**RFP RECYCLING, COMPOST & TRASH COLLECTION & PROCESSING SERVICES FOR EAST BAY REGIONAL PARK DISTRICT**

**Addenda: 2**

**4/21/25 2:00 PM 25-00780 Various Cities**

**Public Works**

Plan Issuer: East Bay Regional Park District-EBRPD

510-544-2301

000-000-0000

Prebid Conf: MAND 3/17 @ 2 PM via Zoom

The contractor is required to provide collection services for three (3) streams: 1) all recyclable materials; 2) all compostable materials (including plant debris, food scraps and food soiled paper); and 3) trash, as requested by EBRPD. In addition, EBRPD requires collection of larger loads of yard trimmings, construction & demolition materials, scrap metal and wood. Any discarded materials that the proposer will not service must be fully declared in the proposal. Exceptions to the Terms and Conditions of EBRPD may cause a proposal to be deemed non-responsive.

EBRPD has created six "Regional Groups" for the 43 locations included in this Request for Proposals (RFP) as listed in Section IV (East Alameda, West Alameda, South Alameda, East Contra Costa, West Contra Costa, Central Contra Costa). Contractors may propose to provide services for one or more of these Regional Groups.

**ANNUAL SOLAR PANEL CLEANING** Addenda: 4

**4/21/25 4:00 PM** 25-00988 Alameda **Public Works**

Plan Issuer: Housing Authority of the City of Alameda 510-747-4300 510-522-7848  
 Prebid Conf: MAND 3/31 @ 10 AM. Please meet the Property Manager, Andrea Rodriguez at 611 Martin Mariner Avenue, Alameda CA 94501. Contract #: AS-03132025

The Housing Authority of the City of Alameda (AHA) is seeking qualified contractors to complete annual solar panel cleaning services on multiple AHA owned buildings. A description of the work is included in the Scope of Services attached, as well as a list of addresses where the work will be conducted.

The Contractor shall:

- 1) Perform the necessary cleaning maintenance annually of the equipment. This includes:
  - a) Professionally cleaning all panels of the surface glass modules with deionized water and soft sponge or cloth if necessary. Use Water to take away hard stains, dust, dirt, leaves, bird droppings, and any other foreign object that may diminish the output of the electricity being produced by the panels. Any use of any type of chemical or non- abrasive detergent must be specifically identified by the manufacturer to ensure that the warranty is not voided through the cleaning activities.
  - 2) Provide job labor and any cleaning tools and materials that may be needed to complete the assigned task.
  - 3) Contractor will clean up and haul away all job-generated debris.
  - 4) Contractor shall include all transportation, mobilization, and all incidental costs required to complete the work required for this job.
  - 5) Contractor will need to coordinate with Agency to gain access to the sites. Multifamily buildings largely have access through internal access points within the building. The single- family units may require the use of elevation apparatus equipment, such as a boom lift, to access the panels.
  - 6) If needed, access to a water source may be provided by the Agency.
  - 7) Cleanings must occur during the months of April or May of each year. The proposed date of cleaning must be submitted to the Agency at least two weeks prior to the service occurring.

Deadline for Questions: April 3, 2025, 3:00 PM. Questions shall be submitted via Bonfire Public Q&A.

**BSL SEISMIC MONITORING STATIONS INSTALLATION - UC BERKELEY**

**Addenda: 1**

**4/22/25 1:00 PM 25-00032 Various Locations**

\$160,000

**School**

Plan Issuer: UC Berkeley, Capital Projects eddie.chau@berkeley.edu

314-215-8651 510-642-7271

Prebid Conf: MAND 4/3 @ 2 PM - Mandatory Virtual Pre Bid / Site Tour (See Advertisement for Bids for participation instructions) Contract #: 16368A

The UC Berkeley Seismology Lab (BSL) operates a large network of more than 240 remote geophysical stations across Northern California. These stations contribute to earthquake monitoring, earthquake early warning and research. They are located in a geographical area between Bakersfield, CA, and the California-Oregon border.

The base scope of work is for the construction of six (6) new seismic stations. Eight (8) additional stations are anticipated to be added to this contract. The construction of the 6 initial sites must be completed by Dec 31, 2025, including 2 of them before July 31, 2025. Additional sites will be added to the contract per the unit prices provided by the contractor and the contract time will be adjusted accordingly.

A typical station consists of seismic sensors, a datalogger, a solar array system (if no AC power is available), and other peripheral control electronics housed in an enclosure. Contractors will provide PVC cased "wells" for sensor deployment, concrete pads, and conduit runs. The stations also include Owner furnished, Contractor Installed (OFCI) equipment.

The newly constructed stations will be located on a variety of properties, including properties owned by State or Federal agencies, public park districts, local governments, and private owners. Site accessibility varies.

Please refer to Division 1 for more information on the Scope of Work.

Location coordinates of first six sites:

Butt Valley 40.114401, -121.152592

NS2014 39.8963 -121.2029

**LEONARD FLYNN ELEMENTARY SCHOOL PLAY YARD IMPROVEMENTS**

**Addenda: 6**

**4/22/25 11:00 AM** 25-01110 San Francisco \$500,000 **School**  
 Plan Issuer: SFUSD - Ferdinand Vergeire vergeiref@sfusd.edu 415-265-4262 415-355-6988  
 Prebid Conf: MAND 4/1 @ 10 AM (Meet at Leonard Flynn ES, 3125 Cesar Chavez St., San Francisco. Bidders shall meet directly in front of the main entrance gate along Harrison St.) Contract #: 12406

The Project is generally described as improvements to the existing upper play yard. Work shall include, but not necessarily limited to:

1. Demolition and removal of the 3 portable buildings including the metal ramps and landings;
2. Removal of the existing and installation of the new kindergarten play equipment and safety rubber matting;
3. Removal of the existing and construction of new asphalt concrete pavement on the play yard;
4. Removal and replacement of the safety rubber matting of the upper grade play structure;
5. Application of asphalt pavement resurfacing and coating including game line striping;
6. Construction of green infrastructure and landscape planters including planting and irrigation;
7. Hazardous materials and lead paint abatement as described and specified in Specification Section 00 31 26.

LICENSE REQUIREMENTS: In accordance with the provisions of California Public Contract Code § 3300, the District requires that Bidders possess the following classification(s) of California Contractors License at the time that the Bid Proposals are opened: Class A - General Engineering Contractor with Asbestos and Lead Certification or Sub-Contractor with Asbestos and Lead Certification performing the work OR Class B - General Building Contractor with Asbestos and Lead Certification or Sub-Contractor with Asbestos and Lead Certification performing the work.

Questions: Ferdinand Vergeire, at: vergeiref@sfusd.edu, or by calling (415) 265-4262.

**2025 BUCHANAN STREET REPAIR**

**Addenda: 2**

**4/22/25 2:00 PM 25-01123 Albany**

**\$306,000**

**Public Works**

Plan Issuer: City of Albany - DPW

510-524-9543

000-000-0000

Prebid Conf: 4/10 @ 11 AM at Albany Public Works Building, 540 Cleveland Avenue, Albany

Contract #: C25-05

Project consists of pavement repair on City arterial Buchanan Street at the section located between Pierce Street and Jackson Street and the arterial Marin Avenue between Jackson Street and San Pablo Avenue. Pavement repair generally consists approximately 2,700 square yards of 4-inch asphalt concrete pavement removal and replacement. Traffic striping within project limits will be refreshed, including traffic striping unaffected by the pavement repair.

Additional pavement repair at a nearby location on Eastshore Highway between the driveway entrance to the Target shopping center and the driveway entrance to the Toyota of Berkeley Service Center is included as optional Bid Alternate A.

Limits of repair are presented as estimates and field conditions may necessitate extending the area and/or depth of the repair.

Project paving is anticipated to be scheduled for night work to minimize traffic impacts.

License Required: Type A, General

**RFP ON-CALL ENVIRONMENTAL CONSULTING**

**Addenda: 3**

**4/22/25 2:00 PM** 25-00726 Berkeley

**Public Works**

Plan Issuer: City of Berkeley - Finance Dept/General Services Division

510-981-7200 000-000-0000

Contract #: 25-116707-C

The City of Berkeley (the "City") Transfer Station at 1201 Second Street collects refuse, construction and demolition debris, green waste, and other materials from the public. It is operated by the Zero Waste Division of Public Works. The Recycling Center at 669 Gilman Street process recyclables from the community. Both sites operate under the National Pollutant Discharge Elimination System (NPDES) Industrial Stormwater Permit (Permit). The stormwater must be sampled during storm events as per regulatory requirements. This is not a service that can be done by the City of Berkeley Public Works Department as they do not have the appropriate materials, equipment, or training. Public Works is seeking a vendor that can provide sampling services in addition to recommendations and implementation of Best Management Practices.

