For any questions regarding this Project or your submission, please email: Elizabeth.Hsu@ucsf.edu. Please do not contact anyone else at the University in connection with this RFQ. Deadline for inquiries and questions is 4:00 PM on Monday, February 7, 2022.

ROOF REPAIR/REPLACEMENT OF DISTRICT OFFICE BUILDING A Addenda: 3

2/24/22 2:00 PM 22-00220 Dublin **Public Works**

RFP - PROFESSIONAL DESIGN SERVICES FOR BRACKEN BRAE AND FOREST SPRINGS MUTUAL WATER COMPANIES Addenda: 0

2/24/22 3:00 PM 22-00118 Bracken Brae & Forest Springs **Public Works**
 Plan Issuer: San Lorenzo Valley Water District 831-338-2153 831-338-7986

The Consolidation includes consolidation of two small mutual water companies, Bracken Brae Mutual (Bracken Brae) and Forest Springs Improvement and Maintenance Association, Inc. (Forest Springs). The San Lorenzo Valley Water District (District) system will be extended to meet the existing mutual water company systems and those systems will require both CZU fire repairs and other upgrades to bring them up to current Standards and into compliance with current Codes. The work required will include the design of approximately 1.7-miles of new or replacement water main, two (2) bridge crossings, booster stations, and potable water storage tanks.

Questions regarding this RFP should be submitted to the District's Engineer, Josh Wolff, via email at JWolff@slvwd.com by 5pm on February 17, 2022.

RFQ ON-CALL PLUMBING SERVICES Addenda: 0

2/24/22 4:00 PM 22-00002 Various Counties **Public**
 Plan Issuer: Bay Area Air Quality Management District 000-000-0000 000-000-0000
 Contract #: 2022-002

The Bay Area Air Quality Management District ("Air District") seeks State-licensed plumbing contractors to provide on-call plumbing maintenance and repair services for various Air District facilities located in the Air District's nine-county jurisdiction in the San Francisco Bay Area. Selected contractor(s) will provide full-service, plumbing maintenance and repair services on an as needed basis and in compliance with all applicable laws, regulations, policies and procedures.

PLUMBING MAINTENANCE AND REPAIR SERVICES

Services may include, but are not limited to, the following:

1. Furnishing all labor, parts and materials, tools, equipment, supplies, services, tasks, and incidental and customary work necessary to competently perform on-call plumbing maintenance and repair work at various Air District facilities. Mark-up on parts and materials may not exceed 10% of contractor's cost.
2. Laying out, installing, replacing, piping, and testing plumbing service and plumbing systems and components. Systems include, but are not limited to domestic water, heating, cooling, hot water systems, conditioned water systems, sanitary sewer, and storm systems as well as toilets, urinals, and sinks.
3. Provide a means for a supply of safe water, ample in volume and of suitable temperature for the purpose intended and the proper disposal of fluid waste from the premises in all structures and fixed works. This classification includes but is not limited to:
 - a. Complete removal of waste from the premises or the construction and connection of on-site waste disposal systems;
 - b. Piping, storage tanks and venting for a safe and adequate supply of gases and liquids for any purpose, including vacuum, compressed air and gases for medical, dental, commercial and industrial uses;
 - c. All gas appliances, flues and gas connections for all systems including suspended space heating units. This does not include forced warm air units;
 - d. Water and gas piping from the property owner's side of the utility meter to the structure or fixed works;
 - e. Installation of any type of equipment to heat water, or fluids, to a temperature suitable for the purposes listed in this section, including the installation of solar equipment for this purpose; and
 - f. The maintenance and replacement of all items described above and all health and safety devices such as, but not limited to, gas earthquake valves, gas control valves, back flow preventers, water conditioning equipment and regulating valves.

RFIs are due no later than Jan 21, 2022, at 4 PM.

EAST BLITHEDALE AVENUE REHABILITATION PROJECT - PHASE 2 & 3

Addenda: 10

2/25/22 2:00 PM 22-00134 Mill Valley \$6,800,000 to \$7,000,000

Public Works

Plan Issuer: City of Mill Valley, DPW 415-388-4033

Prebid Conf: 2/10 @ 10 AM (Zoom Meeting. See Addendum #1 for meeting participation instructions). Contract #: 22-2

Project Description (Site A): The proposed scope of work for the East Blithedale Avenue Rehabilitation Project (Phases 2 & 3) consists of roadway pavement rehabilitation and reconstruction, storm drain modifications, minor concrete work, replacement of curb, gutter and sidewalk, roadside signs, adjusting utility covers and boxes, relocating streetlights and electrical equipment, and installing solar-powered rectangular rapid flashing beacon (RRFB) systems. Roadway rehabilitation work will include mill and HMA overlay rehabilitation method and full depth pavement section reconstruction, including but not be limited to, pavement base repairs, HMA dig outs, pavement milling, saw cutting existing asphalt and concrete pavement, removal and off haul of underlying concrete pavement, placing and compacting aggregate base and asphalt concrete pavement, striping and pavement markings and curb ramp installation and other items of work as shown on the plans.

The proposed scope of work for sewer rehabilitation on East Blithedale Avenue consists of the following general items.

01. Repair and rehabilitation of existing sanitary sewer manholes.
02. Installation of new manhole.
03. Open trench replacement of existing sanitary sewer mains and lateral connections.
04. Spot and open trench sanitary sewer repairs.
05. Replacement of lower laterals, wye connections at sewer main, and cleanouts.
06. Bypass pumping and/or rerouting of sewage as necessary for construction of the project per plans and specifications.
07. CCTV inspection of sewer mains and laterals.
08. Dewatering and the construction of all temporary shoring and slope protection systems required to complete the work.
09. Stormwater pollution control and site protection measures shown on the plans, specified herein, and/or required by regulatory agencies.
10. Traffic and pedestrian control throughout construction.
11. Site restorations for areas disturbed by construction.
12. Other miscellaneous and incidental improvements for complete facilities.

Project Description (Site B): The proposed scope of work for the Sunnyside Avenue Pavement Rehabilitation Project consists cold planing, removing and disposing of asphalt concrete; placement of hot mix asphalt (HMA); PCC improvements including construction of curb ramps, sidewalk, and curb and gutter; pavement repairs around tree roots; raising and lowering utility covers; replacement of traffic striping, markings and signage; setup and maintenance of traffic control system; developing and implementing a water pollution control program; cleanup of the project area; and other items of work as shown on the plans.