In addition, various other environmental consulting services including defensive environmental practices that lower potential liability and general recommendations concerning compliance with applicable regulations, as well as other general environmental consulting services may be required "on-call." This is to support Citywide environmental compliance and the contracted vendors will be utilized by multiple departments.

**RFP ON-CALL HAZARDOUS WASTE MANAGEMENT**

**Addenda: 3**

**4/22/25 2:00 PM 25-00729 Berkeley**

**Public Works**

Plan Issuer: City of Berkeley - Finance Dept/General Services Division

510-981-7200 000-000-0000

Contract #: 25-116705-C

The City of Berkeley Public Works Department is responsible for ensuring proper disposal of abandoned hazardous waste found in the public right-of way, illegally disposed of at the City's Transfer Station, and assisting in response to accidental spills or discharges on public property. In addition, Public Works coordinates the disposal of City generated hazardous waste. The City also operates two public used oil take-back programs, one at the Berkeley Marina and the other at the City's Transfer Station.

Public Works requires the expertise and services of a hazardous waste contractor that will provide proper clean-up, collection, storage, handling, recycling, reuse, treatment, packaging, documentation, transportation, transfer, and disposal of hazardous waste. The City does not operate a household hazardous waste facility and directs residents and business to utilize the County's facilities. In addition, there may be special projects such as storage tank cleaning, contaminated soil removal and emergency response services requested.

The primary locations where hazardous waste is stored are the Transfer Station at 1201 Second Street, Corporation Yard at 1326 Allston Way, and the Berkeley Marina at 201 University Avenue.

Questions Deadline: No later than March 10, 2025.

**RFQ/P LIGHTING RETROFIT AT HART MIDDLE AND PLEASANTON MIDDLE SCHOOLS**

**Addenda: 3**

**4/22/25 2:00 PM 25-01074 Pleasanton**

**School**

Plan Issuer: Pleasanton Unified School District

925-426-4336 000-000-0000

Prebid Conf: MAND 3/26 @ 8 AM at Hart Middle School, 4433 Willow Road, Pleasanton then move to Pleasanton Middle School about 8:45 AM, 5001 Case Avenue, Pleasanton. Must attend both site walk on March 26, 2025.

The Pleasanton Unified School District (PUSD/ "District") is seeking proposals from qualified contractors to implement campus wide interior LED lighting retrofits at Hart Middle and Pleasanton Middle Schools. The District has conducted walk through lighting audits, from which relevant information is provided to the bidders for reference and used to estimate the scope of work. The scope of work includes approximately 3,500 fixtures, which are predominantly linear fluorescent T8 to LED retrofits along with a small portion of highbay and downlight retrofits. It is expected that the installer will use design-build process to complete the lighting upgrades, including the contractor's own lighting survey to confirm detailed locations, fixture counts, types and applicability of retrofit strategies.

**4/22/25 5:00 PM 25-01026 Richmond**

**Public Works**

Plan Issuer: City Of Richmond - Public Works

510-774-6300

000-000-0000

The City of Richmond, CA("City"), Public Works Department is responsible for the roof maintenance, waterproofing and minor repair of all the City of Richmond facilities. The goal of this RFP is to identify a responsive and capable roofing contractor to perform necessary maintenance, repairs, inspections and emergency services as required. It is the intent of the City to establish at least two to four roofing services contracts to provide services for these facilities.

The City facilities inventory includes Civic Center Plaza Complex, Richmond Swim Center, Richmond Plunge, approximately 50 City facilities, including fire stations, community centers, Point Molate buildings and libraries.

In general, this work scope includes repairs to the various systems, gutters and roof drains. The awarded vendor will be required to provide personnel who have experience in managing large multi-facility roof maintenance repairs as well as: roof inspections, leak tests, repairs, waterproofing, and minor restoration. Additionally, all personnel must have experience with different types of roof system and materials, including asphalt and coal tar builds-up; modified bitumen; EDPM; TPO; metal; copper; slate; waterproofing; shingles; coatings; and standing seams. All such personnel shall be properly licensed and fully qualified to perform the required services.

Any questions from prospective contractors must be submitted via the electronic BidsOnline system no later than 2 p.m., Tuesday, April 15, 2025

Plan Issuer: City & Co of San Francisco - DPW contractadmin.staff@sfdpw.org				628-271-3139	000-000-0000
Prebid Conf: 4/8 @ 10 AM - Pre Bid / Job Walk (Meet at SF Fire Department Station 9, 2245 Jerold Ave, San Francisco)				Contract #: 0000010541	

The Work is to replace the existing roof at SFFD Fire Station No. 9, which is a two-story building approximately 80'x80' in footprint and located at 2245 Jerold Avenue. The existing roofing is a tar-and-gravel roof system approximately 6,400 square feet in area. The roof is generally flat with a few mechanical equipment on top of the roof. There are some existing fans, vents, and small amounts of exposed ducts/pipe. The project scope involves demolishing the existing built-up roofing system including gravel ballast, roofing membrane, pitch pockets, and elastomeric coating upturns. Install new roofing system, roof hatch safety post, new elastomeric coating on inside face of existing concrete parapet. Raise roof curbs where required to achieve sufficient roof upturn. Remove and re-install existing roof hatch on new raised concrete curb, to accommodate new insulation thickness. Patch and repair existing cavities and corroded rebar on inside face of existing concrete parapet.

The time allowed for completion is 60 consecutive calendar days. The estimated construction cost is approximately \$500,000. Quotes in excess of \$1,170,000 may not be awarded through this informal bidding process.

LICENSE REQUIREMENT: Class "B" License is required to bid.

Questions: Tony Abuyaghi, Project Manager, at (628) 271-2876, or email: tony.abuyaghi@sfdpw.org.

**GENERAL ENGINEERING (A-LICENSE) CONSTRUCTION, SAN FRANCISCO, SAN MATEO, SANTA CLARA, AND ALAMEDA COUNTIES (JOC-111)**

**Addenda: 1**

<b>4/24/25</b>	<b>2:00 PM</b>	25-01251	San Francisco/San Mateo/Santa Clara/Alameda	\$5,000,000	<b>Public Works</b>
----------------	----------------	----------	---	-------------	---------------------

Plan Issuer: City & Co of San Francisco - Utilities QBD@sfgwater.org 884-295-5417 000-000-0000  
 Prebid Conf: 4/9 @ 10 AM - Teleconference Pre Bid Meeting (See Advertisement for Bids for meeting participation instructions) Contract #: JOC-111

A Job Order Contract ("JOC") is an indefinite quantity contract pursuant to which the San Francisco Public Utilities Commission may accomplish a series of projects with a single, competitively bid contract awarded before the projects are identified. Contractors bid an adjustment factor to pre-set unit prices. Work is accomplished by issuing Task Orders to the successful contractor during the four-year term of the contract.

The Work is to be performed in San Francisco, San Mateo, Santa Clara, and Alameda Counties. The Maximum Contract Amount is \$5,000,000.00.

LICENSE REQUIREMENTS: A Class "A" California Contractors License is required to bid. In addition to an A-License, the prime bidder must have successfully completed work on at least three public works projects within the past ten years, each project with a minimum construction value of \$1,500,000. Furthermore, each listed subcontractor must possess appropriate active licenses for the work each subcontractor will be performing.

PLEASE NOTE: SFPUC encourages Bidders to complete the Safety Prequalification Web Form at: <https://www.sfpuc.gov/construction-contracts/contract-opportunities-payments/prequalify-construction> at least 3-weeks prior to the date of Bid opening in accordance with Section 00 21 13 - Instructions to Bidders. Bidders are required to pass the Safety Prequalification prior to SFPUC considering their bid submission complete. SFPUC will notify Bidders that have passed the Safety Prequalification prior to or on the date of Bid opening. Refer to Section 00 21 13 - Instructions to Bidders, "Bidder Qualifications" and the website listed above for additional information.

Plan Issuer: Union Sanitary District

510-477-7500

510-477-7509

Prebid Conf: 3/11 @ 2 PM via Virtual Meeting. If bidders wish to attend a voluntary site visit, bidders shall contact Andy Majsce at 510-477-7603 to schedule a site visit (at least 72 business hours in advance)

Contract #: 800-550

The project consists of civil, mechanical, electrical, instrumentation, corrosion, and structural improvements to the Newark Pump Station and Irvington Pump Station. This includes, but is not limited to, the following:

**Newark Pump Station:**

- Replacement of the existing vapor phase odor control system and roof-mounted exhaust fan with a new carbon adsorption system serving pump station odor sources along with exhaust fan with variable frequency drive (VFD), ducting, and demister unit.
- Installation of new overhead foul air duct support bridge for conveying foul air from the pump station wet well to the new odor control system to the west.
- Installation of a new stair tower for accessing the pump station roof and providing guard railing at the existing roof parapet.
- Rebalance supply air and exhaust air flow rates for the existing pump station facility.
- Repair cathodic protection underground pipe joint at the pump station surge tower.
- Miscellaneous civil, structural, electrical, and instrumentation improvements.

**Irvington Pump Station:**

- Replacement of the existing odor control chemical packed tower scrubber system with a new carbon adsorption system serving pump station odor sources along with exhaust fan with VFD, ducting, and demister unit.
- Installation of temporary odor control system for use during demolition of existing odor control system and installation of new permanent odor control system.
- Installation of temporary bulk chemical feed system and accessories located in existing concrete equipment pit.
- Demolition of piping and components located in existing concrete equipment pit currently housing the odor control system and chemical dosing metering pumps.
- Recoating the interior of existing concrete equipment pit.
- Installation of new sump pump and associated piping within the existing concrete equipment pit.
- Replacement of the chemical dosing piping with new double containment piping with leak detection placed in a new utility trench routed from chemical bulk storage containment area to existing valve vault.
- Expansion, rehabilitation and recoating of existing chemical bulk storage containment area.
- Relocation of two existing chemical metering pumps to the chemical bulk storage containment area and installation of new VFDs.
- Demolition of the existing chemical dosing piping in existing valve vault.
- Concrete repairs and rehabilitation of corroded components in the existing valve vault.
- Rebalance supply air and exhaust air flow rates from the existing pump station facility.
- Miscellaneous civil, structural, electrical, and instrumentation improvements.

**RFQ FOR DESIGN-BUILD SERVICES - WALTERS MIDDLE SCHOOL BUILDINGS REPLACEMENT & NEW GYMNASIUM PROJECT** Addenda: 1

**4/24/25 2:00 PM** 25-01201 Fremont **School**  
 Plan Issuer: Fremont Unified School District - Facilities 510-659-2559 000-000-0000  
 Contract #: 484-03-25-25

The District is seeking a design-build entity or team ("Design/Builder") to design and construct the District's Walters Middle School Buildings Replacement & New Gymnasium Project ("Project").

**Project Description:**

Construction of a new approximately 40,000 SF school building with associated sitework and improvements to replace existing occupied school buildings, and the construction of a new approximately 8,000 SF new gymnasium with associated sitework. The Design Build budget, including all fees and allowances, is \$48,000,000 - \$53,000,000.

The project includes phasing of abatement, demolition, sitework and new improvements in order to transition from the old facilities and to construct the new buildings.

Questions regarding this RFQ may be directed in writing to the Bond Program Manager Facilities & Construction, Priscilla Wong, at pwong@fusdk12.net, and Omid Azizi at omid.azizi@cumming-group.com, and must be submitted on or by 2:00 P.M. on April 10, 2025.

000-000-0000

Perform landscaping services for the RHA at the Nystrom Village Property.

The main property site, owned and managed by RHA, is known as Nystrom Village. It comprises 51 wood-frame duplexes built in 1941, totaling 100 residential units. Spread over four (4) blocks and nine (9) acres, the site is located between Florida Avenue and Virginia Avenue (north to south), and South 13th Street and South 16th Street (east to west) in Richmond, CA 94804. The property has a mix of 1-, 2-, and 3-bedroom units.

The secondary site, owned and managed by RHA, is known as the Hacienda Excess Lot. It is located at the corner of Roosevelt Ave and 13th street sharing the same block as the Hacienda Heights Senior Apartments. This excess lot is approximately 1.8 acres

The selected landscaping company will be responsible for ensuring the grounds remain pleasing to the eye, safe, and well maintained.

**SALINAS VALLEY HEALTH CATH LAB 3 AND ANGIO EQUIPMENT REPLACEMENT**

**Addenda: 3**

**4/25/25 2:00 PM 25-01101 Salinas**

**Hospital**

Plan Issuer: Bogard Construction, Inc. dsullivan@bogardconstruction.com 831-426-8191 831-426-4921

Prebid Conf: 3/28 from 10:30am-12pm - 535 E. Romie Lane, Suite 6, Salinas

Salinas Valley Health is undertaking a comprehensive modernization project to replace imaging equipment and remodel the Catheter Laboratory (Cath Lab) and Angiography (Angio) procedure and control rooms. These facilities are located on the first floor of the Cardiac Center South and Cath Lab Expansion buildings within the main hospital. This project will be managed as a single construction effort, with two distinct project numbers and phases. The first phase will focus on remodeling the Angio procedure room, control room, and ancillary spaces. The second phase will address the Cath Lab procedure room, control room, and associated ancillary spaces. The project will include all necessary activities, coordination, materials, labor, tools, equipment, freight, transportation, superintendence, and project management required for the safe execution of the Work. The Work shall include any and all systems in support of Owner-furnished Cath Lab and Angio equipment, including structural supports, equipment anchorage, electrical and power distribution systems. The Work shall include concrete cutting, coring, filling, patching, and reinforcement per plan. The Work shall include flooring leveling, floating and prep, and flooring installation of flooring and base systems. The Work includes but is not limited to safe-off, demolition, debris and waste removal, replacement, upgrade, and adherence to infection control, temporary power, floor, wall, ceiling, structural supports and anchorage, fire proofing, mechanical, electrical and lighting, low voltage, fire alarm, nurse call, fire sprinkler, plumbing, and medical gas systems, including inspections, testing, air balancing, purity and certification of facilities, services, utilities and equipment, and restroom accessibility compliance.

Plan Issuer: Alameda County General Services Agency (GSA)

510-208-9700 510-208-9711

Prebid Conf: 4/1 @ 10 AM via Zoom

Contract #: 902602

It is the intent of these specifications, terms, and conditions to describe the as needed maintenance, repair, and services for commercial boilers as requested by the County.

The County intends to award a three-year contract (with the option to renew for two years) to a pool of up to two (2) Bidders selected as the lowest responsive and responsible Bidders whose response meets the County's requirements.

The Alameda County General Services Agency - Building Maintenance Department (GSA-BMD) is tasked with the essential responsibility of overseeing the maintenance, repair, and operational upkeep of a vast array of facilities. With a remarkable portfolio that includes over 182 buildings ranging from administrative offices and courthouses to youth centers, veterans memorial halls, parking structures, and detention facilities, the department services a collective area of approximately 8.1 million square feet. This extensive coverage reflects GSA-BMD's dedication to ensuring that each facility remains not only functional but also conducive to the needs of the community, providing a safe and welcoming environment for employees, residents, and visitors alike. Their efforts encompass everything from routine maintenance tasks to urgent and emergency repairs and replacements, demonstrating a commitment to excellence in public service and facility management. Contractor will provide as-needed maintenance, repair, and services for commercial boilers within the facilities.

**THURGOOD MARSHALL ACADEMIC HIGH SCHOOL SCHOOLYARD OUTDOOR LEARNING PROJECT Addenda: 3**

**4/29/25 2:00 PM 25-01257 San Francisco \$4,500,000 School**

Plan Issuer: SFUSD - Prop A Bond Program Contracts Office simonr@sfusd.edu 415-241-6152 000-000-0000

Prebid Conf: MAND 4/8 @ 1 PM & 4/15 @ 1 PM (Meet at Thurgood Marshall HS, 45 Conkling St., San Francisco. Bidders shall meet directly in front of the main entrance along 45 Conkling St.) Contract #: 11972

The Project is generally described as including, but not limited to: Schoolyard site improvement work including, but not limited to, regrading and resurfacing of the existing upper yard and kindergarten yard to include new drainage and stormwater retention, new seating and landscaping, miscellaneous gutter work, sport courts & track restriping, perimeter fencing upgrades, entry stair and ramp at Irving Street, installation of new playground equipment & matting, new pre-check (PC) approved shade structure, and miscellaneous improvements at main entrance and main office. Includes hazardous material/asbestos/lead remediation.

CONTRACTOR'S LICENSE REQUIRED FOR THE WORK: Class B - General Contractor with Asbestos and Lead Certification or Sub-Contractor with Asbestos and Lead Certification performing the work. Any Bidder not so duly and properly licensed shall be subject to all penalties imposed by law.

PROJECT LABOR AGREEMENT: All Bidders are hereby notified that the District has a Project Labor Agreement (PLA) in effect on the Project and all contractors and subcontractors bidding this project will be required to comply with the PLA.