Project Description (Site C): The proposed scope of work for the Sycamore Avenue Pavement Rehabilitation Project consists cold planing, removing and disposing of asphalt concrete; placement of hot mix asphalt (HMA); PCC improvements including construction of curb ramps, sidewalk, and curb and gutter; pavement repairs around tree roots; raising and lowering utility covers; replacement of traffic striping, markings and signage; setup and maintenance of traffic control system; developing and implementing a water pollution control program; cleanup of the project area; and other items of work as shown on the plans. The work to be done under this Contract includes the furnishing of all project management, labor, materials, tools, equipment, and services necessary for and incidental to the construction of the Projects as described above, as noted on the Plans and in the Specifications, and all other Contract Documents, as called for in the Special Provisions, and as directed by the Engineer.

CHURCH LANE/WILLOW ROAD AND EL PORTAL DRIVE/MISSION BELL ROAD INTERSECTION IMPROVEMENTS

Addenda: 2

3/2/22 2:00 PM 22-00414 San Pablo

\$795,000

Public Works

Plan Issuer: City of San Pablo - DPW 510-215-3060 510-215-3013

Prebid Conf: 2/16 @ 2 PM (Interested parties shall submit their e-mail address to the project manager, Jimmy Zhou, Associate Engineer at JimmyZ@sanpabloca.gov in order to receive information pertaining to the Virtual Meeting) Contract #: 0701

The City of San Pablo (City) proposes to construct pedestrian crossing enhancements at the intersection of Church Lane and Willow Road, and the intersection of El Portal Drive and Mission Bell Road. At the Church Lane/Willow Road intersection, this project will add a new raised pedestrian refuge island at the northbound approach on Church Lane, improve existing pavement markings and signs, and add advanced yield lines. At the Mission Bell Drive/El Portal Drive intersection, the project will formalize the median on El Portal to become a pedestrian refuge island, improve existing pavement marking and signs, add advanced yield lines, add illumination to improve nighttime visibility of people in the crosswalk, construct curb extensions to shorten the pedestrian crossing distance across El Portal Drive and Mission Bell Drive, and add a rectangular rapid flashing beacon for the crosswalk across El Portal Drive.

ZSFG (ZUCKERBERG SAN FRANCISCO GENERAL HOSPITAL) BUILDING 5 REHABILITATION DEPARTMENT RELOCATION - PHASE 3

Addenda: 3

3/2/22 2:30 PM 22-00312 San Francisco \$2,859,923 **Hospital**
 Plan Issuer: City & Co of San Francisco 415-554-6229
 Prebid Conf: 2/18 @ 9 AM (meet at Zuckerberg SF General Hospital Bld 40, 4th Fl Main Conf Rm (Rm 4402), 1001 Potrero Ave, SF) Contract #: 0000006110

PLEASE NOTE: In order to attend the Pre Bid Meeting, ALL attendees must be fully vaccinated against COVID-19. THERE ARE NO EXCEPTIONS TO THIS VACCINATION REQUIREMENT. All attendees must be prepared to show proof of COVID-19 vaccination at the Pre Bid Meeting. A Well-Fitted Mask is required to be worn at all times. ZSFG is considered a High-Risk Setting.

Scope of Work: This Project is located at the Zuckerberg San Francisco General Hospital & Trauma Center (ZSFG), Building 5, at 1001 Potrero Avenue, San Francisco, California. This project is permitted under HCAI (Department of Health Care Access and Information), formerly known as OSHPD (Office of Statewide Health Planning and Development). The Work consists entirely of interior renovation and is principally located on the 3rd floor of Building 5. This interior renovation involves building a new Urology Clinic, a new waste holding room & storage closet, and new staff toilet rooms in Wards 3A and 3C. The Work includes, but is not limited to, the construction of new partition walls, finished ceilings, flooring, lighting, electrical, HVAC and plumbing.

For more information, contact the Project Manager, Christine Tang, at (415) 513-3328 or by email at: christine.tang@sfdpw.org

ASSESSMENT AND MONITORING (A&M) SERVICES FOR DISASTER DEBRIS AND HAZARD TREE REMOVAL **Addenda: 0**

3/2/22 5:00 PM 22-00014 Various Counties **State / Federal**

Plan Issuer: Department of General Services Tina.Larios@dgs.ca.gov 279-946-8367 000-000-0000
Contract #: 5229933

The State of California, Department of General Services Procurement Division (DGS-PD) is conducting this Request for Proposal (RFP) 5229933 for Assessment and Monitoring (A&M) Services for Disaster Debris and Hazard Tree Removal, which is a rebid of the cancelled RFP 5219930. Refer to the attached RFP documents for further details.

The term of the MSAs resulting from the RFP will be for a two (2) year initial period with three (3) one-year options to extend at the discretion of DGS-PD, with a maximum cumulative term period of five (5) years.

Questions: Tina Larios at (279) 946-8367, or by email at: Tina.Larios@dgs.ca.gov. Proposers should clearly identify in the email subject line "RFP 5229933 Questions". RFI deadline is Feb 16, 2022, at 5 PM.

RFP - ON-CALL HOUSING, PLANNING, ECONOMIC, AND ENVIRONMENTAL SERVICES **Addenda: 2**

3/2/22 5:00 PM 22-00289 Monterey **Public Works**
Plan Issuer: City Of Monterey 831-646-3877 831-646-3405

The City of Monterey ("City") is a charter city located in the County of Monterey. The City is seeking proposals from qualified firms or individuals to provide On-Call Housing, Planning, and Environmental Services over a period of one year with a not-to-exceed annual funding limit of \$700,000. The agreement will include an option for two additional one (1) year extensions also with an annual not-to-exceed funding limit of \$500,000. The amount of work to be requested during the twelve-month contract period cannot be well defined at the outset. Work shall be issued through a notice-to-proceed. The City reserves the right to enter into agreements with multiple firms as a result of this Request for Proposals.