PRE-QUALIFICATION: All Bidders are hereby notified that this Project is subject to the District's Pre-Qualification Procedure. All General Contractors must submit a prequalification package a minimum of ten (10) business days prior to bid date in order to bid on this project. No bids will be received or opened from Bidders who have not been pre-qualified through the District's Pre-Qualification Procedure. Prime Contractors shall prequalify through PQ Bids at: <https://go.pqbids.com/enroll-us>

All questions about the meaning or intent of the Contract Documents are to be directed in writing to Tiffany Gong at: [gongt@sfusd.edu](mailto:gongt@sfusd.edu). Questions received less than seven (7) days prior to the date for opening Bids may not be answered.

Contract #: 12838B

The scope of work included in this permit encompasses the replacement of a 1200a ATS and a generator daily tank controller panel. The new design aims to replace the existing ATS and tank controller with new ones of like size and type at the same location. The existing ATS, which feeds critical loads for the museum and research lab, is being replaced due to persistent Failure issues.

All existing associated feeders, conduits for the ATS will be retained and reused. There are no architectural, mechanical, plumbing or lighting scope.

Note: building is an occupied 24/7 research facility. The building systems must remain functional At all times. All new electrical work shall comply with university of Berkeley electrical safety Program that was update according to the NFPA 70e 2018-2021.

Contract #: 11918.66 - TP 0004

THIS IS AN ADVERTISEMENT ONLY. BID DOCUMENTS WILL NOT BE AVAILABLE TO REVIEW IN ONLINE PLAN ROOM. ADVERTISEMENT FOR INVITATION TO BID IS AVAILABLE IN SPECS FOLDER.

Design-Builder Firm Name: Clark Construction

The Airport has a series of cargo buildings at the end of their useful life. This replacement 254,000 square feet, two-story cargo facility has been planned with approximately 106,000 square feet on level 1 and approximately 88,000 square feet on level 2, and a combined 60,000 square feet of mezzanine-level space, half of which would support level 1, and half of which would support level 2. The building will require landside maneuvering depth from West Field Road for approximately 28 trucks. The first phase of this facility will likely be occupied by an airline tenant.

Trade Package Title: Electrical Core Subcontractor

Scope of Work: Design services provided by design-build contractor for electrical and low voltage systems, including but not limited to communication, security and fire life systems.

ONLINE

Plan Issuer: San Mateo County Harbor District 650-741-9176

Prebid Conf: 4/3 @ 2PM (Via Zoom Conference) Contract #: 2025-02

District requests proposals from qualified Proposers to provide design, engineering, public outreach, permitting and construction management services for the Burnham Strip Overflow Parking Lot Project, a project to improve recreational access to the San Mateo Coast.

The District intends to create a new parking lot and greenspace area in order to accommodate overflow vehicle parking caused by a high number of users at Pillar Point Harbor, launch ramp, local restaurants, retail businesses and local public beaches (to include Surfers Beach). Therefore, the District is currently requesting qualified firms or individuals to submit design, engineering, public outreach, permitting and construction management proposals for consideration.

**4/30/25 2:30 PM 25-00958 San Francisco**

**\$43,000,000**

**Public Works**

Plan Issuer: City & Co of San Francisco - DPW contractadmin.staff@sfdpw.org

628-271-3139

000-000-0000

Prebid Conf: 3/26 @ 10 AM (Meet at Portsmouth Square, 733 Kearny St., San Francisco)

Contract #: 0000009958

Scope of Work: This Project involves the renovation of Portsmouth Square, an existing public park located above the Portsmouth Square parking garage in San Francisco's Chinatown district. The project will demolish nearly all existing park features and the Kearny Street pedestrian bridge. The existing upperlevel restrooms and the parking garage below will remain in place. The plaza will be completed with new drainage and waterproofing, new paving, landscape planters, irrigation, decorative walls, stairs, curbs, railings, shade structures, playground structures, lighting, and electrical systems. Architectural work includes the construction of a clubhouse building and select retrofit of structural concrete. The existing Hilton Hotel building at the east side of the pedestrian bridge as well as the parking garage below shall be occupied and used by the public during construction.

LICENSE REQUIREMENT: Class "B" License is required to bid.

**Public Works**

Plan Issuer: City & Co of San Francisco - DPW contractadmin.staff@sfdpw.org 628-271-3139 000-000-0000

Prebid Conf: 4/14 @ 10 AM (Meet at the Tenderloin Rec Center, 570 Ellis St., San Francisco) Contract #: 0000010562

Tenderloin Rec Center Children's Play Area Improvement project is located at 570 Ellis Street, San Francisco between Hyde Street and Leavensworth Street. The Project will renovate the Children's Play Area (CPA) by creating a nature-focused play and exploration area, enhancing outdoor recreation, adding seating, expanding planting areas, and implementing ADA improvements. The scope includes demolition of the current play equipment and rubber tile surfacing, demolition of hardscape, relocating the portable soccer pitch to the front of the property, and shifting the play area to the rear corner. The new play area will feature updated equipment, resilient surfacing, and log edging for nature exploration. Some of the play equipment will be pre-purchased by a donor and installed by the contractor. The soccer pitch will undergo minor improvements to comply with ADA standards, and synthetic turf will replace the existing plastic tile surface. Tiered concrete seating between the play area and soccer pitch will serve as an outdoor classroom. A new seating area with benches will be added near the entrance, and picnic tables will be placed next to the gymnasium. The project also includes new planting, irrigation, and subsurface drainage. The remaining asphalt surfacing will receive a new acrylic topcoat with sport court striping. ADA improvements will involve reconfiguring the steel handrails at the wheelchair ramp, replacing the drinking fountain, and upgrading the pavement along the path of travel.

LICENSE REQUIREMENT: Class "A" License is required at time of award.

For more information, contact the Project Manager, Keri Ayers, at (415) 885-9252, or email: Keri.Ayers@sfgov.org.

**NEW CHAIN LINK FENCE & GATE SERVICES**

**Addenda: 1**

**5/1/25 10:00 AM 25-01459 Concord**

**Public Works**

Plan Issuer: Contra Costa Water District-CCWD

925-688-8300 000-000-0000

Contract #: 2610

Operations and Maintenance Chain Link Fence and Gate Services at Treated Water Pump Stations (TWPS), Water Treatment Plants (WTP), and Canal Right of Way (Canal ROW), or at locations as requested by CCWD (Contra Costa Water District) personnel not limited to but including:

- Providing labor, materials and supervision, and fence various locations within CCWD's Treated Water and Untreated Water Service Areas on a linear foot basis as per included specifications, drawings and pricing sheets (see Attachment B).
- The fencing will be 5 feet, 6 feet, or 8 feet high chain link fencing fabric per CCWD specifications and drawings. Chain link fencing submitted prices are by lineal foot and must include removal of old fence or fencing materials (see Attachment B pricing sheet(s)).
- The fence will be installed over terrain that is significantly level, with small amounts of semilevel, or hilly terrain (less than 25%).
- Pricing will be based on this combination of terrains and include grubbing and debris removal of 2-inch diameter and less along the fence line.

Deadline for Questions: April 18, 2025 at 4:00 PM

**NEW RFQ/P SOLID WASTE HANDLING AND RECYCLING & COMPOSTING AND PREVENTION SERVICES**

**Addenda: 0**

**5/1/25 2:00 PM 25-01524 Oakland**

**School**

Plan Issuer: Oakland Unified School District

510-879-8642 000-000-0000

Contract #: 25039

The purpose of this Request for Qualification and Proposals (RFQ-P) is to solicit Proposals from a solid waste management company that can provide the District with all the services necessary to collect and process the District's solid waste (including at minimum, garbage, compostable and commingled recyclables). The District intends to select one or more contractors through this RFQ-P process that are believed to be able to provide the best value to the District. The selected Contractor or Contractors will manage a comprehensive Solid Waste Management Program ("SWMP") that assists the District's Waste Prevention Program that implements waste management best practices to promote source reduction, recycling and composting, and environmentally-safe transformation and environmentally safe land disposal. The selected Contractor will also need to support and assist from a district wide to individual site compliance with State Mandate SB1383. The successful Contractor shall also make recommendations to the District on procedures to implement to attain this objective.

<b>5/1/25</b>	<b>2:00 PM</b>	25-01270	Richmond	\$8,000,000	<b>School</b>
Plan Issuer: BHM Construction, Inc. Bids@bhmconstruction.com				707-643-4580	707-643-4581

\*\*\* WAITING FOR DOCUMENTS \*\*\*

Richmond High School Utility Make Ready Package.

BHM Construction is requesting subcontractor bids for the following scopes of work only: Earthwork, Grading, Utilities for campus modernization.

The West Contra Costa Unified School District ("District") has determined that contractors on future projects ("Contractor(s)" or "Firm(s)") must be prequalified prior to submitting a bid or proposal on a project. This form must be completed by any Mechanical, Electrical, Plumbing, Fire Sprinkler contractor that intends to bid and perform under one of these license categories as a first-tier subcontractor to a general contractor (prime contractor) that is bidding directly to the district. Prequalification applications are due by April 11, 2025, to the district.

Deadline for Questions: April 25, 2025, 3:00 PM

**SOUTHEAST WATER POLLUTION CONTROL PLANT 940 - MAINT BLDG, INTERIM OFFICE RENOVATIONS**

**Addenda: 3**

<b>5/1/25</b>	<b>2:00 PM</b>	25-00912	San Francisco	\$15,000,000	<b>Public Works</b>
Plan Issuer: City & Co of San Francisco - Utilities QBD@sfgwater.org				884-295-5417	000-000-0000
Prebid Conf: 3/18 @ 10 AM - Teleconference Pre Bid Conference (See Advertisement for Bids for participation instructions)				Contract #: WW-758	

PLEASE NOTE: THIS PROJECT IS "SECURITY SENSITIVE" AND WILL NOT BE AVAILABLE ONLINE. If interested in obtaining a bid set, please complete and return the Confidentiality Agreement (available online in the Specs Folder) to the Owner at: QBD@sfgwater.org with the Contract Number and "Confidentiality Agreement to Subs/Suppliers" in the subject field.

The objective of the Project is to address current overcrowding and code-compliance issues, while maintaining productive and safe operations at SEP. Health and safety improvements include, but are not limited to, means of egress, fall arrest/ protection, emergency lighting, signage, mitigation of trip hazards, and providing safe roof access. The Work is to be performed in San Francisco, California.

LICENSE REQUIREMENTS: A Class "B" California Contractors License is required to bid. Furthermore, each listed subcontractor must possess appropriate active licenses for the work each subcontractor will be performing.

SITE INSPECTION will be held at 750 Phelps Street, San Francisco, CA 94124, at 10:00 AM on 3/19/2025. A second Site Inspection will be held on 3/31/25, at 1:00 PM.

SFPUC encourages Bidders to complete the Safety Prequalification Web Form at: <https://www.sfpuc.gov/?construction-contracts????/contract?-opportunities-payments/prequalify-construction> at least 3-weeks prior to the date of Bid opening in accordance with Section 00 21 13 - Instructions to Bidders. Bidders are required to pass the Safety Prequalification prior to SFPUC considering their bid submission complete. SFPUC will notify Bidders that have passed the Safety Prequalification prior to or on the date of Bid opening. Refer to Section 00 21 13 - Instructions to Bidders, "Bidder Qualifications" and the website listed above for additional information.

**RFP FY25&26 LOS VAQUEROS WATERSHED DESIGN SERVICES**

**Addenda: 0**

**5/1/25 4:00 PM** 25-01329 Brentwood & Livermore **Public Works**  
 Plan Issuer: Contra Costa Water District-CCWD 925-688-8300 000-000-0000

CCWD requests proposals from firms to provide professional engineering services for projects at various facilities throughout the Los Vaqueros Watershed (Watershed) located between the cities of Brentwood and Livermore.

The Los Vaqueros Watershed (Watershed) consists of 18,500 acres of protected watershed land surrounding the 1,900-acre Los Vaqueros Reservoir. The reservoir stores up to 160,000 acre-feet of water for CCWD customers in central and eastern Contra Costa County. The Watershed and reservoir provide year-round public use opportunities for fishing, boating, hiking, and picnicking. The Watershed also provides critical wildlife habitat for many protected species, including the Alameda whipsnake, California tiger salamander, California red-legged frog, the San Joaquin kit fox, and other sensitive and endangered species.

**RFP FOR GENERATOR MAINTENANCE, REPAIRS, AND SERVICES**

**Addenda: 4**

**5/6/25 2:00 PM 25-01135 Alameda & Oakland Public Works**

Plan Issuer: Alameda County General Services Agency (GSA) 510-208-9700 510-208-9711  
 Prebid Conf: 3/27 @ 10 AM via Zoom Contract #: 902593  
 It is the intent of these specifications, terms, and conditions to describe generator maintenance, repairs, and services being requested by the County.

The County intends to award a three-year contract (with the option to renew for two years) to a pool of up to two (2) Bidders selected as the most responsible Bidders whose response conforms to the RFP and meets the County's requirements.

The Alameda County General Services Agency – Building Maintenance Department (GSA-BMD) is tasked with the essential responsibility of overseeing the maintenance, repair, and operational upkeep of a vast array of facilities. With a remarkable portfolio that includes over 182 buildings—ranging from administrative offices and courthouses to youth centers, veterans memorial halls, parking structures, and detention facilities, the department services a collective area of approximately 8.1 million square feet. This extensive coverage reflects the GSA-BMD's dedication to ensuring that each facility remains not only functional but also conducive to the needs of the community, providing a safe and welcoming environment for employees, residents, and visitors alike. Their efforts encompass everything from routine maintenance tasks to urgent and emergency repairs and replacements, demonstrating a commitment to excellence in public service and facility management. GSA-BMD is seeking a pool of contractors to provide generator maintenance, repair, and services within the facilities.

**NEW ANNUAL STREET RESURFACING & PREVENTATIVE MAINTENANCE**

**Addenda: 0**

**5/7/25 2:00 PM** 25-01453 Pleasanton \$4,100,000 **Public Works**  
 Plan Issuer: City of Pleasanton - Engineering 925-931-5650 000-000-0000  
 Contract #: 25503

There are two components to this project: The first component is preventative maintenance work in preparation for the City's Annual Slurry Seal Project; the second component is the Annual Street Resurfacing Project work.

The preventive maintenance work includes approximately 30,000 square feet of full-depth HMA repair (dig-out) and 12,000 pounds of crack sealing on various streets in preparation for approximately 740,000 square feet of slurry seal work that the City will perform under a separate contract. The preventative maintenance work shall be completed no later than August 29, 2025.

The Annual Street Resurfacing Project work involves resurfacing approximately 1,230,000 square feet of existing pavement (approximately 12,500 tons HMA) and approximately 100,000 square feet of full-depth HMA pavement repair on various streets with HMA overlay, HMA overlay with paving mat, HMA overlay over cold-planed pavement, or HMA overlay over the cold-in-place recycle pavement.

The project also includes the installation of asphalt leveling course in various locations, wedge grinding or milling, adjusting manholes and valve boxes, etc. to grade, traffic striping and pavement legends, pavement markers, traffic signal loops, traffic control and any necessary coordination with other projects occurring within the vicinity of the project site.

Contract #: RJOEN-PV010,  
RJOCS-PV010,  
RJOCH-PV001

In general, a Job Order Contract (JOC) is a competitively bid, firm fixed priced, indefinite quantity contract. The Contract scope of work includes a collection of detailed repair and construction tasks and specifications that have established unit prices for Job Order Contracts (JOCs) as identified in this document. The University issues to the Contractor discrete, fixed-price task or job orders, as needed, under the contract. Under the JOC concept, the Contractor furnishes all management, documentation, labor, materials, and equipment needed to perform the work.

All CSU campuses, including the Chancellor's Office, will be participating in the CSU systemwide agreement.

**NEW RESERVOIR CAULKING SERVICES** Addenda: 0  
**5/12/25 10:00 AM** 25-01503 Various Cities **Public Works**

Plan Issuer: Contra Costa Water District-CCWD 925-688-8300 000-000-0000  
 Prebid Conf: 4/28 @ 8:30 AM at CCWD, 1331 Concord Avenue, Concord and continue to reservoirs. Contract #: 2614

Reservoir Caulking Services are required at various CCWD treated water reservoir sites. These caulking services will be provided by an appropriately certified and licensed commercial caulking application company. Caulking materials for the project have been specified below per the attached specification sheet(s). The reservoir sites to be caulked will be determined after the emptying and visual inspection has occurred.

A. Furnish all necessary materials, equipment, incidentals and needed labor necessary to install caulking sealant and related materials in the construction joints of various reservoirs to be identified by the Project Manager and or Operation and Maintenance (O&M) Supervisor.

B. The work includes, but is not limited to:

1. Work to be conducted in a confined space environment.
2. Caulking sealing exists construction joints in the various reservoirs with non-sag type caulking sealant.
3. Sealing intersection of floor joints with walls with special sealant system
4. Removal coordination operation of existing Caulking sealant to be disposed of according to Local, State and all Federal regulations and guidelines.