SHIMADA FRIENDSHIP PARK RESTROOM BUILDING RECONSTRUCTION PROJECT

Addenda: 2

3/3/22 2:00 PM 22-00319 Richmond

\$225,400

Public Works

Plan Issuer: City of Richmond - Engineering

510-307-8091

000-000-0000

Prebid Conf: MAND 2/15 @ 2 PM at Marina Bay Parkway and Peninsula Drive

The scope of work required is to repair and reconstruct the damaged portions of the restroom building roof assembly using similar building materials and finishes as originally constructed. No building addition or change in building square footage is considered or included in the scope of work.

Contact for Questions: Yader Bermudez at 510-774-6300

Email: yader_bermudez@ci.richmond.ca.us

Roof assembly reconstruction shall require the replacement of structural beams, tongue and groove wood decking, standing seam metal roof, and other building features related to the existing roof assembly.

In addition to this reconstruction, other building improvements are included in the scope of work including exterior and interior wall finishes, floor and ceiling finishes, interior restroom accessories, security improvements, signage, and electrical light fixture replacement. Some of these improvements are intended to make the two restrooms compliant with current accessibility standards.

This Project removes the existing Thermal Fluid Heater that has exceeded its useful life. The Project scope extends the Medium Pressure Steam (MPS) and condensate systems, routed from the Byers Hall to the Genentech Hall mechanical rooms, and eliminates the replacement and maintenance requirements of the Thermal Fluid Heater. In addition, the scope includes the installation of a vacuum piping system from Byers Hall to Genentech Hall, utilizing similar routing as the steam and condensate piping. Lastly, the Chilled Water system scope provides additional piping, motorized valves, and actuators that allow Byers Hall pumps to perform as tertiary pumps.

The Prequalification Questionnaire will be submitted via BuildingConnected. To request an Invitation to the Prequalification, go to UCSF BuildingConnected Plan Room at: <https://app.buildingconnected.com/public/55b2899376365309004aefcc>, join the "Bid Opportunity" and change your status to bidding.

REQUEST FOR PRE-QUALIFICATION OF GENERAL CONTRACTORS FOR THE JOB ORDER CONTRACTING 2022-2023

Addenda: 1

3/8/22 11:00 AM 22-00224 Various Cities **Public Works**

Plan Issuer: Alameda County General Services Agency (GSA) 510-208-9700 510-208-9711
 Prebid Conf: MAND 2/8 @ 10 AM via Microsoft Teams Meeting Contract #: 902036, 902037, 902038

The County of Alameda ("County") General Services Agency ("GSA") will receive Pre-qualifications for the following Contracts: Job Order Contract #'s: 20257, 20258, 20259; Master Contract #'s: 902036, 902037, 902038.

Each Job Order Contract (JOC) is an indefinite quantity contract pursuant to which the Contractor will perform a variety of projects, consisting of specific construction tasks, at different locations. The scope of the General Construction JOC Contracts are for general major maintenance, ADA improvements, repair, remodel, and other repetitive related work to be performed for the County of Alameda. The County will utilize a Construction Task Catalog® (CTC) containing a series of tasks with preset Unit Prices. The CTC was developed using experienced labor and high-quality materials. All Unit Prices are based on local labor, material and equipment prices including the current prevailing wages. The Contractor will bid Adjustment Factors to be applied to the Unit Prices. The price of an individual project will be determined by multiplying the preset Unit Prices and the appropriate quantities by the appropriate Adjustment Factor.

Contract #: 6M3506A

The services sought at this time are for glass repair and replacement services as described in Exhibit 1, AGREEMENT FOR TECHNICAL SERVICES, of this RFP. In addition, all services shall be in conformance with all applicable State and Federal statutes and regulations, as they may be revised from time to time, including those pertaining to the confidentiality of medical information. In brief, the services consist of the following:

A. Replacement service: Replace any cracked or broken or damaged glass and glazing as directed. Replace caulking and sealing of joints as required to seal the perimeters of openings in panels, in walls and doors as required to weatherproof the building structure and other enclosures. Apply anti-graffiti window film only when directed by Project Manager.

B. Graffiti removal or repair various forms of window surface damage from vandalism. Apply anti-graffiti window film.

C. Emergency Service: Emergency service shall be provided when requested. Contractor shall provide emergency service for any safety reasons within 24 hours after notification by the Project Manager.

D. Contractor shall be responsible to remove broken glass, temporary boarding haul, and recycle all used glass, caulking, sealant, chemicals and other debris/materials in the replacement glass service through and authorized recycler if appropriate.

000-000-0000

Prebid Conf: MAND 2/22 @ 11 AM (Zoom meeting. See RFQ for meeting registration instructions).

The University of California at San Francisco Medical Center (UCSFMC), Design & Construction is seeking additional responses to this Request for Qualifications for Engineering services related to various projects at the Parnassus, Mt. Zion and Mission Bay campuses. Firms that may have already submitted to the previous solicitation are not required to resubmit. Qualifying firms should include capabilities to serve as the Design Professional for Engineering services including mechanical, electrical, or plumbing. It is not required for firms to provide services for all three disciplines and are encouraged to apply if able to demonstrate capabilities with either mechanical, electrical, or plumbing design.

As a result of this solicitation, UCSFMC may select two (2) or three (3) firms to provide mechanical, electrical, or plumbing design services as described under the Scope of Services. Selection will be based on the experience and qualifications proposed.

Firms will be used for ongoing efforts at all UCSF Health sites and for all project types depending on need. Depending on the project's scope, construction cost is estimated to be between \$150,000 and \$5,100,000.

For any questions regarding this Project or your submission, please email Alison Kang at: Alison.Kang@ucsf.edu. Please do not contact anyone else at the University in connection with this RFQ. Deadline for inquiries and questions is Friday, February 25, 2022, at 5:00 PM.

NEW RENAISSANCE HIGH SCHOOL EXTERIOR PAINTING

Addenda: 0

3/8/22 2:00 PM 22-00550 Watsonville

School

Prebid Conf: MAND 2/22 @ 10am- site

Contract #: B-22-08-03-805-8160

*** BID DOCS WILL BE AVAILABLE ON OR AFTER 2/22 ***

The Project consists of: Pressure washing buildings, using cleaner as appropriate. Cleaning all metal surfaces with appropriate cleaner/degreaser. Removing loose and peeling paint. Filling cracks and joints, caulking around all edges. Priming bare or new wood/metal. Properly protecting all surroundings, i.e., exterior lights, security cameras, existing art murals, cars, windows, door hardware, etc. Painting all designated doors and frames inside and out. Painting all designated buildings and surfaces in accordance with the plans and specifications.

RFQ FOR COLLABORATIVE DESIGN-BUILD WEST CAMPUS GREEN AFFORDABLE HOUSING & STUDENT HEALTH CENTER - SFSU

Addenda: 4

3/8/22 2:00 PM 21-03977 San Francisco

\$109,000,000

School

Plan Issuer: SFSU, Capital Planning

415-338-2960

Prebid Conf: 1/10 @ 1 PM (Zoom Meeting. Those interested in attending shall RSVP no later than Jan 5, 2022 at: hancocks@sfsu.edu). Contract #: E01040

PLEASE NOTE: Statement of Qualifications due January 25, 2022, at 2 PM.

The Trustees of The California State University are requesting Statements of Qualifications (SOQ) from interested and qualified design-builders (Respondents) to provide design, preconstruction, and design-build construction services for the above-named Project. The Trustees will select a design build team consisting of a general contractor and architect (Design-Builder) using a two-step process: (1) this Request for Qualifications (RFQ) from which Respondents may submit SOQ to the Trustees, and (2) the Request for Proposals (RFP) which the Trustees will issue to the shortlisted firms. A technical review committee shall review the respondents' SOQ and, based on the criteria identified in the RFQ, the committee shall select no more than five finalists to receive the Request for Proposals. Selection of the winning Proposer will be based on qualifications and proposed fees (a design competition is not utilized). Collaborative Design-Build is a two-phased delivery process: Design Phase and Design-Build Phase, and the Trustees will issue a separate contract for each phase. See RFQ for complete scope of work.

RFQ/P FOR CONSTRUCTION MANAGER/GENERAL CONTRACTOR (CM/GC) WITH DESIGN-ASSIST CORE TRADE SUBCONTRACTORS FOR GENE FRIEND RECREATION CENTER

Addenda: 1

3/9/22 3:00 PM 22-00431 San Francisco

Public Works

Plan Issuer: City & Co of San Francisco

415-554-6229

Prebid Conf: 2/16 @ 3:15 pm (Virtual meeting. See RFQ/P packet for meeting participation instructions).

Contract #: 0000006357

San Francisco Public Works ("Public Works") and San Francisco Recreation & Park ("SFRPD") announce a Request for Qualifications and Proposals ("RFQP") inviting interested parties to submit their qualifications and a competitive proposal to provide pre-construction, construction management, general contracting and value engineering services from trade subcontractors for the SFRPD Gene Friend Recreation Center Project ("Rec Center"), located at 270 6th Street, San Francisco, CA 94103. The CM/GC's proposals are to include the CM/GC's teams of Core Trade Subcontractors to design-assist the mechanical, plumbing, electrical (inclusive of low-voltage and security) and foundations / structural scopes of work for the Project.

This Contract is subject to the San Francisco Citywide Project Labor Agreement - see Section 00 73 34 Project Labor Agreement.

The total fixed construction budget limit ("FCBL") is \$40 million, with an estimated direct construction cost at around \$34 million.

Questions and requests for clarification shall be submitted in writing, via email, to Melinda Sullivan, at: Melinda.Sullivan@sfgov.org

TEMPORARY ROCK BARRIERS - 2022, 2023 AND 2024, MIDDLE RIVER, OLD RIVER, AND GRANT LINE CANAL Addenda: 5

3/9/22	4:00 PM	22-00015	San Joaquin & Solano Counties	\$6,400,000 to \$7,200,000	State / Federal
---------------	----------------	----------	-------------------------------	----------------------------	------------------------

Plan Issuer: Department of Water Resources doe_specs@water.ca.gov 916-653-4867 000-000-0000
 Prebid Conf: Virtual meeting. Interested parties are requested to contact the Department at: Contract #: C51626
 DOE_Specs@water.ca.gov for all inquiries.

Summary of Work, this Project includes the Temporary Rock Barriers Program.

A. The project includes providing, when directed by Construction Order, labor, materials and equipment or services, construction equipment, and hauling of construction equipment for construction and removal of temporary rock barriers and appurtenances at Middle River, Old River, and Grant Line Canal. Work includes placement and removal of Department furnished rock materials, culverts, docks, articulating concrete mats, and other accessories. Maintenance, refurbishment and/or replacement of appurtenances may also be required. Related tasks and appurtenances include other work such as the following:

01. Furnish, install, and remove temporary agricultural pumping facilities.
02. Removal and placement of flashboards and walkway at the Suisun Marsh Salinity Control Structure at the Montezuma Slough in the North Delta.
03. Dredging in the South Delta.
04. Mechanical removal/harvesting or aquatic herbicide treatment of aquatic weed and other non-native species growth in the Clifton Court Forebay and other Delta waterways.
05. Debris removal, maintenance, and repair at Department owned Fish Release Facilities in the Delta.
06. Installation of stone slope protection in the Delta.
07. Pile driving to support waterway barriers within the Delta.
08. Maintenance of Department navigational aids.
09. Furnishing, installing, and removing physical waterway barriers and fish control structures including but not limited to floating fish guidance structures at Delta divergence locations.
10. Post-construction surveys of the as-built work of the rock barriers.

B. Various projects will require specialty equipment such as a high capacity barge-mounted crane for placement of the flashboards at the Suisun Marsh Salinity Control Structure, barge-mounted crane and pile driver for placement of monitoring stations, large mechanical weed harvesters and transport barges for aquatic weed removal, and clam shell or suction dredges for dredging operations.

C. Various projects will require the services of a certified diving crew. Such diving operations shall comply with Section 01351 - Diving Provisions.

D. The extent of the project will be as determined by the Engineer, and the actual amount of work required will be only as directed. No guarantee is made that the work shown or specified in the contract will be needed or directed.