Deadline for Questions: April 28, 2025 at 5:00 PM

**NEW NEWELL ROAD BRIDGE REPLACEMENT PROJECT, PE-12011 - CITY OF PALO ALTO**

**Addenda: 0**

SC **5/13/25 3:00 PM** 25-01493 Palo Alto \$12,000,000 **Public Works**  
 ONLINE

Plan Issuer: City of Palo Alto - DPW 650-329-2271  
 Prebid Conf: 4/28 @ 10AM (Community Meeting Room (Ground Floor Level), City Hall, 250 Hamilton Avenue, Palo Alto) Contract #: IFB 194068

Remove a 114-year-old bridge located over San Francisquito Creek spanning between Woodland Avenue (East Palo Alto) and Newell Road (Palo Alto). The existing bridge is approximate 22-ft wide and 80-ft long, and abutments are located within the creek. The proposed bridge is approximately 42.6-ft by 80-ft. Work includes design and install creek protection measure, dewatering plan, demo concrete structures, install new Caltrans standard concrete structures (bridge with reinforced pile abutments, floodwalls and retaining walls), raising the approaches (4-ft - 0) and utility appurtenances (hydrant, valves, cleanouts, laterals, mainlines, manholes, etc.) to grade. Contractor is responsible for the design of retaining walls, complying with environmental permits, preparing plans (traffic control, dewatering, logistics). Additional improvements include permanent creek protection measures, water line relocation, tree removal and new planting. Work within the creek is limited to June 15 - October 15 and all work to be completed within 1.5 years. The project is funded by Highway Bridge Program (HBP), compliance with Caltrans standards and practices is required.

**TURF MOWING**

**Addenda: 0**

**5/14/25 2:00 PM 25-01406 Antioch**

**Public Works**

Plan Issuer: City of Antioch - Public Works Department

925-779-7050

925-779-7062

Contract #: 988-0514-25A

1. Mowing Schedule and Height:

The contractor is to mulch mow (no bagging of cuttings) biweekly. The mowing height must be between 2" and 3", unless otherwise directed by the City Representative.

2. Flexibility in Mowing Schedule:

The City will allow flexibility on the mowing schedule, as long as turf is mowed every 2 weeks or as directed. If mowing does not occur as scheduled, liquidated damages may be enforced (see Liquidated Damages, Section 20, Page 4).

3. Edging and Weed Eating:

The contractor will alternate between edging and weed eating around trees, utility boxes, and valve boxes every other mowing round. For example:

- o First round of monthly mowing: Mow and Edge

- o Second round of monthly mowing: Mow and Weed Eat Around Trees, Utility, and Valve Boxes

- o Exception: Areas 252-4521 (Downtown Area and Marina) and Antioch Police Department Offices must be mowed weekly during the active growing season (March–October) and biweekly from November–February.

4. Coordination of Irrigation and Mowing:

The contractor and City shall coordinate the irrigation and mowing schedules.

5. Equipment and Labor:

The contractor must provide all equipment, labor, and incidental items to mow and edge the turf as specified on the attached service maps (Attachment "A"). All equipment must be top-quality, commercial grade.

6. Irrigation Defects and Damage Reporting:

The contractor is required to report any irrigation defects observed during mowing operations (a contact number or email will be provided to the successful bidder). Any damage caused by the contractor during operations must be repaired at no additional cost to the City.

7. Fertilizing:

The contractor will apply fertilizer twice a year (spring and fall) to all turf areas specified in the contract.

The City will provide the fertilizer and hand spreaders. Fertilizer must only be applied to turf areas. Any fertilizer spilled outside these areas (e.g., gutters, streets, or sidewalks) must be immediately cleaned up. Fertilizer must never enter storm drains.

8. Cleaning Mower Wheels, Blowing off Sidewalks, and Storm Drain Precaution:

The contractor must clean the wheels of all mowers before leaving the site to avoid tracking soil onto roads, walkways, or other paved areas. Additionally, the contractor will blow off sidewalks and make a special effort to prevent cuttings from entering the storm drain.

9. Winter Mowing Schedule Adjustments:

The City may reduce the mowing schedule during the winter months. If this occurs, the City will contact the contractor to adjust the schedule. Leaf drop removal may replace mowing during late fall and winter if the ground is saturated.

10. Litter Pickup and Removal of Leaves Before Mowing:

The mowing crew must pick up all litter on the turf prior to mowing. Litter should not be mowed over. Additionally, fall and winter leaves must be removed from the turf areas prior to mowing to avoid thatch build up. If litter and/or leaves are mowed over, the cost for that specific area will be deducted from the contractor's next payment.

11. Invoice Detailing:

Due to various cost centers, the City will provide specific directions on how the contractor's invoice should be detailed for payment.

**SC 5/15/25 2:00 PM** 25-01465 Gilroy \$520,000 **Public Works**  
 ONLINE

Plan Issuer: County of Santa Clara Facilities & Fleet 408-993-4600 408-993-4895  
 Prebid Conf: MAND 4/21 @ 11AM (9400 No Name Uno, Gilroy) Contract #: ITB-FAF-FY25- 263 -CP24013

Work consists of:

1. Furnishing of all labor, material, superintendence, power, light, tools, appliances, equipment, machinery, supplies, certifications, services, and other means of construction necessary or proper for performing and completing the Work.
2. Involves the procurement of pre-engineered canopy materials and other materials that are approved equal upon award;
3. Removal of existing gate, pavement striping, fencing and all other work as shown in the drawings;
4. Clearing and grubbing, saw cutting, and concrete removal as shown in the drawings;
5. Installation of canopy post drilled pier footings as shown in the drawings;
6. Installation of a Pre-Engineered Aluminum Canopy covering the walkway between the hospital and an existing MRI Trailer, and includes the provision of lighting and associated site improvements to facilitate canopy installation;
7. And the installation of new linear LED light fixtures and all other associated electrical work as shown in the drawings.
8. Contractor shall include coordination with the end user and ensure that all other scopes of work shown in the drawings and specifications are included.
9. All work shall comply with HCAI/ OSHPD requirements including the Deferred Approval Process.
10. Contractor to attach their Canopy installer qualifications in their bid submission. Contractor to refer to Section 10 73 16 for Installer Qualification Requirements.
11. The Contractor shall ensure that construction activities do not disrupt MRI Trailer operations. This includes manually installing the three drilled piers closest to the MRI Trailer and Patient Lift, implementing measures to protect and allow continuous functioning of the MRI Trailer throughout construction.
12. The Contractor is responsible for the safety of their workers, considering that the MRI has strong magnetic fields that can affect personal medical devices such as pacemakers. The contractor shall adhere to all MRI safety protocols, including maintaining required safety zones.

**NEW** [RFQ FOR DESIGN-BUILD SERVICES - IRVINGTON HIGH SCHOOL BUILDINGS REPLACEMENT PROJECT](#) **Addenda: 0**

**5/15/25 2:00 PM** 25-01521 Fremont

**School**

Plan Issuer: Fremont Unified School District - Facilities

510-659-2559 000-000-0000

Contract #: 485-04-16-25

The District is seeking a design-build entity or team ("Design/Builder") to design and construct the District's Irvington High School Buildings Replacement Project ("Project"). The Project is further defined in the attached APPENDIX A, along with the District's expected cost range and schedule for the Project. The District's performance specifications, which the selected Design/Builder must adhere to in delivering the Project, will be made available to prequalified respondents at the RFP stage.

The selected Design/Builder must be appropriately licensed in the State of California for architectural, engineering, and construction services as needed to complete the Project. In addition, the selected Design/Builder shall have experience with both design and construction of public school facilities and in working with the Office of Public School Construction ("OPSC"), the Division of the State Architect ("DSA"), and Title 24 of the California Code of Regulations.

**Project Description:**

Construction of a new approximately 102,000 SF school building with associated sitework and improvements to replace existing occupied school buildings. The Design Build budget, including all fees and allowances, is \$90,000,000 - \$95,000,000.

The project includes phasing of abatement, demolition, sitework, modernization, and new improvements in order to transition from the old facilities and to construct the new buildings.

**Public Works**

Plan Issuer: Hayward Area Recreation & Park District

510-881-6715 000-000-0000

Prebid Conf: MAND 4/29 @ 10 AM at 19501 Hesperian Blvd., Hayward

Contract #: 25-103

The scope of this project is to replace the current irrigation well located at Kennedy Park, 19501 Hesperian Blvd., Hayward, CA 94541. The current well was constructed in 1978. As part of the 2019 park renovation project, well repairs were implemented to remove accumulated fill and deal with sand production from the well. Last year the recently replaced well pump failed and the park now utilizes city water for irrigation. This project will replace the existing well with a new well that is similar in functionality to the original well. The current irrigation system will need to remain operational throughout the project. Final well equipping and connections to the existing delivery system are also included in this project scope.