CONTRACTOR'S LICENSE CLASSIFICATION FOR THIS WORK: A

Questions or requests for clarification of the drawings or specifications shall be made in writing at least 10 days before the scheduled opening of bids sent to: doe_specs@water.ca.gov

RFQ ON-CALL CEQA CONSULTING SERVICES & ON-CALL CONTRACT PLANNING SERVICES - CITY OF ANTIOCH Addenda: 0

Public Works

Plan Issuer: City of Santa Cruz

831-420-5327

831-420-5201

Prebid Conf: 3/1 @ 2pm- site

The City of Santa Cruz Water Department (City) is requesting proposals for the design of a replacement 0.4 million gallon bolted steel water storage tank and a new temporary maintenance tank, located adjacent to Empire Grade in unincorporated Santa Cruz County. The approximate coordinates of the site are: 36.998188, -122.069412. The existing University Tank 4 (U4) is located on University of California Santa Cruz (UCSC) property and serves a portion of total demand from UCSC, in addition to a small residential area within the City's area served. The U4 tank is reaching the end of its useful life and recent inspections have shown that a full replacement is warranted to ensure ongoing reliability for City and UCSC customers.

RFQ ON-CALL STRUCTURAL ENGINEERING CONSULTING SERVICES (2022-2025) AND PRE-QUALIFIED SHORTLIST FOR STRUCTURAL ENGINEERING CONSULTING SERVICES

Addenda: 0

3/10/22 5:00 PM 22-00427 Martinez

Public Works

Plan Issuer: Contra Costa County - Public Works Department

925-313-2000 000-000-0000

Prebid Conf: 2/23 @ 11 AM via Zoom

Contract #: 1020922-0103

Contra Costa County (County) is seeking qualified consultants to provide structural engineering services for County projects.

All qualified, interested firms are invited to submit Statements of Qualifications (SOQ). The County will evaluate the SOQ's to:

1. Select firms for on-call structural engineering services. All on-call structural engineering service contracts awarded will be valid for up to three (3) years. On-call contracts will have a maximum aggregate value of \$6,400,000.
2. Establish a pre-qualified shortlist of structural engineering firms that the County may solicit for future project-specific contracts. The pre-qualified shortlist will be valid for two (2) years. During the two year term of the pre-qualified shortlist, when there is a need for project-specific structural engineering services, the County will issue a Request for Proposal (RFP) to the shortlisted firms. Only those firms on the pre-qualified shortlist will receive the RFP and be allowed to make proposals for those projects. After the two year term period, independent RFQs may be issued for project-specific contracts until a new request for a pre-qualified structural engineering services consultant shortlist is developed.

ON-CALL CIVIL ENGINEERING CONSULTING SERVICES (2022-2025) AND PRE-QUALIFIED SHORTLIST FOR CIVIL ENGINEERING CONSULTING SERVICES Addenda: 0

3/11/22 4:00 PM 22-00428 Martinez **Public Works**

Plan Issuer: Contra Costa County - Public Works Department 925-313-2000 000-000-0000
 Prebid Conf: 2/23 @ 2 PM via Zoom Contract #: 1020922-0106
 The Contra Costa County Public Works Department (CCCPWD) provides for the construction, maintenance, and improvement of road, stream, channel, and drainage infrastructure within the unincorporated area of the County and the Flood Control District. Typical projects include new construction, maintenance and improvements of existing public infrastructure facilities, including, but not limited to, roadways, bridges, and drainage facilities.

All qualified, interested firms are invited to submit Statements of Qualifications (SOQ). The County will evaluate the SOQ's to:
 1. Select firms for on-call civil engineering services. All on-call civil engineering service contracts awarded will be valid for up to three (3) years. On-call contracts will have a maximum aggregate value of \$6,400,000.
 2. Establish a pre-qualified shortlist of civil engineering firms that the County may solicit for future project-specific contracts. The pre-qualified shortlist will be valid for two (2) years. During the two year term of the pre-qualified shortlist, when there is a need for project-specific civil engineering services, the County will issue a Request for Proposal (RFP) to the shortlisted firms. Only those firms on the prequalified shortlist will receive the RFP and be allowed to make proposals for those projects. After the two year term period, independent RFQs may be issued for project-specific contracts until a new request for a pre-qualified civil engineering services consultant shortlist is developed.

PORT OF OAKLAND GANTRY CRANES SPOT PAINTING FOR THE PERIOD COMMENCING JULY 1, 2022 AND ENDING JUNE 30, 2023, 2024 OR 2025 **Addenda: 0**

3/15/22 12:00 PM 22-00449 Oakland

Public Works

Plan Issuer: Port of Oakland 510-627-1364 000-000-0000
Prebid Conf: 3/1 @ 11:30 AM via Zoom Contract #: 2022-01-M2

In general, the work consists of on-call furnishing of labor, materials and equipment for spot painting container handling cranes at the wharves of the Port for the period indicated. The work includes removing existing damaged or unsound paint, cleaning and preparing crane surfaces for painting with hand tools and power tools, and painting the prepared surfaces. Some of the crane surfaces to be painted are located high above the ground and are difficult to access, so rigging, scaffolding and/or other personnel-lifting equipment will be required to perform the work. The existing paint of the cranes may contain lead.

PARNASSUS HEIGHTS (PH) HEALTH SCIENCE INSTRUCTION AND RESEARCH (HSIR) SEISMIC PROGRAM (RFP) SELF PERFORM PACKAGES - UCSF

Addenda: 5

3/16/22 3:00 PM 22-00477 San Francisco

Hospital

Plan Issuer: UCSF - Trixie Balais beatrix.balais@ucsf.edu

415-476-6835

Prebid Conf: MAND 2/18 @ 10 AM (Zoom meeting. See Advertisement for Bids for meeting participation instructions).

Contract #: PRJ-000132 / PRJ-000161 / PRJ-000162

UCSF HSIR Project is a rehabilitation and seismic upgrade of 2 existing 16-story towers on the Parnassus Street campus of UCSF. These towers are steel frame buildings that were erected in the 1960s and serve as the Health Science Instruction and Research facilities for the University. Each tower (HSIR West & HSIR East) is approximately 13,400 gsf per floor or 212,000 total gsf per tower.

The project is broken out into 3 Phases:

PH HSIR EXTERIOR REPAIRS (PRJ-000132): Exterior Repair of the existing terrace decks

PH HSIR LIFE SAFETY IMPROVEMENTS (PRJ-000161): Life Safety Improvements

PH HSIR SEISMIC IMPROVEMENTS (PRJ-000162): Seismic Improvements (Interior and Exterior)

Bid Package WP-11: Concrete - PRJ-000132

Repair concrete spalls and delamination areas along the exterior ledge. Slope the exterior ledges to facilitate waterproofing system. The estimated construction cost of this bid package is \$650,000.00

Bid Package WP-07: Interior Finish Modifications - PRJ-000161

Provide drywall & plaster, painting & wallcovering, millwork, and general carpentry services to facilitate the installation of fire sprinklers throughout the building. The estimated construction cost of this bid package is \$330,000.00

Bid Package WP-07: Interior Finish Modifications - PRJ-000162

Provide drywall & plaster, painting & wallcovering, millwork, and general carpentry services to facilitate the installation of fire sprinklers throughout the building. The estimated construction cost of this bid package is \$2,800,000.00

Bid Package WP-11: Concrete - PRJ-000162

Cut back concrete eyebrow to support critical building systems as part of the seismic upgrades. Pour equipment pads and misc. Concrete chipping and patching to support structural damper work. The estimated construction cost of this bid package is \$200,000.00

PLEASE NOTE: A MANDATORY Pre Bid Conference will be held as a Zoom Conference on 2/18/22 at 10:00 AM and the MANDATORY Pre Bid Job Walk will be conducted on the week of 2/21/22 (see Job Walk Schedule posted online in the Memos Folder). Participants shall meet at 513 Parnassus Ave in front of the Medical Sciences Building. Only Subcontractor bidders who participate in both the Conference and the Job Walk in its entirety will be allowed to bid on the Project.

Questions: Julie Gallivan, Project Manager, at (415) 509.5737, or by email at: julie.gallivan@ucsf.edu. RFIs are due no later than Mar 4, 2022, at 10 AM.

PARNASSUS HEIGHTS (PH) UC HALL (UCH) INTERIOR ABATEMENT AND DEMOLITION (BEST VALUE) - Addenda: 4 UCSF

RFP HAYWARD FIRE DEPARTMENT VEGETATION MANAGEMENT SERVICES

Addenda: 0

3/18/22 3:00 PM	22-00234	Hayward		Public Works
Plan Issuer: City of Hayward - Purchasing			510-583-4000	510-583-3600
Contract #: 2215-012122				

The City of Hayward Fire Department (hereinafter referred to as "City") is seeking an experienced and qualified contractor who is specially trained, experienced, and competent to perform on-call chipping services, and defensible space creation on private and public property in accordance with the standard terms, conditions, and specifications per the Hayward Fire Department (HFD). The work shall be done in compliance with the City's proposed contract language set forth in this Request for Proposal.

The objectives for this proposal are to identify a qualified contractor to:

- Perform on-call tree limb chipping services.
- Participate in planning meetings with fire department staff.
- Perform activities that contribute to the creation of one or more large-scale defensible space project(s).
- Remove and properly dispose of rubbish from properties.
- Perform services within timelines requested by city staff.
- Maintain records of work performed and all related correspondence.
- Provide invoices for services rendered within 48 hours of project completion.

GATE REPLACEMENT AT F/G DOCK AND OTHER PARKS IMPROVEMENTS

Addenda: 0

3/24/22	2:00 PM	22-00440	Berkeley		\$31,000	Public Works
Plan Issuer: City of Berkeley - Finance Dept/General Services Division				510-981-7200	000-000-0000	
Prebid Conf: MAND 3/2 @ 10:30 AM at Berkeley Marina F/G Dock, Marina Blvd., Berkeley				Contract #: 22-11493		

The scope shall include, but is not limited to, work substantially similar to that presented below:

01. Completely remove and dispose of existing dock gate and structure maintaining electrical power feed.
02. Fabrication and installation of new dock gate.
03. Supply and install one (1) aluminum pedestrian gate 48" wide and 8' tall to match design of neighboring gate and fence entrance.
04. Posts will be 3 1/2" x 3 1/2" aluminum posts set with flange plates with anchor bolts. Two west side outriggers for support.
05. Picket bars will be 1" x 1" aluminum welded to frame with 3 1/2" spaces.
06. Perimeter gate will be 2" x 2" aluminum.
07. Gate will include three (3) heavy-duty stainless-steel hinges, include a heavy duty LCN 4040XP automatic door closer or equivalent and an applicable aluminum housing/keedex box for a lever hand set.
08. A Schlage vandal proof lever hand set with keyed entry and free exit will be installed.
09. A 12" long by 2" wide door guard will be welded to overlap strike on gate frame.
10. An installed barrier of expanded aluminum will protect the Schlage lever handle in a two-foot radius for security.
11. Electrical to be wired in gate frame for electric strike.
12. Von Duprin 6211 24V US320 FS CON electric strike to be supplied and installed by contractor to existing wiring.
13. Gate will have two 8' x 8' wing panels on each side that will hang over the water for security.
14. Picket bars to match gate in dimension and spacing. Header/Perimeter 3" x 3" to match posts. Overall dimension of gate structure approximately 8' 3" by 20'.
15. Both sides of panels and top of gate structure will have 2" x 2" fall bars, spaced 1' apart, angled 45 degrees down on the side and forward on the top.

TRANSMISSION LINE 7/8 UPGRADES

Addenda: 1

3/24/22	2:00 PM	22-00013	Stanislaus County		\$28,000,000	Public
Plan Issuer: City & Co of San Francisco - Utilities qbd@sfwater.org				415-551-4603	000-000-0000	
Prebid Conf: 3/1 @ 10 AM (Virtual meeting. See Advertisement for Bids for meeting participation instructions).				Contract #: HH-1007		

The objective of the Project is to upgrade existing conductors along Transmission Line 7/8 to accommodate additional transmission power flows on them due to generators seeking interconnection on the neighboring California Independent System Operator (CAISO) system. This upgrade is based on the SFPUC and Hetch Hetchy Water and Power's (HHWP) affected system study process consistent with its obligation as a provider of electric transmission service and the CAISO's FERC-approved tariff. The Work is to be performed in Stanislaus, California.