**NEW** [RFP FOR MAIN ADMINISTRATION BUILDING AND ADELINE MAINTENANCE CENTER ADMINISTRATION BUILDING RESTACKING PLAN - EBMUD](#) **Addenda: 0**

**5/16/25 2:00 PM 25-01481 Oakland Public Works**

Plan Issuer: EBMUD (East Bay Municipal Utilities District) [purchase@ebmud.com](mailto:purchase@ebmud.com) 510-287-0447 000-000-0000  
 Prebid Conf: 4/28 @ 9 AM (Meet at at 375 11th St., Oakland. The Site Walk will also include travel Contract #: 566 25-01 to 1100 21st St., Oakland. Participants will need to provide their own transportation between the two sites.)

EBMUD is soliciting proposals for architectural and space planning services for two of East Bay Municipal Utility District's (EBMUD's) administration buildings in Oakland, CA. One of the buildings is a nine-story office building with basement level parking located at 375-11th Street in downtown Oakland. The other building is a two-story building located at 1100-21st Street in West Oakland. The services include conducting a space needs assessment that evaluates the efficiency of existing workspaces in each facility; determining potential needs; and analyzing space optimization for the purpose of improving efficiencies, modernizing the design to meet the needs of current and future employees. The services will also include identifying spaces that could be leased to non-EBMUD tenants or as residential spaces while maintaining security for EBMUD employees and facilities, and evaluating potential rental markets. The services will include extensive outreach and communication with all EBMUD stakeholders to arrive at a consensus strategy.

If you have questions regarding this RFP, please contact Maura Bonnarens, Project Manager, at (510) 287-1023, or by email at: [maura.bonnarens@ebmud.com](mailto:maura.bonnarens@ebmud.com). To ensure a response, questions must be received no later than 2:00 PM on Wednesday, May 7, 2025.

**NEW** [RFP ON-CALL UNDERGROUND WATER, SEWER, OR STORM REPAIR SERVICES](#) **Addenda: 0**

**5/16/25 2:00 PM 25-01492 Antioch Public Works**

Plan Issuer: City of Antioch - Public Works Department 925-779-7050 925-779-7062  
 Contract #: 968-0516-25

The City of Antioch ("City") is requesting proposals from qualified firms for On-Call Underground Water, Sewer, or Storm Repair Services ("Services"), which shall be provided under the general direction of the Collection Systems Superintendent and Water Distribution Superintendent or their designees. The selected contractor will be expected to perform complete repairs of water, sewer, and storm infrastructure within the City of Antioch on an as-needed basis. This includes emergency and scheduled work, trenching or trenchless methods, pipe replacement, rehabilitation of sewer/storm manholes and catch basins, and restoration of affected areas such as pavement and base material. Contractors must meet City construction standards and be prepared to respond to emergency calls within 24 hours and scheduled work within 72 hours. Please see the "Scope of Work" for more details.

Deadline for Questions: April 30, 2025, by 2:00 PM

**RFQ FOR SEISMIC ASSESSMENT SERVICE AT MULTIPLE MULTI-FAMILY PROPERTIES**

**Addenda: 1**

**5/16/25 4:00 PM 25-01415 Alameda**

**Public Works**

Plan Issuer: Housing Authority of the City of Alameda

510-747-4300

510-522-7848

Prebid Conf: MAND 4/17 @ 1 PM at China Clipper Project Site, 460 Buena Vista Avenue, Alameda Contract #: SCPMRFQ AHA 04032025

The Housing Authority of the City of Alameda is seeking Qualifications and Proposals for Engineering and Consulting Services to Identify Potentially Seismically Vulnerable Buildings and provide recommendations for appropriate retrofit.

Project Background: Community safety and resiliency of the built environment is of the utmost importance to the Housing Authority of the City of Alameda (Housing Authority). The Housing Authority seeks to enlist an Engineering Consultant to evaluate the (3) following AHA properties:

**Property #1-**

China Clipper Apartments- 460 Buena Vista Ave., Alameda, Ca. 94501.

China Clipper is a (3) story wood framed, stucco clad residential apartment building. Built in 1964, the first floor consists of (9) carports, an entrance lobby, laundry room, and (6) residential units. The second and third floors consist of (10) residential units each.

**Property #2-**

Anne B. Diament (ABD) Apartments- 920 Park St., Alameda, Ca. 94501.

ABD is a (3) story wood framed, wood siding clad residential apartment building. Built in 1975, the first floor consists of an entrance lobby, managers office, community room with a kitchen, laundry and (19) residential units. The second and third floors consist of (23) residential units, each with private wood framed, waterproof balconies.

**Property #3-**

Stanford House- 1917 Stanford St., Alameda, Ca. 94501

Stanford House is a (2) story wood framed, wood siding and stucco clad residential apartment building. Built in 1940, the basement consists of a laundry room, the first and second floors consist of (4) residential units.

Prioritize buildings that pose the highest potential risks due to seismic events or soils in, including soft story buildings and other types of construction. The person performing the study shall be a professional structural engineer or professional civil engineer, registered to practice in the State of California.

000-000-0000

Prebid Conf: MAND 4/21 @ 2:30 PM (Meet at Harvey Milk Civil Rights Academy, 4235 19th St., San Francisco. Bidders shall meet directly in front of the school play yard entrance off Collingwood St.) Contract #: 12465

The Project is generally described as, but not limited to: Play Yard Wooden Fence Replacement. The scope of this Project includes the complete removal of the existing site fence separating the school play yard and adjacent residential properties. The existing concrete retaining wall supporting the fence will be repaired with epoxy crack injections and repair mortars where concrete has spalled. A new site fence with steel posts will be anchored to the existing concrete retaining wall and infilled with wood at the lower half and chain-link fencing at the upper half. The contractor shall furnish labor and materials to provide a 8 feet high with green fabric coverings temporary construction fencing to separate the construction area and the play yard as required for the duration of the construction.

There is hazardous materials abatement work in the project.

CONTRACTOR'S LICENSE CLASSIFICATION: In accordance with the provisions of California Public Contract Code § 3300, the District requires that Bidders possess the following classification(s) of California Contractors License at the time that the Bid Proposals are opened: Class B - General Building Contractor with asbestos and lead certification or sub-contractor with asbestos and lead certification performing the work.

Questions: William Chow, Project Manager, by email at: choww@sfusd.edu, or by calling (415) 828-7292.

### RFP FOR DESIGN-BUILD SERVICES FOR NORTH FIELD ELECTRICAL INFRASTRUCTURE PROJECTS AT THE PORT OF OAKLAND

**Addenda: 8**

**5/22/25 12:00 PM** 25-00201 Oakland

**Public Works**

Plan Issuer: Port of Oakland

510-627-1140

000-000-0000

Prebid Conf: 2/27 @ 9 AM (Pre-Proposal Meeting) via Zoom. Site Visit: 2/27 @ 1:30 PM at 7200 Earhart Road, Oakland (RSVP by February 23, 2025, to Mark Summers at msummers@portoakland.com)

The Port seeks to select a Design-Build contractor based on the "Best Value" approach. This method combines both the technical merit and the cost effectiveness of each proposal to determine the most advantageous offer.

The work includes design, procurement, and construction of two (2) 12kV Substations, one (1) 5kV Substation, associate low voltage switchgear, approximately 6,000 feet of new ductbank, IT and security infrastructure, structural and foundations, and other site work.

Questions Deadline: April 10, 2025 at 9:00 AM

Contract #: 1003978

The City of Oakland proposes to improve the existing bike and pedestrian facilities on 27th Street between Telegraph Avenue and Harrison Street, and Bay Place between Harrison Street and Grand Avenue. The proposed improvements include curb ramps, storm drain systems, concrete-separated protected bike lanes, buffered Class II bike lanes, pedestrian refuges, transit boarding islands, signage and striping, traffic signal upgrades, and landscaping.

License Required: Class A

Deadline for Questions: May 15, 2025, by 2:00 PM by email to CapitalContracts@oaklandca.gov and cc the Project Manager.

**Addenda: 0**

**5/22/25 2:00 PM 25-01341 Antioch**

\$1,439,403

**DOT Cal-Trans**

Plan Issuer: Contra Costa County - Public Works Department

925-313-2000

000-000-0000

Prebid Conf: MAND 4/23 @ 10 AM via MS Tams. Site Visit: 4/30 at 501 W. 18th Street, Antioch

The project includes one building with a total of 11,803 SF to demolish and replace several electrical systems. The existing main switchboard will be replaced with a 600A switchboard to accommodate the lighting changes and provide capacity for future electrical services. The interior lighting system will either be retrofit or new light fixtures with energy efficient light emitting diode (LED) bulbs will be installed. In addition, new power outlets will be installed on the main library floor for public use. Lastly, the installation of power outlets triggers accessibility improvements for the building which includes accessible parking re-location, path of travel improvements from the parking lot to the main entrance, and public restroom upgrades.