SFPUC encourages Bidders to submit a Safety Prequalification Form at least 3-weeks prior to the date of Bid opening. Bidders are required to pass the Safety Prequalification prior to SFPUC considering their bid submission complete. SFPUC will notify Bidders who have passed the Safety Prequalification prior to or on the date of Bid opening. Refer to Section 00 21 13 - Instructions to Bidders, "Bidder Qualifications" and Section 00 45 12 - Safety Prequalification for additional information.

JANITORIAL SERVICES FOR AIR DISTRICT FACILITIES

Addenda: 0

3/25/22 4:00 PM 22-00012 Various Counties

Public

Plan Issuer: Bay Area Air Quality Management District

415-749-5000 000-000-0000

Contract #: 2022-005

The Bay Area Air Quality Management District ("Air District") seeks proposals from qualified contractors to perform routine and specialized janitorial services at various Air District facilities located in the San Francisco Bay Area as outlined in this Request for Proposals ("RFP"). The Air District anticipates selecting one (1) or more qualified contractor(s) to provide routine custodial and sanitation services on monthly, quarterly, and as-needed basis.

All questions must be in written form and submitted through the Portal at: <https://baaqmd.bonfirehub.com/portal/?tab=openOpportunities> no later than 4:00 PM on Friday, February 18, 2022. Firms will not be able to submit questions after this time. All questions will be answered in writing and posted on the Portal by 6:00 PM. on Thursday, March 3, 2022.

2022 REQUEST FOR PROPOSALS (RFP) ADVANCING EQUITABLE CLIMATE ACTION IN MARIN COUNTY

Addenda: 0

3/28/22 5:00 PM 22-00397 Marin County

Public Works

Plan Issuer: Marin County Foundation pjuachon@marincf.org

415-464-2547 000-000-0000

The Buck Family Fund (BFF) of the Marin Community Foundation is pleased to offer a special, one-time funding opportunity in 2022 to accelerate local, equitable climate action. In alignment with BFF's long standing focus on Marin's low-income and BIPOC communities, we seek proposals that reduce local greenhouse gas emissions while addressing social determinants of health for these priority populations. While future rounds of this RFP will not be offered, insights and ideas gleaned from this process will be incorporated into consideration of potential future philanthropic investments regarding climate change.

Prospective applicants may email questions or schedule an optional 30-minute call with Program Director, Patti Juachon, to determine if a project aligns with the objectives of this RFP. Calls may be scheduled through March 11, 2022, to allow ample time to prepare a proposal should you decide to apply. Indication of alignment does not guarantee a favorable decision but should help you decide if the time investment is worthwhile. Patti Juachon can be reached by email at: pjuachon@marincg.org, or by calling (415) 464-2547.

HVAC A-E AND CONSTRUCTION MANAGEMENT SERVICES (PREQUALIFICATION)

Addenda: 2

3/31/22 5:00 PM 21-03604 Livermore **State-Federal**

Plan Issuer: Lawrence Livermore National Laboratory 000-000-0000 000-000-0000
 Contract #: B650111

Under the Architectural-Engineering (A-E)/Construction Management MTA, the Subcontractor self performs the design and construction management but competitively subcontracts the lower-tier build effort. HVAC-related services will involve dry side systems, wet side systems, controls and other related construction activities. The services will be performed at DOE/NNSA sites around the country under a myriad of diverse and dynamic access, safety, security, facility operations and other constraints. Services include supervisory and safety personnel and subcontracting for required skilled construction craft labor, materials and equipment suppliers and associated support services.

NEW [MAIN WASTEWATER TREATMENT PLANT POWER GENERATION STATION RELIABILITY IMPROVEMENTS PHASE 3 - EBMUD](#) **Addenda: 0**

4/20/22 1:30 PM 22-00495 Oakland \$9,000,000 to \$10,000,000 **Public Works**

Plan Issuer: EBMUD (East Bay Municipal Utilities District) purchase@ebmud.com 510-287-0454 000-000-0000
 Prebid Conf: 3/22 @ 10 AM (Virtual meeting. If interested in attending, please email Daniel Eng at: [Contract #: SD-413 daniel.eng@ebmud.com](mailto:daniel.eng@ebmud.com). Link to attend meeting will be sent to confirmed attendees ONLY).

PLEASE NOTE: The Pre Bid Jobsite Tour will be conducted on Wednesday, March 30, 2022, at 9:00 AM. Attendees shall assemble at 2020 Wake Ave, Oakland, CA. The tour will last approximately one hour. No more than two persons per bidder shall attend. Prospective bidders interested in attending the Pre Bid Meeting and/or Jobsite Tour shall email Daniel Eng at: daniel.eng@ebmud.com with the names of attendees and their respective email addresses no later than Friday, March 25, 2022.

Work includes, but is not limited to, the following:

01. Separating out the high voltage wiring and components from a low voltage panel,
02. Rebuilding heat exchangers,
03. Replacing air compressors and an air dryer,
04. Replacing lube oil heater and control panel,
05. Modifying flare ignition rods and pilot flame assemblies,
06. Extending boiler canopy coverage and installing sidewalls,
07. Replacing heat recovery unit pump impeller and motor,
08. Hiring the specified Provider to install controls upgrades for the PGS engine-generators,
09. Relocating pressure transmitters,
10. Seismically retrofitting several structures,
11. Installing a radiator for turbine oil cooling,
12. Relocating buried digester gas line to above ground,
13. Demolishing the existing low pressure gas holder tank, and
14. Miscellaneous work as shown in the Drawings and Specifications.

For more information concerning this Project, contact the District's Construction Manager, Daniel Eng, at (510) 915-7521, or by email at: daniel.eng@ebmud.com

[RFP NEW TREASURE ISLAND WASTEWATER TREATMENT PLANT \(DESIGN/BUILD\)](#) **Addenda: 8**

4/22/22 2:00 PM 21-03959 San Francisco \$158,000,000 **Public Works**

Plan Issuer: City & Co of San Francisco - Utilities QBD@sfgwater.org 415-551-4603 000-000-0000
 Prebid Conf: 2/8 @ 10 AM (Virtual meeting at: <https://sfgwater.zoom.us>. The Meeting ID is: 873 3306 5768; Meeting Passcode is: 940205. To participate by phone, dial +1-213-338-8477 & enter the Meeting ID followed by # key).