License Required: Class B

**NEW OAKLAND ADMINISTRATION BUILDING FIBER OPTIC BACKBONE SYSTEM UPGRADE - EBMUD Addenda: 0**

**5/28/25 2:00 PM** 25-01467 Oakland \$300,000 to \$500,000 **Public Works**  
 Plan Issuer: EBMUD (East Bay Municipal Utilities District) purchase@ebmud.com 510-287-0447 000-000-0000  
 Prebid Conf: 4/29 @ 10 AM (Attendees shall assemble at District's Admin Bldg, second floor security desk, 375 11th St., Oakland) Contract #: 2195A

PLEASE NOTE: THIS PROJECT IS "SECURITY SENSITIVE" AND WILL NOT BE AVAILABLE ONLINE. If interested in obtaining a bid set, please complete and return the Request Form (available online in the Specs Folder) to the Owner at: specs@ebmud.com

Work at the East Bay Municipal Utility District's 10-story Administration Building at 375 11th Street, includes furnishing, testing and installing new fiber optic cables between existing Network Room 25 on the 3rd floor and various telecom rooms and spaces from the 1st through the 9th floor, verifying existing conditions for cable installation and validating cable routes, and furnishing and installing new patch panels at termination points along with all associated components, including fiber optic cables, conduits, supports, connectors, patch cords, etc., required for complete and turn-key fiber cable installation, and performing all related required work as shown on the drawings and specified.

LICENSE REQUIREMENTS: Bidders shall have an active C7 OR C10 license from the Contractors' State License Board at the time of submitting bid.

For Pre Bid Jobsite Inspection questions ONLY, call Maura Bonnarens at (510) 287-1023. For other questions, refer to Document 00 30 05. To request a set of contract documents or to submit project questions, visit the project website at: <http://www.ebmud.com/current-construction-bids>.

**RFP FOR DESIGN AND ENGINEERING SERVICES FOR THE CROW CANYON ROAD IRON HORSE TRAIL BICYCLE-PEDESTRIAN OVERCROSSING PROJECT Addenda: 1**

**5/28/25 2:00 PM** 25-01339 San Ramon **Public Works**  
 Plan Issuer: City of San Ramon - Engineering 925-973-2670 000-000-0000  
 Prebid Conf: 4/25 @ 2 PM (Pre-Submittal Meeting) at City Hall, City Council Chambers, 7000 Bollinger Canyon Road, San Ramon Contract #: 905531

The City is releasing this RFP to select a Respondent to provide engineering and design services to complete the final engineering and design, and to provide design support services during construction for the Project in the City.

The Project arose from the desire to enhance safety for pedestrians and bicyclists using the Iron Horse Trail, improve traffic flow on Crow Canyon Road, facilitate alternative transportation, and enhance recreation. The Iron Horse Trail is a Route of Regional Significance that serves as a bicycle and pedestrian corridor through the center of the San Ramon Valley. It extends from Dublin in the south to Martinez in the north and serves both local and regional users. The Iron Horse Trail currently serves a number of important destinations in San Ramon including three schools, City Hall, a library, Central Park, Bishop Ranch Business Park, San Ramon Transit Center, City Center Bishop Ranch, and the Market Place Shopping Center. The Iron Horse Trail will also connect with the City Center and Bishop Ranch Walking District. The anticipated benefits of the overcrossing are summarized in the San Ramon Valley Iron Horse Trail Bicycle Pedestrian Corridor Concept Plan.

## INTRODUCTION

Everyone knows they should clean up dust in their workplace as a matter of good housekeeping, but cleaning up dust can also prevent death, injury, and a huge amount of property loss from explosions of dust.

Explosions need five things: oxygen, fuel (the dust), ignition (some sort of spark or heat), dispersion into the air, and confinement.

## DUST EXPLOSIONS

When combustible dust in an enclosed space (such as a room or piece of equipment) becomes suspended in the air, any source of ignition can create an explosion. The explosion is usually small, but the vibrations will shake dust off of other horizontal surfaces, filling the air with more dust and causing an even bigger, secondary explosion. The explosions will continue as long as there is dust in the air.

## INDUSTRIES AT RISK

Dust that is combustible is finely ground organic or metal material that can cause an explosion or fire when suspended in the air and exposed to a sufficient source of ignition. Many industries may have combustible dust, including but not limited to:

- Agriculture
- Pharmaceuticals
- Textiles
- Forest Products
- Metal Processing
- Recycling Processing
- Rubber Manufacturing

## IGNITION CONTROL

- Use appropriate electrical equipment and wiring methods.
- Control static electricity including bonding of equipment to ground.
- Do not smoke in areas with combustible dust.
- Control sparks and friction.
- Separate heating systems and surfaces from dusts.
- Maintain your equipment.

## DUST CONTROL

Even if your plant air is below the Permissible Exposure Limit (PEL) for process generated dust, over time enough dust may collect on horizontal surfaces and cause an explosion. Therefore, be sure to always practice dust control:

- Inspect your workplace for dust buildup.
  - Be especially aware of unseen surfaces such as wires, pipes, ledges, and beams that may collect piles of dust over time.
- Vacuum areas where dust accumulation is constant.
  - OSHA recommends a permanently installed grounded vacuum cleaning system.
  - Only use soft push brooms or brushes if they will not form explosive clouds in the air.
  - Be aware that brush bristles made of synthetic fiber can collect strong electrostatic charges and ignite a dust cloud.
  - Blowing with fans or compressed air may create dangerous dust clouds and only should be used if there is no other cleaning method and all sources of ignition have been eliminated.
- Be sure your dust control systems, such as filters or cyclones, are always correctly working.

## CONCLUSION

Remember the five parts to a dust explosion:

- Oxygen
- Fuel (the dust)
- Ignition
- Dispersion into the air
- Confinement

As long as you are aware of the hazard of combustible dust and control the five parts, you can prevent dust explosions.

## Capitol Connection Q&A for Contractors

Week of 4/21/25

By Shauna Krause, President, Capitol Services, Inc.

I assist contractors in many states, but primarily in AZ, NV and CA. However, this year calls from other states are rising. A contractor license is like an elevator, raising your opportunity to new levels, but does it have a Hold button? A NV business sale prompts questions about change, let me help line up the hoops to jump through...

Q: Hi Shauna, thank you for helping me get my license for our Corporation a couple of years ago. We have kept up with Worker's Comp, Bond, and we provide health insurance to our family business. We also do some property management, but have stopped taking construction jobs. I'm wondering about putting the license on hold. Would it be difficult to unfreeze it at a later date? I have heard it could be hard to get back, but I'm not sure that is true. We would remain in business, but not build anything for a bit. Any advice?

A: Nice to hear from you. You can always put your license on "Inactive" status which *allows you to not have to keep the bond up*, you don't need to notify the CSLB of your Worker's Comp, and the renewal only comes up every four years as opposed to every two years. *You can always reactivate it in the future* by paying the reactivation fee and updating the Bond and Worker's Comp if needed

Q: I recently sold my Nevada contracting business. I agreed to remain the Qualifying Individual for a period of 90 days while the Buyer gets the business and license in order. I'm inquiring with you about two immediate needs now that he is the owner. 1) He would like to change the business name on the license, so we are wondering how to go about doing that, and 2) I want my name removed as a Principal on the license (while remaining the qualifier for the 90 days). Can you let us know what needs to be done to complete these updates?

A: I would be happy to help. To change the business name on the license, he would first be required to change the name with the NV Secretary of State (SOS). Because you want to be removed as Principal, I would suggest at the same time he is filing his name change with the NV SOS, he should also file a new annual list of Officers to remove you from the SOS records and add himself. Once the filings are completed at the SOS level, you can then submit a name change application to the NSCB, and at the same time submit an Officer update application to remove you and him. The Officer update application *will not remove you* as the Qualifying Individual, you will just be removed as Principal. When you are ready to be removed as the Qualifier as well, you will need to submit a Notice of Disassociation. The disassociation is required to be filed within 10 days of your resignation from the company. *Once you resign, the Buyer will have 30 days to replace you as the Qualifier on the license.* Let me know if you need further assistance!

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email [info@cutredtape.com](mailto:info@cutredtape.com), or write us at Capitol Services, Inc., 3609 Bradshaw Rd, Ste H, #343, Sacramento, CA 95827.