PLEASE NOTE: Site Visit will be held on February 9, 2022, at 10 AM. Meet at Treasure Island Wastewater Treatment Plant, San Francisco.

The San Francisco Public Utilities Commission ("SFPUC") announces a Request for Proposals ("RFP") from pre-qualified firms to provide design services and construction services for Contract No. DB-132 – New Treasure Island Wastewater Treatment Plant ("NTIWTP" or "Project") using the Design-Build project delivery method. SFPUC, a department of the City and County of San Francisco (the "City"), seeks to retain the services of a Design-Builder ("DB") to design and construct the Project on Treasure Island (TI) in San Francisco, California.

Project Labor Agreement: The Project is subject to the requirements of the Water System Improvement Program.

Project Labor Agreement ("WSIP PLA") and the Second Addendum, thereto, dated July 23, 2019, collectively "PLA." Proposers are advised that the PLA is incorporated into and made a part of any contract awarded for this Project.

Questions concerning this RFP should be addressed via email to Derek K. Wong at: qbd@sfgwater.org

Capitol Connection Q&A for Contractors

Week of 2/21/22

By Shauna Krause, President, Capitol Services, Inc.

Q: I am a construction consultant. I don't do any building work, but basically design the structure, make sure that the job runs smoothly and on budget, and I sometimes arrange for contractors and their crews to perform the job. I don't have any experience in the field but I do have a degree in Architecture. I was recently told that I need a contractor's license to consult on these projects. My first question, am I required to be licensed? And secondly, how would I obtain a license with no field experience?

A: Yes, construction consultants are required to be licensed with the CSLB. B&P Code Section 7026.1 addresses this issue and states that 'anyone who oversees bids and construction projects and/or arranges subcontractor work and schedules is in fact acting in the capacity of a contractor and is required to be licensed.'

To answer the second part of your question, you would not be able to qualify for a contractor's license with no field experience. In order to qualify for a license you are required to show four years of full-time work experience in the trade you are applying for, with *one* of those years being hands-on field experience. However, the CSLB will give you credit for your architectural degree. Without the hands-on experience though, you may want to consider hiring an individual who does have the General Building experience to act as your qualifying individual.

Disaster victims don't need to be 'burned' again by criminals. CSLB says "Wildfire survivors are warned to stay alert as they search for contractors to help them rebuild. A recent CSLB multi-agency sting operation in the city of Paradise in Butte County found unlicensed activity in the Camp Fire disaster area. Unlicensed and unscrupulous contractors try to take advantage of consumers rebuilding after a disaster," said CSLB Registrar David Fogt. "Fire survivors need to check the license of any contractor they are considering before starting a rebuilding project." Check a license at CSLB.ca.gov it's easy to do.

The four people arrested for unlicensed contracting face felony charges because the unlicensed activity took place in a declared disaster area. Punishment may include a fine of up to \$10,000, and up to three years in state prison, or both.

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email info@cutredtape.com, or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827. Search past columns at www.cutredtape.com.

INTRODUCTION

It only takes a few feet of pressure on the chest to stop the lungs working, and when the lungs don't work, suffocation can occur within 3 minutes. With facts like these, it is easy to see how important it is to prevent cave-ins on trenching and excavation projects instead of dealing with them later. The first step to avoid cave-ins is to know the soil type you are dealing with:

DEFINITIONS

Fissured: Soil material that has a tendency to easily crack or break along definite lines.

Tons per square foot (TSF): a way of measuring strength of soil

Cohesive Soil: Soil that stays in clumps when it is excavated

Granular Soil: Soil that breaks up easily and does not stay in clumps

TYPES OF SOIL

Type A: According to OSHA, Type A Soil:

- Is cohesive
- Is hard to break up when dry
- Has a soil strength of 1.5 TSF or greater

Examples of Type A Soil are:

- Clays and clay loam
- Cemented soils

The soil is NOT Type A if it is:

- Fissured
- Subject to vibration from events like heavy traffic or pile driving
- Previously disturbed

Type B Type B soil as defined by OSHA:

- Is cohesive with strength between 1.5 TSF and .5 TSF
- Can be some types of granular soil
- Can be previously disturbed soil
- Can be fissured or subject to vibration
- Can be dry rock that is not stable

Examples of Type B Soil are:

- Unstable dry rock
- Angular gravel (like crushed rock)
- Silt
- Silty loam and sandy loam

Type C Type C Soil:

- Has a soil strength of .5 TSF or less
- Can be some types of granular soil
- Can be submerged soil or soil from which water is freely seeping
- Unstable submerged rock

Examples of Type C soil are:

- Gravel
- Sand
- Loamy Sand

HOW TO INSPECT THE SOIL

Visual Inspections:

- Observe the soil as it is excavated to see if it is cohesive or granular
- Look for underground structures and see if the soil has been previously disturbed
- Observe the surrounding areas for water seepage
- Look around for sources of vibration that may affect the stability of the soil

Manual Inspections:

- Try to mold moist soil into threads as thin as 1/8 inch in diameter
 - If it stays together without crumbling, it's cohesive.
- Crumble dry soil
 - If it turns into individual grains or fine powder, it is granular.
- If it falls into clumps and the clumps can only be broken up with difficulty, then it can be considered uninsured
- Thumb Penetration or Penetrometers
 - Using these tests will tell you what the TSF of the soil is.
- Drying Test: Moisten the soil and watch it as it dries
 - If it develops cracks as it dries, it is fissured
 - Break the soil with your hand if it doesn't create cracks; and if it is hard to break, it is cohesive.

EXTRA TIPS

- When in doubt as to what the soil is, assume it is Type C
- If there are layers of different types of soil, treat all of the soil like you would the weakest layer
- Always have a qualified person inspect and identify the soil before you begin
- Be sure to have a new inspection each time there is a change in weather conditions

CONCLUSION

Always know what type of soil you are working with so you know how to prevent cave-ins, injuries and death. Remember to look for clues from the following guidelines, and when in doubt, assume the soil is the weakest type and treat it accordingly.
